Fire Safety Conference on
**PERFORMANCE-
BASED DESIGN**
15-17 APRIL 2026 | SINGAPORE

The 16th SFPE Fire Safety Conference & Expo on Performance-Based Design will be in Singapore 15-17, April 2026.

SFPE conferences have established a reputation globally as the premier events for keeping abreast of advancements in fire safety engineering.

The application of fire safety engineering to develop innovative and robust fire and life safety solutions for the built environment has expanded considerably over the past 25 years. In many countries, this has been facilitated by the implementation of performance-based building and fire codes. This conference on Performance-Based Codes and Fire Safety Design Methods will provide an excellent global opportunity to address current and future trends in building and fire regulatory systems.
