View each fellowships' eligibility requirements and apply at
sitcancer.org/fellowships

Fellowships are only available to SITC members - sitcancer.org/join.

The submission period for these funding opportunities will close at the end of March 2024. The recipients will be announced in the summer of 2024.

Forward Fund
Advancing Cancer Immunotherapy

In 2012, SITC established the Forward Fund to stimulate the future of science through the development and application of cancer immunotherapy. Since then, more than \$6 million has been awarded by the Forward Fund to support early career scientists through research and education.

Thanks to our donors, hundreds of early career scientists' careers have been shaped by the Forward Fund. By providing fellowships, young investigator awards and the one-of-a-kind SITC Sparkathon, SITC is inspiring the next generation, advancing the science and tackling the hurdles facing the field.

*SITC's diversity statement can be found on the fellowship website at sitcancer.org/fellowships
