# Students, Residents, and Fellows Series at SGIM23

#### First time at SGIM? Feeling a little overwhelmed when you look at the program?

As your SRF Programming Chairs, we've curated the following list of sessions with content that will be most helpful to you as a trainee and first-time attendee. We intentionally focused on career development sessions to help you build professional skills to be successful in academic medicine. This isn't meant to be an exhaustive list of all the incredible programming here at SGIM 2023, so please check out some of the other sessions, such as the clinical updates in primary care and hospital medicine.

## Who We Are

The Society of General Internal Medicine is a member-based internal medical association of over 3.300 of the world's leading academic general internists, who are dedicated to improving the access to care for all populations, eliminating healthcare disparities and enhancing medical education. The members of the Society advance the practice of medicine through their commitment to providing comprehensive, coordinated and cost-effective care to adults, educating the next generation of outstanding physicians, and conducting cutting-edge research to improve quality of care and clinical outcomes of all patients.

SGIM's mission is to cultivate innovative educators, researchers, and clinicians in academic general internal medicine, leading the way to better health for everyone.
