

Dear San Diego SIM Board Members,

Thank you for your generous donation of the San Diego SIM Scholarship! I'm very appreciative of your support as a recipient of this scholarship.

I am currently a third-year Business Administration Information Systems student also minoring in Spanish and Interdisciplinary Studies. I'll be graduating in May 2022 to begin a career in information technology. While I am still exploring different career options after graduation, I recently accepted an internship for this upcoming summer as an IT Compliance intern at Moss Adams. I'm looking forward to gaining industry experience through this internship and learning more about the IT industry.

Thank you again for your support of students like me through this scholarship. It is because of these scholarship opportunities that I can focus on my academics, campus involvement, and work without any of the stress that comes with financial insecurity. It is great to see IT leaders in San Diego supporting the success of students and I look forward to being able to do the same in the future!

Sincerely,

Rachel Magers
