### 2018 Malcolm L. Peterson Honor Lecture

**Eric Horvitz, MD, PhD**

*Technical Fellow, Managing Director  
Microsoft Research*

Eric Horvitz, MD, PhD, is a technical fellow and director at Microsoft Research. He has made contributions in areas of machine learning, perception, natural language understanding, decision making, and human-AI collaboration. His efforts and collaborations have led to fielded systems in healthcare, transportation, ecommerce, operating systems, and aerospace. He received the Feigenbaum Prize and the Allen Newell Prize for contributions to AI. He has been elected fellow of the National Academy of Engineering, the Association of Computing Machinery, the Association for the Advancement of AI (AAAI), and the American Academy of Arts and Sciences. He has served as president of the AAAI, and on advisory committees for the National Science Foundation, National Institutes of Health, President's Council of Advisors on Science and Technology, the Defense Advanced Research Projects Agency, and the Allen Institute for AI. Beyond technical work, he has pursued efforts and studies on the influences of AI on people and society, including issues around ethics, law, and safety. He established the One Hundred Year Study on AI and served as a founder and co-chair of the Partnership on AI to Support People and Society. Dr. Horvitz received PhD and MD degrees at Stanford University.

## SESSION O: SATURDAY PLENARY SESSION

Saturday, April 14, 2018

8:00 – 10:00 am

Plaza Ballroom, Plaza Building, Concourse Level

### ***What Is the Role of the General Internist in the Future?***

**SPEAKER: Stephen Cha, MD, MHS**, Center for Medicare and Medicaid Innovation

**MODERATOR: Joseph S. Ross, MD, MHS**, Yale School of Medicine

**Stephen Cha, MD, MHS**

*Group Director, State Innovations Group, Center for Medicare and Medicaid Innovation*

Stephen Cha, MD, MHS, is the group director for the State Innovations Group at the Center for Medicare and Medicaid Innovation. The State Innovations Group includes the State Innovations Model, which has supported

cooperative agreements to 38 states, territories, and D.C. to accelerate state-based delivery and payment transformation. The group also supports all-payer models such as the Maryland All-Payer Model.

He was most recently the Chief Medical Officer for the Center for Medicaid and CHIP Services and promoted health transformation and modernization of the Medicaid and CHIP programs through delivery and payment reforms, and quality initiatives.

Previously, he served as senior professional staff for the Committee on Energy and Commerce under Chairman Henry A. Waxman and was responsible for a broad set of health issues including quality, delivery system reform, workforce, comparative effectiveness research, drug and device regulation, and public health. During his tenure with Mr. Waxman he oversaw the drafting of multiple pieces of legislation, including sections of the Affordable Care Act, the American Recovery and Reinvestment Act, and the Food and Drug Administration Amendments Act of 2007.

He was a Robert Wood Johnson Clinical Scholar at the Yale School of Medicine where he earned a master's degree in health sciences research. During this time he authored papers on quality of care, and the impact of regulatory policies on healthcare delivery. Dr. Cha earned his medical degree from Brown University and completed his internal medicine residency at the Montefiore Medical Center in New York City, where he also served as chief resident. He is board certified in internal medicine and is a practicing primary care clinician.

**Joseph S. Ross, MD, MHS**

*Associate Professor of Medicine (General Medicine) and in the Institute for Social and Policy Studies and Associate Professor of Public Health (Health Policy); General Internal Medicine; Yale School of Medicine*

Joseph S. Ross, MD, MHS, is an Associate Professor of Medicine (General Medicine) and of Public Health (Health Policy and Management), a member of the Center for Outcomes Research and Evaluation at the Yale-New Haven Hospital, and an Assistant Director of the Robert Wood Johnson Foundation's Clinical Scholars program at Yale. He completed his undergraduate degrees in biological science: neuroscience and psychology at the University of Rochester and his medical degree at the Albert Einstein College of Medicine, Bronx, New York. After completing his post-graduate training in primary care internal medicine at Montefiore Medical Center in Bronx, Dr. Ross was a fellow in the Robert Wood Johnson Foundation Clinical Scholars program at Yale University, earning a master's degree in health sciences research. Using health services research methods, Dr. Ross's research focuses on examining factors that affect the use or delivery of recommended ambulatory care services for older adults and other vulnerable populations, evaluating the impact of state and federal policies on the delivery of appropriate and higher quality care, and issues related to pharmaceutical and medical device evidence development, postmarket surveillance, and practice adoption/de-adoption. In addition, he collaborates with a multidisciplinary team of investigators under contract for the Centers for Medicare & Medicaid Services to develop statistical models that are used to measure and publicly report hospital and ambulatory care clinical outcomes using administrative data. Dr. Ross is currently an associate editor at *JAMA Internal Medicine*.

*All plenary session lectures are being recorded in the SGIM18 Conference Library.*

## NEW! Patient Advisor Programming

### **Welcoming Patient Advisors to the 2018 SGIM Annual Meeting**

An important innovation in the 2018 SGIM Annual Meeting is the presence of a cadre of patient advisors. Despite its focus on patient-centered topics in research, education, and patient care, SGIM to date has not had a significant presence of patient advisors at its Annual Meeting or had access to such a group who can provide advice to our leadership regarding aligning our strategic planning with patients' needs. This year, we have recruited a cohort of seven outstanding patient advisors affiliated with the PCORI-funded Patient and Clinician Engagement (PaCE) Program, part of the North American Primary Care Research Group (<http://www.napcrg.org/Programs/Engagement-PACE>), to participate in all facets of our Annual Meeting on April 12th and 13th. The SGIM Patient Advisors, who can be identified by the purple ribbon they will be wearing, will be integrated into all aspects of the meeting, including:

- Providing commentary at Plenaries and pre-selected Special Symposia, Abstract Presentations, and Workshops regarding the patient perspective;
- Visiting posters and discussing them with poster presenters;
- Being available for one-on-one meetings with interested meeting attendees regarding incorporating patients more effectively into research and medical education initiatives.

**Please keep your eyes out for our SGIM 2018 Annual Meeting Patient Advisors, and thank them for their participation in our meeting! Also be sure to visit Patient Advisors in the Career Fair to converse one-on-one. For full details, search the SGIM18 Mobile App for Patient Advisors.**

## Career Fair

### **Plaza Foyer, Plaza Building, Concourse Level**

Plan to visit our 2018 CAREER FAIR and exhibits to explore potential job and fellowship opportunities.

### **Wednesday**

5:30 – 7:30 pm

### **Thursday**

7:00 – 8:00 am, 11:00 am – 1:00 pm, 2:00 – 5:00 pm

### **Friday**

7:00 – 8:00 am, 11:00 am – 1:00 pm, 2:00 – 5:00 pm

# Certification Programs

## ACLGIM LEAD PROGRAM

The LEAD program is designed for junior to mid-career faculty who wish to further develop their leadership skills. Training and coaching from leadership scholars and successful GIM leaders is provided at the ACLGIM/SGIM spring meeting and throughout the following year. Participants for the LEAD program are chosen via a competitive peer-review application process. In addition to the LEAD Core Sessions at the ACLGIM Hess Management Training and Leadership Institute on Wednesday, April 11, 2018, participants choose to attend two of three LEAD workshops on Thursday, Friday, and Saturday. Those selected for the LEAD program must register and pay for the ACLGIM Hess Institute and the SGIM Annual Meeting in addition to the program's certificate fee of \$750. The 2018 LEAD program application is closed. The 2019 LEAD program application will open in August 2018.

### 2018 LEAD Sponsored Workshops

SPEAKER: Esther D. Willett, MA, Chief of Public Affairs, F.E. Warren Air Force Base, Cheyenne, WY

## TEACH CERTIFICATION

### Teaching Educators Across the Continuum of Healthcare

The TEACH certificate program was developed by SGIM's Education Committee to address the needs of junior clinician educators. The program focuses on Teaching Skills and offers quality instruction and assessment with tangible outcomes. Participants will leave the program with an interactive Teaching Portfolio to document their teaching performance and feedback obtained as well as reflections on strengths and weaknesses. Participation in the program also provides learners with life-long access to a community of medical educators. The TEACH Certificate is affordable, accessible, and can be completed in just one year. The 2018 TEACH program application is closed. The 2019 TEACH program application will open in August 2018.

## Wednesday

8:00 am – 4:30 pm

## LEAHP CERTIFICATION

### Leadership in Health Policy Program

SGIM's Leadership in Health Policy Program (LEAHP) is the first national health policy career development program of its kind. A year-long program, LEAHP focuses on federal health policy knowledge and advocacy skills aligned with SGIM's core missions.

LEAHP aims to accomplish the following: develop SGIM members who will become effective and active health policy advocates and local health policy experts, leaders, and teachers; offer health policy career development resources and opportunities to all SGIM members; and develop an expanding, national cadre of Health Policy Committee (HPC) members and broaden engagement in the Society's health policy efforts.

# Annual Meeting Mentoring Programs

## ONE-ON-ONE MENTORING

The One-on-One Mentoring Program offers students, residents, fellows, and faculty at all levels a valuable opportunity to speak privately with a more senior SGIM mentor from a different institution. Even if you have a mentor at your own institution, this program will allow you to meet someone who may offer a new perspective on your professional goals and challenges. Topics for discussion may include early- or mid-career advice, research, job responsibilities, and professional challenges. All participants will be asked to identify areas of interest to ensure pairs are matched according to their needs. Presenting at the meeting? Request a mentor and ask them to attend your presentation so they can provide you with feedback. The program offers senior SGIM members an opportunity to provide counseling and guidance to future SGIM leaders.

## WOMEN AND MEDICINE TASK FORCE CAREER ADVISING PROGRAM (CAP)

The Women and Medicine Task Force's Career Advising Program (CAP) is a two-year longitudinal mentoring and sponsorship initiative to help female junior faculty successfully navigate the academic promotion process. By connecting these members with senior "Career Advisors" throughout SGIM (i.e., Associate or Full Professors), we hope to foster academic advancement of women in medicine. Advising focuses on enhancing teaching portfolios, K to R transitions, leadership in quality improvement and other institutional initiatives, targeted committee membership, and strategies for relationship-building with external promotion letter writers.

**TARGET ADVISORS:** Male or female Associate or Full Professors with an interest in the advancement of women in medicine.

**TARGET ADVISEES:** Female Assistant Professors and Instructors who are interested in academic promotion. CAP is a two-year program that expects bi-annual contact and at least one face-to-face meeting. Advisees and advisors are encouraged, but not required, to meet at the SGIM Annual Meeting.

**The 2019 SGIM Annual Meeting Mentoring Application System will open in late 2018. For information, contact Jillian Gann, Director of Leadership and Mentoring Programs, at [gannj@sgim.org](mailto:gannj@sgim.org) or 1-800-822-3060. Complete details are online at [www.sgim.org/career-center/mentoring](http://www.sgim.org/career-center/mentoring).**

Meet at Registration Desk, Plaza Building, Concourse Level

### **TOUR1: Deadly Medicine: Creating the Master Race**

Attendees should meet at the Registration Desk, Plaza Building, Concourse Level at 10:45 am. The shuttle bus will leave promptly at 11:00 am and return attendees to the Sheraton by 4:00 pm.

For full event details, search the SGIM18 Mobile App for TOUR1.

### Informatics and HIT in Support of General Internal Medicine: An Overview

Wednesday 12:00 – 5:00 pm

Governor's Square 11, Plaza Building,  
Concourse Level

PRESENTED IN CONJUNCTION WITH: American Medical  
Informatics Association (AMIA)

Join us for a half-day, introductory pre-course in informatics and HIT to help people think through the ways they could leverage information systems and informatics knowledge. The topics we'll cover include how to incorporate informatics principles in teaching, especially as learners at different levels start to use EHRs; the way informatics and systems could be used to improve clinical care, including the accessibility, quality, and safety of care; how it can be used to better meet the needs of vulnerable populations; and the use of EHRs and other systems in your clinical research, including for observational studies, for recruitment, for engagement through portals, and in your quality improvement work. The course will finish with action planning, and faculty will be available to help mentor as you bring the materials back to your work.

For full session details, search the SGIM18 Mobile App for session code PREINFOR.

### Translating Health System Macro-Finances to the Department and Division Levels: "Show Me the Money"

MODERATOR: **Valerie Stone, MD, MPH**, Chair, Department of Medicine, Mount Auburn Hospital

PANELISTS: **Gregory Rouan, MD**, Chair, Department of Internal Medicine, University of Cincinnati College of Medicine; **Thomas McGinn, MD, MPH**, Chair and David Greene Professor of Medicine, Deputy Physician-in-Chief, and Senior Vice President, Northwell Health; **Gary Rosenthal, MD**, Chair, Department of Internal Medicine, Wake Forest School of Medicine

During this panel session, Department Chairs will share their insights regarding institutional financial frameworks, best practices, and experienced outcomes from three academic health centers. Topics of discussion will include:

- Appreciate the important differences between academic centers and health systems relevant to governance, board structure and oversight, reporting relationships, funds flow, and how this impacts your department and division.

# Wednesday

- Understand the evolving roles and levers of influence of the Department Chair within matrix organizations that encompass the academic medical center, health system, school of medicine, and clinical service lines.
- Learn best practices and mission-based contributions that have been implemented that may ultimately help leverage your Department and Division development in a variety of mission-based programs.

9:25 – 9:35 am

## Break

9:35 – 10:40 am

### Leadership in Complexity: Succeeding in the Setting of Unknown Unknowns

**Jean Kutner, MD, MSPH**, Chief Medical Officer, University of Colorado Hospital, Professor of Medicine and Associate Dean for Clinical Affairs, University of Colorado School of Medicine

Dr. Kutner will discuss approaches for effectively leading in complex, matrixed organizations. Drawing from the literature and using concrete examples from her experiences as a Division Head and a Chief Medical Officer, this interactive session will equip attendees with tools for approaching the challenges of leading in complex organizations. Topics of discussion will include:

- Definitions of organizational complexity as applied to academic medical centers.
- Internal and external forces driving complexity in academic medical centers.
- Effective approaches to leading in complex, matrixed organizations using specific examples.

10:40 – 10:50 am

## Break

10:50 – 11:00 am

## Table Exercise

11:00 am – 12:05 pm

### Leading and Working in Virtual Teams: The Challenges, Benefits, and Techniques to Consider

**M. Travis Maynard, PhD**, Associate Professor, Management Department, College of Business, Colorado State University

A virtual team (also known as a geographically dispersed team, distributed team, or remote team) usually refers to a group of individuals who work together from different geographic locations and rely on communication technology such as email, video, and voice conferencing, and for healthcare professionals, electronic health records, in order to collaborate.

During this interactive session, Dr. Maynard will leverage his own research on global virtual teams as well as highlight findings from academic and practitioner-oriented sectors. Topics of discussion will include:

- Review of research examining virtual teams over the last several decades.
- Challenges and benefits inherent to working in virtual teams.
- Techniques leaders can employ to minimize the challenges and amplify the benefits of virtual teams.

12:05 – 12:30 pm

## Break

12:30 – 1:30 pm

## Networking Lunch

1:30 – 1:45 pm

## Break and Room Transition

1:45 – 3:15 pm

## Breakout Sessions

Attendees choose from the following breakout sessions:

### BREAKOUT 1:

**Savoy, Tower Building, Majestic Level**

#### Training for Academic Leaders on Fostering a More Diverse, Equitable, and Inclusive Work and Learning Environment

**Jada Bussey-Jones, MD**, Chief, General Internal Medicine and Geriatrics, Emory University School of Medicine; **Inginia Genao, MD**, Graduate Medical Education Director and Department of Medicine Associate Chair of Diversity, Equity and Inclusion, Yale University School of Medicine; **Cristina Gonzalez, MD, MEd**, Associate Professor of Clinical Medicine, Albert Einstein College of Medicine; **Jessie Kimbrough Marshall, MD, MPH**, Assistant Professor, Division of General Medicine Hospitalist Program, University of Michigan Health System, Medical Director, Washtenaw County Public Health; **Nicole Redmond, MD, PhD, MPH**, Medical Officer, Division of Cardiovascular Sciences (DCVS), National Heart, Lung, and Blood Institute (NHLBI), National Institutes of Health

Our nation is becoming increasingly more diverse and this trend is only expected to continue as the minority population continues to increase and other underrepresented groups continue to grow and self-identify. However, diversity is lacking in the physician workforce and does not represent the trainees or the patient population we serve. To foster diversity, we need to look at our institutional culture in relation to faculty, trainees, and staff experiences in implicit and explicit bias, microaggressions, and overt discrimination. These experiences negatively impact the recruitment, retention, and advancement of underrepresented minorities and women. This workshop seeks to provide opportunities for healthcare and educational leaders to learn of actionable successful ways to improve the culture and institutional environment through rich small group discussions of real cases of biases, microaggressions, and discrimination. Participants will also have the opportunity to share their institutional challenges in these areas to obtain different perspectives and potential solutions.

### BREAKOUT 2:

**Vail, Tower Building, Majestic Level**

#### Personal Knowledge Management with Electronic Notebooks: An Approach to Reducing Leadership Stress

**Neeraj Tayal, MD, FACP**, Director, Division of General Internal Medicine and Geriatrics, The Ohio State University Wexner Medical Center

Leaders and managers are required to handle a very large amount of information (knowledge). Without a management system this becomes overwhelming, leading to clutter and disorganization. This leads to stress, depletion of attention, inefficiency, mistakes, and exhaustion, and depletes one's ability to lead and manage optimally

and may result in burnout. Electronic notebooks offer an effective tool for organizing, storing, and retrieving information. Effective use of an electronic notebook can substantially address the problem described above. Many do not use these tools though they are available on most computers with Microsoft Office installed. The discussion is aimed at taking down the barriers that prevent leaders from using electronic notebooks.

**Vail, Tower Building, Majestic Level**

#### Leading from the Middle

*Presented by the ACLGIM LEAD Program*

**Deborah Burnet, MD, MA**, Professor of Medicine & Pediatrics, Chief, General Internal Medicine, Medicine Vice-Chair for Faculty Development, University of Chicago; **Michele Fang, MD**, Associate Professor of Clinical Medicine, Division of General Internal Medicine, Perelman School of Medicine, University of Pennsylvania; **April S Fitzgerald, MD, FACP**, Assistant Professor, Johns Hopkins University School of Medicine; **Rita Lee, MD**, Associate Professor, Department of Medicine, Division of General Internal Medicine, University of Colorado School of Medicine

Leading from the middle — managing constituencies and stakeholders above and below your level at the institution — can be one of the most challenging leadership positions. Leaders often face issues around complex systems, stakeholders with competing priorities and interests, and competing domains of power and influence. We will discuss strategies to help GIM leaders effectively lead teams/units while managing complex stakeholder relationships and expectations. In addition, we will help participants articulate a clear vision and effectively communicate with stakeholders, which are critical skills for becoming an effective leader.

In this workshop, we will focus on creating a Vision/Mission statement and leveraging that to guide your team's efforts and engage stakeholders in a manner that is meaningful to them. We will also discuss stakeholder management and discuss strategies for communicating effectively with various stakeholders.

##### BREAKOUT 5:

**Majestic Ballroom, Tower Building, Majestic Level**

#### Get Your Ideas Heard!

**Peter Clayton, MPA**, Executive Director, Business & Administration, Department of Internal Medicine, University of Cincinnati College of Medicine

In this breakout session, attendees will expand the morning discussion regarding translating macro-finances to the department and division levels and learn more about practically developing best practices based upon mission-based contributions, within and across departments. The importance of the collaborative relationship and the need for partnering with your business leaders will be emphasized. Join your colleagues to apply conceptual frameworks (e.g., SBAR) and financial tools to develop business plans and get your ideas heard!

5:00 – 5:30 pm

#### ACLGIM Member Business Meeting

**Majestic Ballroom, Tower Building, Majestic Level**

Business meeting of the members and prospective members of ACLGIM. Reports from leadership on the organization's programming, annual planning, membership, and finances.

# Wednesday

5:00 – 5:30 pm

2:15 – 3:15 pm

#### CUPE: CLINICAL UPDATE

Plaza Ballroom, Plaza Building, Concourse Level

### Update in Health Policy

TRACK: Health Policy/Advocacy/Social Justice

This session is being recorded in the SGIM18 Conference Library.

#### LWE: LEAD WORKSHOP

Governor's Square 15, Plaza Building, Concourse Level

### Boost Your Leadership and Resilience with Emotional Intelligence

TRACK: Leadership and Administration

#### SSE: SPECIAL SYMPOSIUM

Majestic Ballroom, Tower Building, Majestic Level

### Using Health Information Technology to Optimize the Work of Hospitalists: Innovations and Future Directions

TRACK: Hospital-based Medicine

This session is being recorded in the SGIM18 Conference Library.

#### SSE2: SPECIAL SYMPOSIUM

Windows, Tower Building, Second Level

### The Story of OpenNotes

TRACK: Health Systems Redesign

This session is being recorded in the SGIM18 Conference Library.

THURSDAY

## WE01: WORKSHOP

Governor's Square 12, Plaza Building, Concourse Level

### Toolkit for Training Internal Medicine Residents in Judicious Opioid Prescribing

TRACK: Mental Health/Substance Use

## WE02: WORKSHOP

Governor's Square 14, Plaza Building, Concourse Level

### Smartphone Medicine: Helping Clinicians Effectively Tap into the Medical App Landscape

TRACK: Clinical Medicine

## WE03: WORKSHOP

Tower Court B, Tower Building, Second Level

### "I Don't Trust This Data" — The Role of the Internist as a Data Diplomat

TRACK: Quality of Care/Patient Safety

## WE04: WORKSHOP

Director's Row H, Plaza Building, Lobby Level

### How Do Diverse Patients Navigate Health Information Technology?

TRACK: Health Disparities/Vulnerable Populations

## WE05: WORKSHOP

Tower Court C, Tower Building, Second Level

### Sponsorship 101: Best Practices and Brainstorming to Enhance Your Approach

TRACK: Career Development

## WE06: WORKSHOP

Director's Row E, Plaza Building, Lobby Level

### Breathing Easy: Managing Primary Palliative Care and Evidence-Based Medical Therapy in Advanced COPD

TRACK: Aging/Geriatrics/End of Life

## WE07: WORKSHOP

Governor's Square 11, Plaza Building, Concourse Level

### Starting and Stopping Osteoporosis Treatments: An Update for Generalists

TRACK: Clinical Medicine

### SGIM MED-Talk in Career Development

Thursday 3:45 – 4:45 pm

Windows, Tower Building, Second Level

TRACK: Career Development

MODERATORS: Margaret C. Lo, MD, Christopher Masi, MD, PhD, and Jada Bussey-Jones, MD

SPEAKERS: Kerri Palamara, MD, Assistant Professor of Medicine at Harvard Medical School  
Eliseo J. Perez-Stable, MD, Director of the National Institute on Minority Health and Health Disparities (NIMHD) at the National Institutes of Health (NIH)  
Robert M. Centor, MD, Associate Dean, Huntsville Regional Medical Campus, Professor of Medicine, Division of General Internal Medicine, University of Alabama at Birmingham

This SGIM MED-Talk session on Careers in Academic Medicine features three powerful stories of career paths in clinical education, research, and administration. All three dynamic speakers will share captivating stories of their own personal career journey in academic medicine while weaving in key lessons learned and identifying mentors along the way. Attendees will leave the session with important pearls of wisdom for success in their own career journey.

FRIDAY

## Zero Tolerance: SGIM's Response to the Issue of Sexual Harassment

Friday 10:30-11:30 am

**Majestic Ballroom, Tower Building, Majestic Level**

**FACILITATOR:** Dr. Kimberly Dickman

Dr. Kimberly Dickman is the Sexual Assault Prevention and Response Analyst at the U.S. Air Force Academy. She has worked in the field of sexual violence prevention for the military for 10 years from the base level to headquarters level at the Pentagon.

In light of the recent attention to the problem of sexual harassment in the news, SGIM Council discussed how we as a Society should respond. Born out of this discussion, this symposium will engage content experts, SGIM leadership and staff, and our membership in a thoughtful dialogue about this important topic. Specifically, we seek to review and refine a proposed Code of Conduct for the organization that defines appropriate behavior for all SGIM activities, along with processes for investigating and acting on reports of inappropriate behavior. SGIM Council representatives will join in a facilitated discussion with members.

### ***The Glass Cage: How Our Computers Are Changing Us* By Nicholas Carr**

DISCUSSION FACILITATORS: Manasa S. Ayyala, MD; Rachel B. Levine, MD, MPH; Scott M. Wright, MD

In discussing this book, we will consider how new technologies and automation can enhance our capacities in patient care, education, research, and leadership in general internal medicine. We will also consider together how to ensure that such "advances" don't cause us to feel disengaged or to become less effective ourselves.

The facilitators of this session have been members of many book clubs and have been leading a book club for GIM fellows for years. The session will be fun and we will all learn together. Happy reading! Finally, even if you don't finish (or read) the book, you will be able to participate.

For full session details, visit: <https://connect.sgim.org/sgim18/program/bookclub>

# Continuing Medical Education Information

## Earn up to 16.5 Continuing Medical Education (CME) AMA PRA Category 1 Credits™ and 16.5 Maintenance of Certification (MOC) Points

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Alabama School of Medicine (UASOM) and the Society of General Internal Medicine (SGIM). The UASOM is accredited by the ACCME to provide continuing medical education for physicians. The University of Alabama at Birmingham is an Equal Opportunity/Affirmative Action Institute.

### CME Credit Designation

The UASOM designates this live activity for a maximum of 16.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. Wednesday daytime sessions may carry additional AMA PRA Category 1 Credits™. Your total number of AMA PRA Category 1 Credits™ will depend on how many and which sessions you attend.

CME credits are not provided for poster sessions, Distinguished Professor keynote lectures, interest group meetings, or participation in the SGIM book club. Physicians must complete an online CME application, identifying the specific sessions that they actually attended. All CME applications must be completed within 60 days of the last day of the Annual Meeting.

Note: Physicians may not apply for, nor claim, AMA PRA Category 1 Credit(s)™ for sessions in which they present; they may claim AMA PRA Category 2 Credit(s)™ for preparation time. AMA PRA Category 2 Credit(s)™ are self-reported.

### Learning Objectives

- Implement at least one new aspect of health information technology to improve clinical practice, teaching, research, advocacy, and/or leadership.
- Identify digital innovations that have the greatest potential to improve general internal medicine.
- Discuss the barriers to implementing meaningful digital innovations and strategies to overcome them.

**APPLY FOR CME & MOC**  
**DEADLINE TO APPLY: JUNE 17, 2018**

Visit: <https://connect.sgim.org/sgim18/home>

**Questions?**  
[registration@sgim.org](mailto:registration@sgim.org)

## NEW THIS YEAR

### Earn up to 9.5 ABPM LLSA MOC Credits

The American Board of Preventive Medicine (ABPM) has approved this activity for a maximum of 3.5 LLSA credits towards ABPM MOC Part II requirements:

### PREINFOR Informatics and HIT in Support of General Internal Medicine: An Overview

The American Board of Preventive Medicine (ABPM) has approved these activities for a maximum of 1 LLSA credits towards ABPM MOC Part II requirements: **CUPC**: Update on Clinical Informatics, **SSC**: Health Information Technology and Health Equity and Social Justice, **SSD**: Making Point-of-Care Clinical Decision Support Tool Work, **SSJ**: Current Challenges and Future Directions of EHR Implementations, **SSL**: Competency-based Informatics Education for Current & Future Generalist, **SSP**: Practice Redesign (PCR): A novel care model that integrates HER

Applicants are required to complete and submit post-session self-assessment questions by June 17, 2018. Visit the Registration Desk, Plaza Building, Concourse Level, to obtain questions and answer sheets.

### Disclosure of Dual Commitments Policy

SGIM requires all presenting faculty to comply with the UASOM Policy on Financial Disclosure. All faculty members (speakers/presenters/panel participants) must complete a ScholarOne personal profile before they can be included in the submission. This personal profile is where information regarding any and all external funding is identified. SGIM will contact each presenter disclosing commercial external funding in order to resolve all conflicts of interest. CME credit will be withheld from sessions presented by those whose conflicts of interest cannot be resolved. Disclosure information is provided by SGIM to attendees in all print and electronic meeting materials. Speakers with commercial funds supporting their submission are required to disclose that relationship at the beginning of their session. A copy of the University of Alabama School of Medicine Policy on Dual Commitments is available on the Annual Meeting website.

### ABIM MOC Statement

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 1 MOC point in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

### MOC Questions

1. Please describe **three things** about clinical practice, teaching, research, advocacy, and/or leadership that you learned from the Annual Meeting.
2. Please describe **three changes** in your clinical practice, teaching, research, advocacy, and/or leadership that you plan as a result of the Annual Meeting. (You may also describe aspects of your clinical practice, teaching, research, advocacy, and/or leadership that you will continue as a result of this course.)

# Membership Information

## BECOME A SGIM MEMBER TODAY!

On behalf of all of us at the Society of General Internal Medicine (SGIM), we welcome you to join a unique network of academic and community based general internists, educators, and researchers dedicated to promoting improved patient care, research, and education in primary care and general internal medicine. You can join online or download an application at [www.sgim.org/membership/join-sgim](http://www.sgim.org/membership/join-sgim).

As a member of the SGIM community, you will have full access to our member benefits and networking opportunities. These tools will enable you to excel in developing the necessary skill set to advance your current career path within academic general internal medicine. Some of the member benefits that might interest you include:

### Career Development

SGIM is dedicated to providing professional development opportunities for its members, regardless of their current career level. Members can build and maintain meaningful careers through access to annual and regional meetings, mentoring programs, awards and grant opportunities, skills development programs, and resources.

### Networking and Collaboration

Networking opportunities extend from GIM Connect, SGIM's online members-only community to the Annual Meeting, seven regional meetings, and participation in SGIM Committees, Task Forces, and Interest Groups.

### National and Regional Meetings

A core goal of SGIM is to foster professional interaction among leading academic researchers, general internists, and trainees. No matter the format or topic, SGIM regional and national meetings are peer-driven by member-based communities to help ensure members' interests are met and best practices shared.

### Publications

As a member, you will have access to and receive copies of publications that act as vehicles for dialogue and interaction among SGIM members and the scientific community at large. *Journal of General Internal Medicine* has been ranked #1 in impact among primary care journals according to Google Scholar's h5 index three years in a row.

If you become involved with the Society, you will quickly understand that this community's true lifeblood is our membership and their commitment to research and providing patients with the best care available. We highly encourage you to become involved and take advantage of this opportunity to network with your fellow members and participate in any member benefits that interest you.
