

## Thanks to reviewers

The Journal of Fire Protection Engineering would like to acknowledge the efforts of the following people in reviewing articles for Volume 22. The peer review is an important process that allows the Journal to provide high quality articles that are of interest to the fire protection community. We thank these reviewers for the valuable time they have given to provide constructive suggestions to authors, thereby insuring that refereed articles are available for publication. Both SAGE and the Editorial Office particularly thank those reviewers that are in the group mentioned below who regularly review papers submitted to the journal. Thanks also to the readers of this journal for their many compliments and support throughout 2012. We hope that you will continue to support us in 2013.

Daniel Alvear – Spain
