

Co-Sponsored Event

1.2 CRC CEUs

What is the state of the real estate market and where is it heading? This event will expand upon what has happened post-covid, current economic conditions, and forecasts for the various property types. We are pleased to have, Bill Kitchen and Cody Gibbs with Costar Risk Analytics share their insights into the market. There will be Q&A after the presentation to answer your questions. Have a little extra time to unwind? Join us for Happy Hour following the presentation for networking opportunities with area bankers, brokers, real estate investors, and more.

Page. Bill holds an M.S. in economics from the University of Texas at Dallas and is a member of the Dallas Association of Business Economics and Urban Land Institute.

Bill Kitchen owns the market narrative for North Texas, Oklahoma and Arkansas by creating compelling visual and written analysis. He began his career in management consulting before entering the real estate industry, covering the southeast and west coast, multifamily markets with Real-

ety of roles ranging from data analytics to economic incentives compliance. Before joining CoStar, he led the economic development team for his former alma mater, The University of Texas at Dallas, where he worked closely with the local business and economic development community to attract new jobs and investment to the region. He holds a master's in economics and a certification in geospatial intelligence from the USGIF.

Cody Gibbs serves as Director of Market Analytics with CoStar covering the North Texas, Oklahoma and Arkansas retail and industrial submarkets. Previously, he has worked for both the public and private sector in a variety of roles ranging from data analytics to economic incentives compliance. Before joining CoStar, he led the economic development team for his former alma mater, The University of Texas at Dallas, where he worked closely with the local business and economic development community to attract new jobs and investment to the region. He holds a master's in economics and a certification in geospatial intelligence from the USGIF.
