Candidates with a demonstrated interest and strong proficiency in (a) English/journalism/creative writing, (b) computer science, or (c) math/statistics are strongly preferred.

Federal Reserve System (Washington, D.C.), Research Library Intern (R&S-21140)

www.federalreserve.gov/careers/

The Research Library at the Board of Governors of the Federal Reserve System is offering a paid summer internship for graduate level library or information science students. The Research Library intern will help improve library services to the Board research and professional community, will work on several of the following projects that represent a variety of the library's responsibilities: Data Inventory Catalog Record Enrichment; Scholarly Research and Communications; Preparing for Library Move; Research; and Marketing.

This full-time (40 hours per week during working hours) internship is located in Washington, D.C., lasts 10-12 weeks, and begins in late May or early June.

Please submit a cover letter, resume, and undergraduate & graduate unofficial transcripts. To apply, please visit <https://www.federalreserve.gov/start-job-search.htm> and search for job number 21140.

Fort Laramie National Historic Site Research Assistant

<https://www.linkedin.com/jobs/view/fort-laramie-national-historic-site-research-assistant-at-conservation-legacy-878020358/>

The intern will be working in the library and archives to create a complete bibliographic record of Native American resources available to park staff and the public. These resources will later be incorporated into the future Fort Laramie Treaty Center which will benefit Northern Plains tribes, as well as staff, and the general public including local community, teachers, and other school staff. The creates bibliographic record of Native American resources related to history, traditions, ethnobotany, and cultural landscapes as it relates Fort Laramie National Historic Site and immediate area will help the Park management staff better manage the cultural and natural resources of the Park by creating a complete record of resources available.

Smithsonian Libraries (Washington, DC), Kathryn Turner Diversity & Technology Internship

<https://library.si.edu/internships/diversity-technology-internship>

Application deadline: 1/18/19

The Smithsonian Libraries is pleased to offer the Kathryn Turner Diversity and Technology Internship. This full-time, 10-week program allows a student enrolled at a Historically Black College or University with a background in computer science to sharpen his/her skills and gain real world experience in the largest museum library system in the world.

Interns may receive up to \$500 per week, which is awarded to the student as a stipend. Internships are full time (35 hours per week) for 10 weeks. Interns are not eligible for Smithsonian or Federal transportation benefits.

Smithsonian Libraries, 50th Anniversary Internships

<https://library.si.edu/50thAnniversaryInternships>

Application deadline: 1/18/19

The Smithsonian Libraries' successful internship program currently provides students in library and information science and other disciplines, a once-in-a-lifetime opportunity to work side by side with expert Smithsonian Libraries and Smithsonian staff to acquire the latest skills, knowledge, and hands-on experience needed for today's information and cultural heritage marketplace.

In honor of the Libraries' 50th Anniversary, a new paid internship program was created and will begin in Summer 2019. Interns in this program will be a mix of education levels, allowing the Libraries to nurture a passion for information services and museum libraries in a variety of age groups. Internships will be full time for eight weeks during the summer of 2019, with stipend levels dependent on academic level.

Graduate Level Internships:

- **Researching Art Ephemera Legacy Collections, American Art & Portrait Gallery Library, Washington, DC**
- **Preservation Services: Mold Remediation and Re-binding, Smithsonian Libraries Book Conservation Lab, Landover, MD**
- **Hirshhorn Library Special Collections, Hirshhorn Museum and Sculpture Garden Library, Washington DC**

U.S. Citizen and Immigration Services (USCIS) History Office and Library Internship Program

<https://www.uscis.gov/history-and-genealogy/our-history/internship-opportunity>

The USCIS History Office and Library preserves and promotes understanding of USCIS history and the histories of its predecessor agencies and programs. Student Interns will assist the History Office and Library staff in providing well-researched responses to reference requests, performing primary source research both in the library's collection and at the National Archives, and developing content for the USCIS History website.

Deadlines:

Summer semester: February 4

Fall semester: June 1

“While there are many opportunities in the federal government for internships, fellowships, and other work experience, there is no comprehensive source to assist in locating these opportunities. This report describes internet resources for prominent and popular opportunities for internship, fellowship, and work experience programs within the federal government. The report is intended as a selective guide for students of all levels: high school, undergraduate, graduate, and postgraduate. It provides information on legislative, executive, and judicial branch opportunities and links to several aggregators of jobs data. The introduction provides a number of insights to assist applicants on understanding terminology, timing applications, and expectations for types of work involved.”

UPCOMING CONFERENCES & TRAINING

ALA Midwinter 2019 (Seattle, WA)

<https://2019.alamidwinter.org/>

Data Science and Visualization Institute for Librarians

May 13 - 17, 2019

James B. Hunt Jr. Library, North Carolina State University in Raleigh, North Carolina

<https://www.lib.ncsu.edu/data-science-and-visualization-institute>

The Data Science and Visualization Institute for Librarians is a week-long course providing the opportunity for librarians passionate about research and scholarship to immerse themselves in learning about data science and visualization in collaboration with academic peers. Participants will develop knowledge, skills, and confidence to communicate effectively with faculty and student researchers about their data and be able to provide initial consultancy on the course topics. Led by expert instructors, sessions will be interactive and will focus on mastery of core concepts, with hands-on exposure to select open source and highly used commercial tools. Sharing of practices and experiences across institutions will be encouraged.

A final schedule will be available in December, including topics such as:

- * Data Exploration and Analysis
- * Data Visualization
- * Data Cleaning and Preparation
- * Web Scraping
- * Parsing HTML & JSON, Orchestrating APIs, and Gathering Twitter Streams
- * Data Description, Sharing, and Reuse
