Hacking Facebook manually is a perfect solution for those who don't want to soil their hands and sweat buckets while trying to figure things out. You don't need to download any app, which saves you from accidentally downloading viruses on someone's

smartphone.

Also, this method is legitimate and legal. Here is how you can access a Facebook account:

Step 1. Get the email address the person used to register their Facebook account. If you are more knowledgeable in this area, you can use hacking tools like Harvester to collect all the login information. If you're planning to hijack the account of someone close to you, then there is no reason to fret about these details. Also, you can take advantage of the naivety of some people who display their email addresses on their Facebook accounts.

Step 2. Open the target user's login page and click on 'Forgot password'. Tap on the popup for more prompts to take further action.

Step 3. Facebook will ask you to give your recovery email address to send a link for a password reset. Since you might not have access to the email address, you will need to click the link that says, "No longer have access to these?"
