60th Anniversary Dinner

U.S. Space and Rocket Center,
Huntsville, AL

December 10, 2013

Welcome

U.S. Space & Rocket Center

Home to Space Camp, and Aviation Challenge; The U.S. Space & Rocket Center is recognized as one of the most comprehensive U.S. manned space flight hardware museums in the world. Visitors will experience Huntsville's role in the making of the moon rocket, the space race, the Apollo missions, learn about the Space Shuttle program, the International Space Station and NASA's future missions.

Special Exhibit: *Da Vinci: The Genius*

Da Vinci: The Genius brings to life Leonardo da Vinci as an inventor, artist, scientist, anatomist, engineer, architect, sculptor and philosopher. This amazing exhibition provides fascinating insight into not only the mind of a genius, but the fundamental scientific and artistic principles that he discovered. The exhibit features facsimiles of Leonardo's most famous codices, anatomical studies, Anghiari battle drawings and Renaissance art and includes the Secrets of Mona Lisa - a Louvre Museum-sanctioned analysis of the iconic painting, and more.
