

Building your Mentoring Relationship – Mentee Worksheet

Congratulations on the decision to join the mentoring program. Your mentoring relationship will provide you with knowledge, insight and confidence. Know that the more you put into your mentoring relationship, the more you will get out of it. Answer these questions to frame the conversations you will have with your mentor.

About You

1. Where are you currently attending school or working within the mining/minerals/underground industries?
2. What are your specific professional interests at this time?
3. What are some of your personal interests/hobbies? Could any be applied to your work? (e.g. writing, hiking, traveling, flying drones, etc.)

Professional Goals

Even if you don't have well-defined answers to the below at this time, you can just jot down some ideas to discuss with your mentor.

1. What are your short-term career goals?
2. What are your long-term career goals?

Mentoring Goals

1. What goals do you hope to achieve through the SME Mentor Match program?
Having your mentor provide you with a new job is not an appropriate goal.
*The appropriate goal around job search would be **gaining skills** needed to find a new job (such as **interviewing tips, networking, building confidence, etc.**).*
2. Describe any experiences or learnings you hope to get from this mentoring program (**Career trajectory, skills to prepare for performance reviews**, information on **work/life balance**, etc.)
