# 2026 Emerging Energy Technologies Summit Sponsorship Opportunities

December 3-5, 2026 • National Research Council • 100 Sussex Dr, Ottawa, Ontario

## About the Summit

The SFPE Foundation and co-hosting partner, National Research Council Canada, are excited to announce the 2026 Emerging Energy Technologies Summit. Hosted in Ottawa, Canada, this three-day event anticipates 150+ attendees made up of fire protection engineers, students, researchers, fire service, authorities having jurisdiction, and other stakeholders. **All proceeds from this event will fund future FPE research projects.**

As the global transition to renewable energy accelerates, the fire protection engineering community faces unprecedented challenges. From nuclear to hydrogen fuel infrastructure and large-scale photovoltaic arrays, the risks associated with emerging energy technologies require innovative engineering solutions and collaborative safety standards.

This conference will serve as a forum for researchers, engineers, AHJs, and technology developers to share data-driven insights and advance the state of the art in fire safety for the global energy transition. Partnering with us positions your organization as a leader in shaping the future of fire engineering for the energy sector. Benefits include:

- **High-Value Brand Exposure** to a targeted audience
- **Direct Access to Decision Makers** across engineering, technology, and public-sectors
- **Thought Leadership Opportunities** through speaking roles and session participation
- **Strategic Networking** with industry partners, students, and potential clients
- **Showcasing Technologies** in a high-engagement exhibit environment
- **Visibility Before, During & After the Event** through digital, onsite, and printed channels

We provide a range of sponsorship offerings to suit various engagement goals and budgets. Each provides unique benefits designed to maximize your organization's visibility and impact, with the flexibility to mix and match opportunities.
