Section Chair Report

This May, the Colorado SME Chapter is holding a formal Gala at the Oxford Hotel in downtown Denver. We will have promotional valet parking which is cheaper than any of the surrounding parking structures, so please take advantage of it, or plan to use light rail or other car services. Spouses, partners, or mining-industry friends are all welcome—SME membership is not required— the more the merrier! Entertainment will be provided specific to Colorado mining history and the hotel, as well as tours of the Oxford! You should have received an invite from Laura Fletcher, our Programs Chair, so respond immediately, and we look forward to seeing you! If you are having any difficulty with the invite, do not hesitate to reach out to Laura or me.

This will be my final letter to you all, I hope I have served our Chapter well. My personal goal has been to increase meeting attendance and improve our communications with chapter members. With our new Eventbrite system and co-meetings with Mining 4 Beer and Coal Club, I think we have started to achieve this. Richard Schwering (our current Vice-Chair) is proposed to replace me and I believe he will continue to foster growth and attendance for the Chapter.

I would like to thank my current board for all of their support: Richard Schwering (Vice-Chair), Tem Tumurbat (Treasurer), Heather Lammers (Secretary), Laura Fletcher (Programs), Kelly Donahue (Communications), Bruce Yoshioka (Director at Large), and Greg Honig (Director at Large). This is a team effort and I am very thankful for all of your help and donated time. I also would like to thank David Bieber, our Past Chair, who has helped to guide me through my term. I can’t forget all of our subcommittees and groups, your outreach and efforts are greatly appreciated. Finally, thanks to all of the Colorado Chapter members, I hope to see you in on the 17th!

Jessica

Some of the things that your Colorado Section dues help us to provide are scholarships for college students, majoring in mining disciplines; support for the Colorado State Science & Engineering Fair; provide teaching materials and perform outreach to Colorado science teachers through their State association, sponsorship for K-12 teachers participating in the All About Mining – A Total Concept of the Mining Industry course, and help support the Colorado Mining Museum and the National Mining Hall of Fame. So, by supporting the SME Colorado Section, you are directly supporting and advocating for your profession.
