

STAY CURRENT with Approved Immunotherapy Treatments

Free for healthcare professionals, students, patients and patient advocates, the Society for Immunotherapy of Cancer (SITC) Advances in Cancer Immunotherapy™ (ACI) programs are CME-, CNE-, CPE- and MOC-certified and presented by local authorities in tumor immunology and cancer immunotherapy.

All healthcare professionals in the clinical setting, students, patients and patient advocates attend for FREE! For more information or to register for the upcoming, virtual Toronto live program, please visit sitcancer.org/toronto

Mark Pasetka, BScPharm, PharmD

Sunnybrook Health Sciences Centre

Pamela S. Ohashi, PhD

Princess Margaret Cancer Centre

Register yourself and share with a colleague to ensure your entire team is up to date on the latest FDA-approved immunotherapy treatments

TORONTO Virtual ACI Program Takeaways

ACI programs cover how to:

- Treat patients with approved immunotherapies
- Recognize common and uncommon toxicities in immunotherapy patients and provide solutions/adjustments in treatment to address them
- Interpret new clinical data supporting the use of checkpoint inhibitors, CAR T therapies, cytokines, oncolytic viruses and vaccines
- Anticipate forthcoming immunotherapy trends/treatments/trials and how they impact your patients and practices
- Employ strategies to overcome operational and reimbursement barriers to incorporating immunotherapy into your practice

Attendees will be able to connect with regional immunotherapy experts during these interactive in-person programs, in subsequent quarterly webinars and through a dedicated SITC CONNECT online community.
