Copperworks Distilling Co.

Copperworks Distilling Company is a craft distillery and tasting room located on the waterfront in downtown Seattle. They focus on creating distilled spirits that can stand impressively on their own or serve as a delicious base for new and classic cocktails. All our spirits are distilled from premium malted barley, primarily grown in Washington State. Copperworks uses traditional Scottish copper stills which were hand-built by expert coppersmiths in the highlands of Scotland.

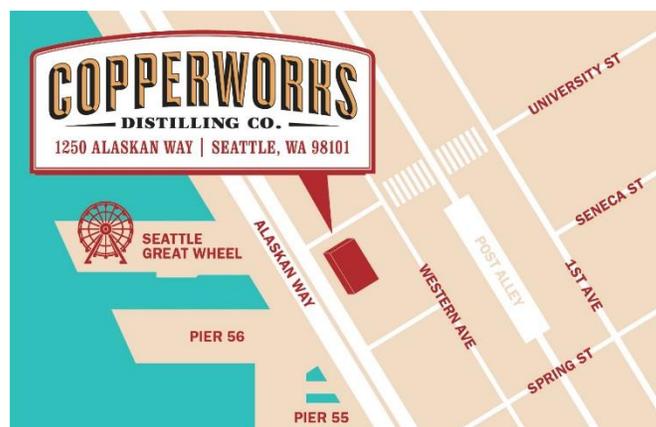

Copperworks was named "2018 Distillery of the Year" by the American Distilling Institute!
