

WELCOME TO SIM ENCLAVE®

Welcome to SIM Enclave, where an executive technology leader can build authentic, high-value relationships to take their career to the next level.

Ready to check out a SIM Enclave in your area? [Register here](#) for the next scheduled Enclave event convenient to your home or office, or to be put on the interest list for a new Enclave to be developed in your area.

The Society for Information Management knows that building relationships is key to career success, and it's one of the primary reasons technology leaders join our organization. SIM Enclaves provide a genuine, connected community based on a high level of trust and a deep sense of belonging that is often missing from more traditional networking organizations.

Each SIM Enclave is a small, select community of executive technology leaders (CIO/CTO/CISO or equivalent) who support one another's leadership and professional growth. Enclaves meet locally and stay small, so members get to expand their professional and social networks, getting to know one another well within a trusted circle of peers and throughout the SIM nationwide network.

Quarterly SIM Enclave meetings offer confidential conversation on issues of the day, professional topics, and general leadership matters. Enclaves foster open, honest dialogue and discussion, including matters related to professional and personal growth, career moves, business strategy, and other confidential matters.

National and local sponsors support the program so there is no additional cost for SIM members. Non-members are also welcome to check out an Enclave meeting in their area to see if the program fits with their career aspirations. Enclaves meet at notable locations, usually over dinner at a carefully chosen restaurant that provides a refined dining experience. Enclave members can also participate in events hosted by other SIM chapters when they travel for business or pleasure.
