**PROGRAM:** - The Active Shooter - How to respond, how to prepare and what to do for follow up. It includes a video of an active shooter situation (just acting of course) and a small workshop.

An Active Shooter is an individual actively engaged in killing or attempting to kill people in a confined and populated area; in most cases, active shooters use firearms(s) and there is no pattern or method to their selection of victims.

Active shooter situations are unpredictable and evolve quickly. Typically, the immediate deployment of law enforcement is required to stop the shooting and mitigate harm to victims.

Because active shooter situations are often over within 10 to 15 minutes, before law enforcement arrives on the scene, individuals must be prepared both mentally and physically to deal with an active shooter situation.

**SPEAKER:** George Lympelopoulos, MEng, CRSP is the Safety & Health Coordinator for Corporate Services Branch with the Department of Families.

George Lympelopoulos, MEng, CRSP is the Safety & Health Coordinator for Corporate Services Branch with the Department of Families. He is originally from Greece. He is an Engineer and CRSP (Canadian Registered Safety Professional).
