# LEADERSHIP

# What is Leadership?

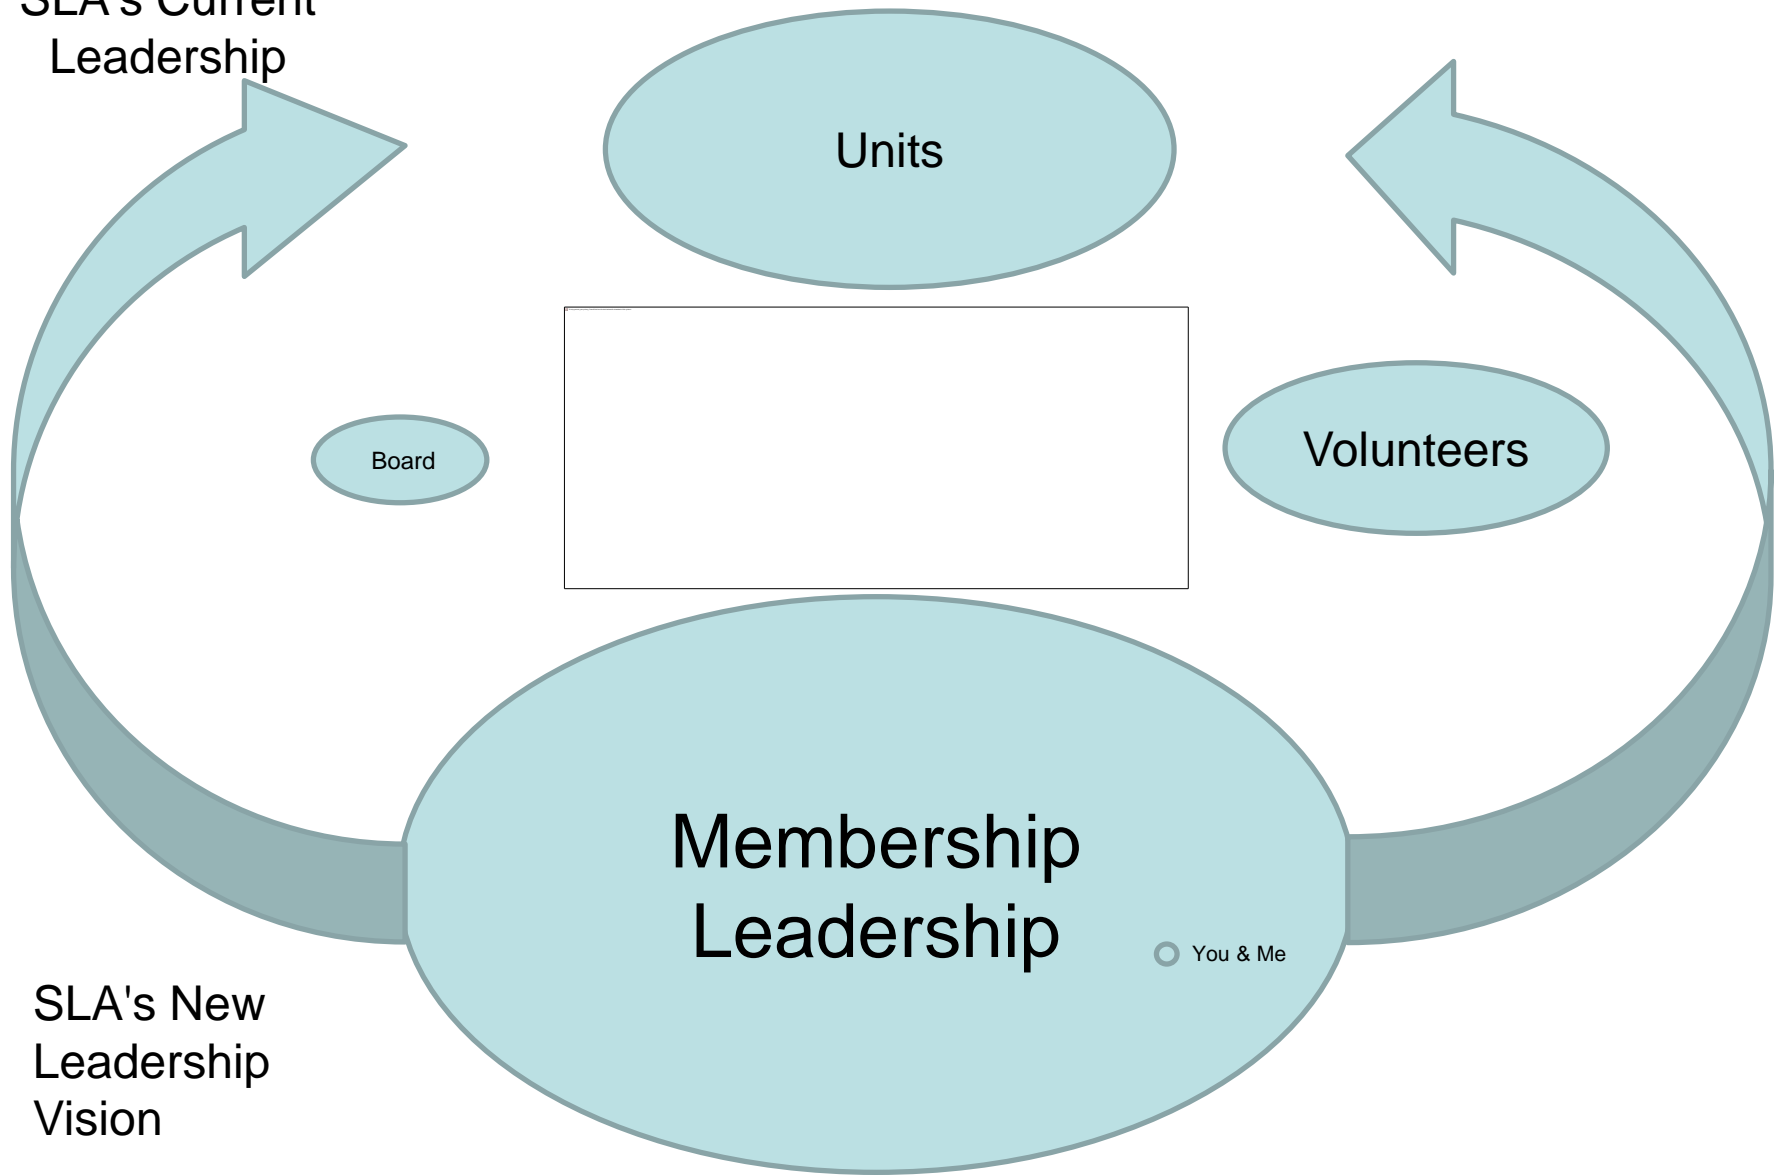

- The action of leading a group of people or an organization
- Set direction and help themselves and others to do the right thing to move forward
- Process of social influence, which maximizes the efforts of others, towards the achievement of a goal
- Many other definitions
- Hard to define

# A New Vision for SLA: Leadership as Practice

It is a conception of **leadership** as occurring as a **practice** rather than residing in the traits or behaviors of particular individuals. A **practice** is a coordinative effort among participants who choose through their own rules to achieve a distinctive outcome.\*
