Risk Professional Spotlight

Fallyn Cavalieri

Senior Director, Enterprise Risk Management & Insurance

How did you get into Risk Management?

My career path into Risk Management was a bit non-traditional. I started my career as an insurance coverage attorney representing insurance carriers throughout all stages of litigation, providing insurance coverage advice and guidance through regulatory matters.

What is your biggest challenge as a Risk Professional?

Risk Management requires you to foster an environment that operates with utmost transparency and effective communication. This presents the opportunity to build trust among the business leadership, collaborate on sensitive issues, and align the goals and vision of the organization with proper considerations of the risk landscape.

What is the most important skill for a Risk Professional?

Risk Professionals that have strong analytical skills and are solutions oriented will undoubtedly be successful.

What is one item you cannot live without?

My F's: Faith, Family, Friends, Fur-babies, and Fitness.

Who would you choose to be if you could switch places for a day?

It would be life-altering to switch places with a family living in a severely impoverished community. Experiences that inspire gratitude in our everyday life are so powerful.

What is your favorite local restaurant?

Lucia's on the Lake.

Who inspires you?

Women in leadership that support other women.

What is the biggest risk you have taken?

Changing careers. While change can be scary, taking the risk of pivoting my career has led me down such a positive, rewarding path.

What is the best advice you have ever received?

The best advice I have ever received is that bringing your authentic self to the table is your competitive advantage. ~-Carla Harris~-

What is one fun fact about yourself people should know?

That I am an avid bird watcher who loves nature and being close to the water
