THE ROAD TO SHRM RECERTIFICATION

Maintain Your Credential

The SHRM recertification process is about more than just renewing your credential. It's a way to up your game and take your professional expertise to the next level. There are two ways to recertify:

1. Earn 60 professional development credits (PDCs) within your three-year recertification cycle

OR

2. Retake the SHRM certification exam.

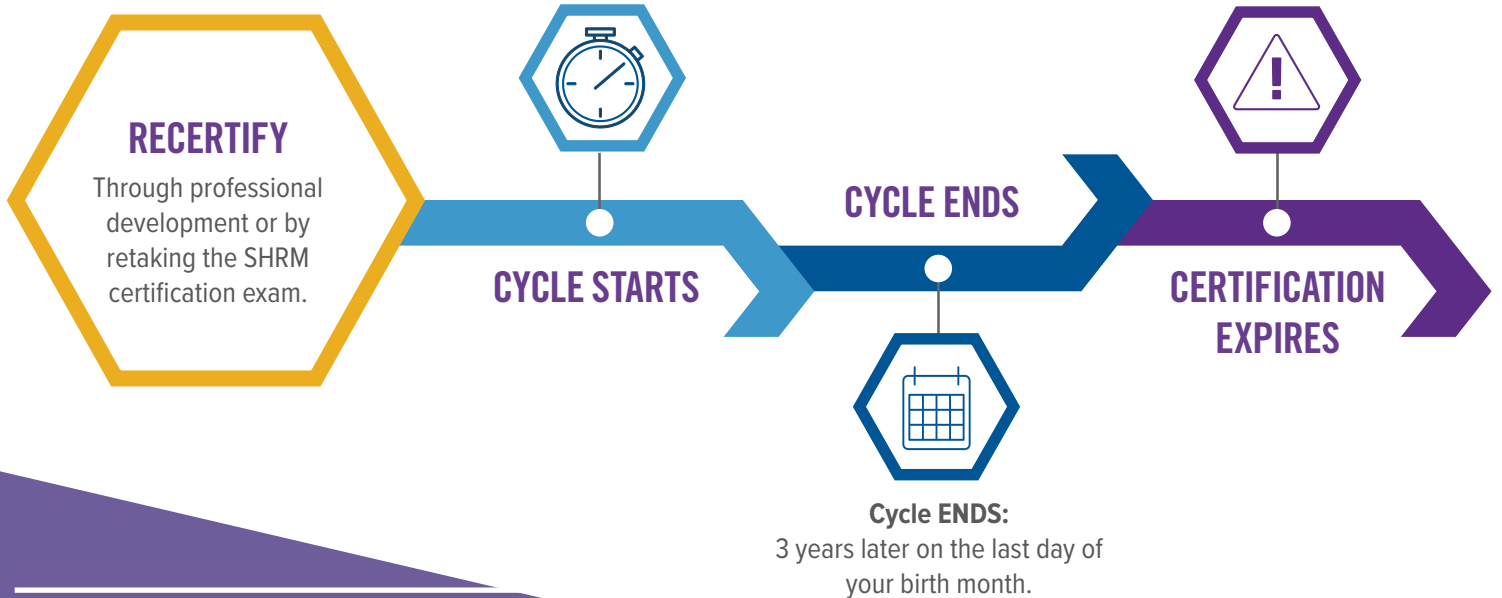

You must complete one of these options by your recertification end date (last day of your birth month).

Recertify the only credentials supported by SHRM, your career development partner.

RECERTIFICATION CYCLE

Cycle STARTS:
When certification or
recertification is earned.

Certification EXPIRES:
60 days after your end date if
recertification is not completed.

Refer to the SHRM Certification Recertification Requirements Handbook at shrmcertification.org/recertificationhandbook
