Message from the Chair

Elizabeth Brown

We are just about a month away to the next annual conference in Phoenix. There is a fantastic lineup of sessions this year, from the traditional Astronomy, Physics and Math Roundtables and Vendor Update session to a Book Discussion Group and co-sponsored sessions on Open Science Framework and Journal Collection Assessment plus the All-Sciences Poster Session. A big thanks to all of our PAM members who are speaking, moderating, or serving as a liaison for a session or activity this year: Lauren Palumbo, Kelly Durkin, Ruth Kneale, Melanie Faithful, Joy Painter, Joy Amundson, Jeffra Bussmann, Donna Thompson, Lauren Gala, Michael Chesnes, Sara Tompson, Therese Triumph, Kris Fowler, Jennifer Hart, Anya Bartelmann, Jennifer Hart, Zari Kamarei, and Thurston Miller.

One unexpected surprise is that one co-sponsored session that PAM submitted with the Taxonomy Division was selected as the Closing Keynote talk for the conference. Make sure you have time to stay on Tuesday afternoon, June 20, when Dr. Moribah Jah will present a talk on Space Junk Ontologies.

In addition to the Annual Conference, the SLA Annual Awards recognized two PAM members this year: John Kromer as an SLA Rising Star and Sara Tompson as an SLA Fellow. Congratulations on this recognition! We look forward to seeing both John and Sara receive their awards this year at the conference.

Our conference sponsors this year deserve special mention. Due to their support we will be able to offer the programs and social events enjoyed by all. At this time, we have support from ACM, AIP, AMS, APS,
OSA, SPIE, SIAM, and World Scientific. IOP Publishing will also be providing us with our Daily Retreat Suite, as in past years, so make sure to stop by the suite as well as thank our sponsors for support of PAM.

I’m honored and pleased to be serving as Chair this year and look forward to seeing everyone at the conference. Safe travels!

**PAM 2016 Annual Business Meeting Minutes**

Kathleen Lehman

Minutes approved by PAM Executive Committee on 7/29/2016

Monday, June 13, 2016, 8:10 a.m. Eastern Time

1. Introduction and Welcome – Debra Kolah, PAM Chair
   - Moment of silence for tragic shooting in Orlando
   - Introduction of advisory board
   - Introduction of executive board

2. Secretary report – Kathleen Lehman
   - Documents that have been approved by the PAM executive board since last year’s business meetings include
     - 2015 June 8 Board Meeting agenda with minutes
     - 2015 June 15 Business Meeting Minutes
     - 2016 Executive Board decisions and communication topics, January to May

3. Treasurer’s report – Margaret Lam
   - PAM has approximately $29,000 available

4. Past-Chair – Jeff Bond
   - Has made some edits to practices manual
   - Please let Jeff know of any changes that need to be made
   - Appointments have been made to the Nominations and Elections Committee: Thanks to Susan Koskinen (chair), Linda Yamamoto, and Travis Warwick for agreeing to serve. Thank you also to Margaret Lam and Kathleen Lehman for helping to make the appointments.
   - Worked on Future of PAM task force (see below)

5. Chair-Elect – Elizabeth Brown
   - 2017 conference planning:
     - Will have the usual five PAM-led sessions including round tables, vendor update, and business meeting
     - Can also co-host four sessions
     - Emerging idea sessions are intended to be buzzworthy/emerging topics, and those sessions can be proposed and approved at a later date then the main sessions.
     - There will also be conference “streams” – which will be groups of conference sessions around a central topic. Sessions within the streams will focus on the topic at a fundamental, middle, or advanced learner level.
   - PAM Training Futures Subcommittee Report – discussed several activities, events, or resources which could be done or created including
     - Events calendar
     - Expert video tutorials on various topics
     - Monthly chats
     - FAQ list
     - Blog
     - Subject-focused webinars
     - Programing around emerging ideas
     - “Unconference”
     - Expert list available to the PAM community: This has already been implemented by the mentoring subcommittee: [http://pam.sla.org/mentoring-experts/](http://pam.sla.org/mentoring-experts/) (password: mentor)
6. Chair report – Debra Kolah
   - Thank you to the Business Meeting and Breakfast sponsors: the American Physical Society
   - Future of PAM task force: Thank you to the members of the task force: Jeff Bond (chair), Margaret Lam, Zari Kamarei, Michael Fosmire, Lauren Gala, and Debra Kolah – the group was asked to consider the future of the PAM Division by
     - Engaging the membership in discussion
     - ID challenges
     - Making recommendations
     - Giving a report

   As a part of these activities, the task force presented seven scenarios to the PAM community and collected feedback. While there was no clearly favored path to take, the feedback was highly valuable for considering PAM’s future.

   - Future of PAMnet
     - PAMnet has been hosted by Notre Dame and managed by Thurston Miller for 18 years! (Wow and thanks!)
     - While the listserv archives will continue to exist at Notre Dame, they will no longer be supporting the listservs and will be moving to Google Groups
     - PAM needs to decide on a solution for PAMnet (Google Groups? Listserv hosted elsewhere? Other virtual community?) and believes that it is important that the list remain open and accessible to unofficial PAM community members.

7. Future of PAM task force – Jeff Bond
   - Thank you to members of the taskforce: Debra Kolah, Lauren Gala, Michael Fosmire, Zari Kamarei, Margaret Lam
   - We solicited input from the PAM community earlier this year. Comments came through a website set up for that purpose and also via PAMnet. We presented seven “scenarios” or paths forward for PAM for people to comment upon.

   1. Status quo: PAM remains as a division of SLA and focuses its in-person programming during the SLA Annual Conference.
   2. PAM makes an attempt to merge with other SLA science-related divisions and remains as part of SLA.
   3. PAM remains as a division of SLA but hosts its own division-wide conference at a different time and location than the SLA Annual Conference.
   4. PAM remains as a division of SLA but refocuses its programming as a pre- or post-conference associated with SLA Annual.
   5. PAM dissolves, ending its relationship with SLA. Members form a new PAM-like organization unrelated to SLA. The new organization hosts its own annual conference focused on library and information programming for physics, astronomy, and mathematics disciplines.
   6. PAM dissolves, ending its relationship with SLA. Members work together with other STEM library groups to form a new pan-STEM library organization. The new organization would host a pan-STEM library annual conference.
   7. PAM dissolves, ending its relationship with SLA. Members form a new PAM-like group which would then affiliate as a subgroup of another organization.

   The comments are available to read at https://sites.google.com/site/futureofpam and on PAMnet. Please see the taskforce’s preliminary report for more detail of our activities. The taskforce will make a recommendation regarding the future of the division later this year after we have had more time to examine the input.

8. Other business
   - Ruth Kneale: The SLA wiki is going away August 1, so please get stuff off of it if you are going to need it in the future.

9. PAM Award presentations – John Kromer
   - Thank you to the other awards committee members: Sharice Collins, Marsha Bishop, and Brian Quigley.
   - Achievement Award: Donna Thompson, PAM member extraordinary, who has served in a wide variety of PAM support-
ing roles over the past several decades.

- Division Award: MathJax, a platform that renders mathematics easily and beautifully on the web and which makes math more readable by assistive technologies. The award was presented to Davide Cervone, lead developer at MathJax.

10. Louise Leckner Memorial Travel Stipends Awards, Sponsored by IOP Publishing – Cunera Buys

- Thank you to IOP Publishing for their continued support of librarians at the SLA conference and their commitment to the professional development of new science librarians
- Thank you also to the other selection committee members: Sharice Collins, Debra Kolah, and Khue Duong
- Travel Stipend Awardees are
  - Jessica “Jessie” Simpson: librarian at Texas Tech University Libraries
  - Heidi Tebbe: NCSU Libraries Fellow at North Carolina State University
  - Kelly Durkin: librarian at the Los Alamos National Laboratory Research Library in Los Alamos, New Mexico

11. General Announcements

- Congrats to Molly White on her retirement
- Ruth Kneale is the Division’s contact for the SLA Board; please contact her with questions or concerns
- Continued discussion of the future of PAMnet:
  - Is there a place where all the archives of the listserv could be hosted together (both past and future)?
  - SLA Connect is the new avenue for SLA communication; members are automatically enrolled but this platform is only open to SLA members
  - What is available internationally? (Google Groups might be a problem in this regard.)
  - Is there another organization that could host the listserv?
- Jeff Bond and Ruth Kneale both report on the SLA Board meeting report:
  - More positive and optimistic than last year
  - SLA sold the building at a profit and is in a good financial situation (debt free!)
- SLA membership was at ~6,000 in May
- 173 vendors are exhibiting at the conference (up from last year)
- 20 SLA staff (up from four at one point last year)
- MCI USA is the management company now managing SLA and so far their leadership has been impressive.
- Ruth Kneale addressed some questions about future SLA conferences: The contract is set for Phoenix, but from there on the locations for future conferences are wide open, which will allow SLA to focus on finding venues that are the right size for current conference size. It will be cheaper in the long run to leave North Carolina as the location of 2018 and be able to look for a smaller venue. Also, because MCI manages many events, they/we now have better leverage to negotiate venue and other conference prices. Dee Magnoni, SLA president-elect for 2017, also commented that Amy Burke, SLA Executive Director is focusing on answering the question: “How do we make members successful?”
- Barbara Kern is running for SLA Board!
- Meeting attendees went around the room and did introductions.
- Reminder of the IOP-hosted PAM suite
- Jessica Simpson promoted the Texas STEM conference.
Congratulations to the 2017 Louise Leckner Memorial Travel Stipend Recipients!

Since 2009, IOP Publishing, a generous and long-time supporter of libraries and librarians, has provided funding for new PAM librarians with up to four stipends to help defray the costs of traveling to the SLA Annual Conference. In 2013, the PAM Travel Stipends were renamed the Louise Leckner Memorial Travel Stipends to memorialize our dear friend and colleague. Louise was so proud to be a part of this program that supports new librarians and deepens the relationships between those librarians and the PAM Division.

Qualifying applicants had to be recent graduates of a library science graduate program, in their first three years of professional librarianship, employed by a physical sciences library or as a subject specialist for one or more of the PAM disciplines, and first-time attendees of the SLA Annual Conference as a professional librarian or first-time attendees in a PAM discipline.

We would like to thank all of the new librarians who applied for this stipend. We appreciate the time and effort you put into your application letters, and we look forward to welcoming you into the PAM Division.

Jason Harvey is the Physics, Optics, Astronomy, and Laser Energetics Outreach Librarian for the River Campus Libraries at the University of Rochester. Prior to this, Jason was a full-time MLIS student at the University of Illinois Urbana-Champaign, where he was also employed as a Graduate Assistant at the Grainger Engineering Library and as a Library IT Support Technician. Jason was awarded his MLIS degree in May 2016. At graduation, he received the 2016 Frances B. Jenkins award, presented to an outstanding MLIS student who exhibits the greatest potential as a Science Librarian. Jason possesses a Bachelor of Science degree in Chemistry from George Mason University.

Nicole Helregel is the Research Librarian for Science Teaching & Learning at the University of California, Irvine. She serves as a liaison to the Mathematics and Physics & Astronomy departments and the Campus-wide Honors Program. Her professional interests include data literacy & research support, information literacy instruction, library value & impact, and outreach programming & assessment. She received her MS in Library and Information Science from the University of Illinois at Urbana-Champaign and completed a Certificate of Advanced Study on library marketing and outreach, both in education and practice.

If you have the opportunity, please introduce yourself to Nicole and Jason at the SLA conference in June. Help them feel at home in our division, which is a very special part of SLA.

The PAM Division is deeply grateful to IOP Publishing for their continued support of librarians at the SLA conference, and most especially for their generous commitment to the professional development of new science librarians. Thanks again to IOP Publishing!

PAM Conference Buddy Program

Jenny Hart

Are you going to the SLA conference for the first time this year in Phoenix and want help making the most of your experience? Consider the PAM Conference Buddy Program! This program is open to those new to PAM or SLA. It’s an opportunity for newer conference-goers to be paired with a more “seasoned” PAM attendee who can help you navigate the conference. It is a great way to make the most of the SLA Annual Conference when you are new to it all. It is also a great chance to be introduced to other PAM members by your guide, get an idea of how PAM works, and receive tips on visiting the exhibits.

Depending on your preference, you can share as much time, information and fun as you want, or even just meet to chat in the PAM Suite. To sign up for the Conference Buddy Program, email your contact information and some idea of what you’d like from your Buddy to hartj@uchicago.edu. We’ll match buddies up and email you so that you can make plans to meet at the conference.

By the way, the Buddy Program is just for the duration of the conference. If you’d like information on our more long-term Mentoring Program, just mention it in your email, and I will be happy to send you an application or chat with you about it by phone or email.

Looking forward to hearing from you!
