Having Issues Logging In?

Whitelist our senders: Ask your IT department to whitelist our email senders (ConnectedCommunity.org) so that our emails are not marked as spam and can be delivered to your inbox. This will ensure that you receive important login information and updates from us.

Check your company firewall: Your company's firewall may be blocking access to the S3 or Communities of Xelence platform. Ask your IT department to check the firewall settings and make sure that the necessary ports are open to allow access to the platform.

In some cases, company networks may require users to first access the network with an alias or a different username than their email address. If this is the case, it's important to make sure that the username used to access the network matches the username set up in S3 or Communities of Xelence.

Community Rules & Etiquette and Privacy Guidelines

Thank you for being part of our community. To ensure the best possible experience for all members, we have established some basic guidelines for participation.

By joining and using this community, you agree that you have read and will follow these rules and guidelines. You also agree to reserve discussions and shared files and content to that best suited to the medium. This is a great medium with which to solicit the advice of your peers, benefit from their experience, and participate in an ongoing conversation. Questions should be directed to our member services department via the **Contact Us** link on this site.

Please take a moment to acquaint yourself with these important guidelines. If you have questions, contact the member services department. In order to preserve an environment that encourages both civil and fruitful dialogue, we reserve the right to suspend or terminate membership in this community for anyone who violate these rules.

The Rules

- Respect others. Focus on the content of posts and not on the people making them. Please extend the benefit of the doubt to newer guests and members; there's no such thing as a

Accept Community Rules

Online community guidelines are crucial for maintaining a healthy, respectful, and safe environment within online communities. Clear guidelines help ensure consistent and fair enforcement of community rules, promoting transparency and accountability.

TWO GREAT SITES, ONE LOG IN!!

Once you sign into Microsoft and accept rules, return to the community home page.

You will notice you also have access to the <u>Communities of Xelence</u> site.

S3 Community

Online community for all things S3 including documentation and product information.

Communities of Xelence

Online home of Xelence developers and clients.

Get help for your current project.

Get certified to work on a Xelence project in the future!

Complete your Profile

Having a complete online profile with a photo of yourself can help build trust and credibility with others in the online community. It shows that you are a real person with genuine intentions, and it can help establish your identity and reputation among other community members.

Completing an online profile and adding a photo of yourself can help build trust, enhance personal connections, establish professionalism, encourage engagement, meet community requirements, and personalize your online presence. It can contribute to a more positive and meaningful experience within the online community and help you establish yourself as a credible and active member.
