Chapter Meeting!**

THE FUTURE OF INTEGRATED RISK MANAGEMENT

**Quin Rodriguez, Riskconnect
Jannie Wentzel, Focal Point Data Risk LLC**

Integrated Risk Management – both as a philosophy and a toolset – is changing the way organizations approach a host of enterprise risks. With traditionally siloed risk areas rolling up into centralized reporting and dashboarding tools, organizations can now leverage insights from all risk areas for better decision making.

Achieving these results, though, requires rethinking a set of critical processes and technologies. In this presentation, find out how leading organizations are adapting and leveraging this game-changing approach to better understand and manage their most critical risk areas, including identity risk management, third-party risk management, and IT risk management. The presenters will discuss how to integrate affirmative and negative risk signals, walk-through real-world examples of integrated risk management in practice, and outline a plan for launching an IRM program in your organization.
