

## **2010 SNAME Arctic Section Luncheon Series**

January 20, 2010

### ***2008 Seismic Acquisition in the Canadian Beaufort Sea***

**Glenn McCrimmon**

Manager – Beaufort Sea Explorations  
Imperial Oil Resources

### **SPEAKER BIOGRAPHY**

**Glenn McCrimmon** has been the Manager for Beaufort Sea Exploration at Imperial Oil Resources for the past 4 years. He has a Bachelors degree in Geology from the University of Regina and a Masters degree in Earth Science (specialty in Sedimentology & Stratigraphy) from the University of Ottawa. Glenn has worked at Imperial for 14 years. Through his career with Imperial (and ExxonMobil by affiliation) he has worked long term assignments based in Calgary, Houston and St. John's and short term assignments in Norway, Kuwait, Azerbaijan, Turkmenistan and the UK. He has worked exploration, development, production and research assignments as a geologist focusing on both onshore and offshore operations. Glenn was the technical manager responsible for the 2008 Beaufort 3D seismic acquisition program that he will be talking about at the meeting.
