# Students, Residents, and Fellows Series at SGIM24

## First time at SGIM? Feeling a little overwhelmed when you look at the program?

We have curated the following list of sessions with content that will be most helpful to you as a trainee and first-time attendee. This is not meant to be an exhaustive list of all the incredible programming at SGIM24; rather, this list intentionally focuses on career development sessions to help you build professional skills to be successful in academic medicine.

### Wednesday, May 15

#### 11:00 AM – 5:30 PM

##### GIM Fellows Pre-Course

Topics include: How to build local peer and mentorship teams, applying and negotiating for a first academic job, optimizing the transition from fellow to faculty, engaging in team science, and becoming involved in reviewing and editing. (\$25 registration fee. This is an add-on to regular meeting registration.)

#### 5:30 PM – 7:00 PM

##### Poster Session 1

##### Career Fair and Exhibitors

View posters on a variety of topics and learn about new research while networking with other SRF members.

### Thursday, May 16

#### 7:00 AM – 7:45 AM

##### Interest Groups

Are there specific clinical topics, skills, or areas of professional development in GIM that interest you? Grab breakfast and join one of the interest groups to meet others and network around shared interests.

## **Who We Are**

The Society of General Internal Medicine is a member-based internal medical association of over 3,300 of the world's leading academic general internists, who are dedicated to improving the access to care for all populations, eliminating healthcare disparities and enhancing medical education. The members of the Society advance the practice of medicine through their commitment to providing comprehensive, coordinated and cost-effective care to adults, educating the next generation of outstanding physicians, and conducting cutting-edge research to improve quality of care and clinical outcomes of all patients.

SGIM's mission is to cultivate innovative educators, researchers, and clinicians in academic general internal medicine, leading the way to better health for everyone.
