

OREGON CHAPTER of RIMS  
March 20, 2014 Meeting

**Cyber, Computer Fraud and Electronic Funds Transfer Exposures**

A detailed look into several claims scenarios that involve hacking into bank accounts and stealing funds. This seminar will focus on coverage implications and underwriting processes around this growing exposure as well as ensuring an Insured is adequately protected (through proper cyber controls), or offsetting the risk (via proper insurance coverage). Given the topic, there is significant confusion revolving around who is the responsible party (contractually), where the hacks are occurring and especially what happens to an entity's stolen funds after a fraudulent transaction. It's the banks fault, right? Not necessarily. Via real-life publicly available news stories, we will touch on the how each coverage line could be impacted, and by what, in an interactive seminar.

**Speakers:** Matt Prevost and Eric Zehnpfennig – Philadelphia Insurance Companies

*CEU's for Oregon and Washington applied for.*

**Thursday, March 20th**

**Registration at 11:15AM**

**Lunch Served at 11:45AM**
