Military Protocol 101 for New Spouses
Although intended for new spouses, much of this information is useful to anyone working with the Military for the first time.
Military Librarians Checklist

Service Specific Information

Types of Military Libraries
Libraries within the Department of Defense reflect the same range of specialization that is found in non-military libraries: public, academic, and special.
General Libraries may also be called Base, Post, or MWR Libraries; they are most like Public Libraries but with a different customer base.
There are several Academic Libraries in each of the Services, ranging from the Academies (4-year College Degree) to Senior Service Schools (Masters Degrees).
Special Libraries support their organizations’ missions, and include Medical, Scientific/Technical, Historical, Legal, and more.
The Department of Defense Education Activity operates schools (and school libraries) at overseas bases, as well as a few stateside.
Consolidated libraries combine 2 or more types of libraries.

Personnel Systems for DOD Civilians
All government personnel systems are regulated by OPM, the Office of Personnel Management. The majority of government employees are in the GS (General Schedule) system. In addition, the DOD has other options.
Many General Libraries are under NAF (Non-appropriated Fund) pay bands.
Academic Librarians may be considered “Title 10” (excepted service) employees; the majority of others are either “Title 5” employees (GS, competitive service) or NAF.
A number of organizations (mostly Science & Technology or Research-related) also have their own pay bands, often referred to as “lab demo” systems.
Non-supervisory Library staff may belong to a Union.

OPM Pay & Leave page

Occupational Series
Military Librarians Checklist

OPM places Librarians in the Occupational Series 1400, “Library & Archives Group.” Most Librarians will be in the 1410 (Librarian) or 1412 (Technical Information Services) series. Library Technicians (support staff) are in the 1411 series.

Position Descriptions

A position description or "PD" is a statement of the major duties, responsibilities, and supervisory relationships of a position. In its simplest form, a PD indicates the work to be performed by the position. The purpose of a PD is to document the major duties and responsibilities of a position, not to spell out in detail every possible activity during the work day.

The Army’s FASCLASS is a searchable database of position descriptions.

https://acpol2.army.mil/fasclass/search_fs/search_fasclass.asp

OPM Pathways program (Students & Recent Graduates)

https://www.usajobs.gov/Help/working-in-government/unique-hiring-paths/students/

Check with your personnel office for assistance in hiring an Intern through the Pathways program.

Mission Essential

Functions that are determined to be critical activities are defined as the organization's essential functions. Positions that are designated as mission essential must report to work when other employees are released (for example, bad weather).

Federal Labor & Standards Act (FLSA)

The FLSA establishes minimum wage, overtime pay, recordkeeping, and youth employment standards affecting employees in the private sector and in Federal, State, and local governments. Exempt employees may receive comp time (compensatory time) instead of overtime.

https://www.dol.gov/whd/flsa/

The DOD Common Access Card (CAC)

The CAC (often called CAC Card) allows access to Military Installations. It is also used to login to DOD personal computers and DOD web sites.

Tongue and Quill, AFH 33-377

Marine Corps Supplement to the Department of the Navy Correspondence Manual, MCO 5216.20B

Government Budgeting

The Federal Government works on a Fiscal Year (FY) calendar, which begins 1 October and ends 30 September. Some types of funds can carry over from year to year, but not all.

Overview of the Budget Process
Military Librarians Checklist

http://www.cbpp.org/research/policy-basics-introduction-to-the-federal-budget-process

Defense Budget Process
http://libguides.nps.edu/budget/processes

How DOD Gets Money (commercial site)

Glossary of Budget Terms

Planning, Programing, Budget and Execution (PPBE) process
http://acqnotes.com/acqnote/acquisitions/ppbe-overview

**Appropriation Categories**
Also called “color of money.” Funds provided for one purpose cannot be used for another purpose. Libraries are generally funded with O&M (Operations & Maintenance), but may also receive RDT&E (Research, Development, Test & Engineering) funds. O&M funds generally do not carry over from year to year (1-year funding). Other fund types may be no-year or multi-year funds.
http://www.acqnotes.com/acqnote/acquisitions/appropriation-categories

Types of Funding
https://www.federalpay.org/article/fund-types

APF: Within the federal government Appropriated Funds refer to moneys allocated by legislation passed by Congress and signed by the President. Appropriated Funds are usually specified in Congress's yearly budget or continuing resolution.

NAF Libraries are funded with non-appropriated funds; these funds are received locally through MWR.

**LIBRARY REGULATIONS & POLICIES**
The Department of Defense publishes Regulations and Instructions for every activity, including Libraries. They are generally based on Public Law and OPM Regulations.
Military Librarians Checklist

The major ones for each service are listed below. It is important to keep older versions, for comparison as well as understanding the original source.

Contractor employees in libraries
Training is available on the rules for a contract employee. By law, contractors may recommend purchases but only a Federal employee may place orders.
https://www.slideshare.net/governmentlists/govt-contractors-in-the-workplace

Records Management
Every document produced by Federal employees may be a record. The National Archives controls what is a record, and when it can be destroyed. Library holdings are specifically declared non-records, but documents relating to running the library are records.
There are separate schedules for personnel files, budget & acquisition files, and more. Contact your local Records Manager for your specific requirements.

General Records Schedule for Library Records

Annual Statistics
Each service has its own format for collecting statistics. At a minimum, an annual report will include holdings, services provided, and funding. The report will be consolidated at the Command and Service level to give an overall picture of the libraries.
Academic and Special libraries may have additional statistics to collect for their Command.

COMPETENCIES
Competencies have been established by a number of professional organizations to aid librarians in reviewing and improving their knowledge, skills, and abilities. Having a concrete grasp of these competencies will not only contribute to job success, but will assist in accomplishing mission requirements of the organization. Competencies encompass both personal and professional proficiencies related to librarianship.
Military Librarians Checklist

STANDARDS

Library Standards
Standards act as a guideline to improve the quality of library services by assessing and improving the quality of information management. Standards set by various organizations provide the foundation to ensure library resources and services effectively meet the knowledge-based information needs of organizational staff.

ALA Standards, Guidelines, and Documents
http://www.ala.org/tools/guidelines/standardsguidelines

DOD MWR Library Standards
[need correct link]
Military Librarians Checklist

Accreditation Standards

Academic Libraries are included in the School's Council for Higher Education Accreditation.

Medical Libraries (especially Hospital Libraries) are included in the Joint Commission on Accreditation of Healthcare Organizations (JCAHO).

Other Types of Standards

Depending on where you work, you may need to be familiar with many other types of standards.

Information Security / Cybersecurity

Building standards

ACQUISITIONS & COLLECTION DEVELOPMENT

Each agency within the federal government has unique regulations regarding procurement. Although you must follow the regulations using authorized government sources and contracting, the FEDLINK (Federal Library & Information Network) Program was created to help librarians, contracting officers, and finance staff save time, effort and money when buying and using commercial online services, books, periodicals, and other library and information services.

FEDLINK

Federal Acquisition Regulation (FAR)

http://www.acquisition.gov/far/

Contracting Officer’s Representative (COR)

A COR is an individual who is designated and authorized in writing by the Contracting Officer (KO) to perform specific contract administration or technical functions on contracts or task/delivery orders. The term COTR (Contracting Officer’s Technical Representative) is no longer used.
The Defense Acquisition University certifies Acquisition (contracting) career field professionals. A glossary of acquisition terms is handy:

Military Education Research Library Network (MERLN)
MERLN is a consortium of military education research libraries working together to provide access to a variety of unique resources for the use of researchers and scholars.
http://ndu.libguides.com/merln

MENTORING AND NETWORKING
Mentoring and networking are two ways to share our expertise and increase our connectivity. Mentoring relationships enhance an individual’s career development, whereas networking builds professional contacts. Participating in library associations at the local, regional and national levels develops your professional network.

Service Listservs
The Army, Navy & Air Force all have listservs for members only. Contact your Command or Service Librarian for instructions on access.

STRATEGIC PLANNING
Strategic planning is a vigorous analytic and investigative process that allows organizations to forecast and predict the near future. The planning process permits administrators to take a closer look at prioritizing resources, human capital and finances. Value can be added to the strategic plan by documenting costs and benefits using return on investment (ROI) as a proactive measurement tool. Strategic planning provides the framework for administrators to evaluate the library’s contribution to overall support of the organizational mission and goals.

FLICC Marketing and Advocacy Resources Bibliography – (includes a section on “BRANDING, MARKET RESEARCH, ADVOCACY, STRATEGIC PLANNING, RETURN ON INVESTMENT”), 2007
http://www.loc.gov/flicc/bibliography2.pdf

KNOWLEDGE MANAGEMENT
Knowledge management (KM) is a conceptual framework that is used in countless ways throughout federal organizational structures. The Handbook of Federal Librarianship defines KM as a “discipline dedicated to more intentional means of people creating and sharing knowledge--data, information, and understanding a social context--to perform the right organizational and business actions.” Today, federal librarians are embracing the challenges and opportunities of KM by working together with other organizational structures to achieve common objectives and goals.

FEDERALLY ADMINISTERED RESEARCH ORGANIZATIONS
Military Librarians Checklist

**Federally Funded Research & Development Centers (FFRDCs)**
Federally funded research and development centers (FFRDCs) have evolved from research facilities established to meet the special needs of World War II. These Centers receive their primary funding from one or more Federal Agencies. Primary activities include one or more of the following: basic research, applied research, development, or management of R&D.

**University Affiliated Research Centers (UARCs)**
UARCs are not defined in federal statute. However, DOD has established policies and procedures for their management. The characteristics of UARCs are very similar to FFRDCs. The defining feature of UARCs, like FFRDCs, is the long-term strategic relationship they have with their sponsoring federal agency. This relationship is intended to allow for in-depth knowledge of the agency's research needs, independence and objectivity, freedom from conflicts of interest, access to sensitive information, and the ability to respond quickly to emerging research areas.

[http://acqnotes.com/acqnote/industry/uarc](http://acqnotes.com/acqnote/industry/uarc)

**Information Analysis Centers (IACs)**
Information Analysis Centers (IAC) are government organizations regulated by DoD and overseen by the Assistant Secretary of Defense for Research and Engineering (ASD(R&E)) with administrative and operational management provided by the Defense Technical Information Center (DTIC).

Basic Centers of Operation (BCO) perform functions necessary to fulfill the mission and objectives applicable to the DoD Research, Development, Test and Evaluation (RDT&E) and acquisition communities’ needs. They collect, analyze, synthesize/process and disseminate Scientific and Technical Information (STI). They provide up to **4 free hours** of information services, including literature searches, product/document requests and analysis within their focus areas. Services are provided through their extensive database collections and subject matter expert (SME) networks including retired senior military leaders, leading academic researchers, and industry executives.

In addition to the DoD IACs, various branches of the services operate and run other Office of the Secretary of Defense (OSD) sponsored IACs. These OSD-sponsored IACs were established to be the focal point for information related to their community of interest.
