

# Involved In All Things Boating Access? Join the States Organization for Boating Access (**SOBA**)

**SOBA** is the collective voice of public boating access in the United States. Our national organization is a hub for boating access information and spans many topics including:

- Design, engineering, & construction of facilities
- Boating safety
- Policy and regulations
- Paddlecraft access
- Aquatic invasive species
- Derelict vessels
- CleanMarina
- Clean Vessel Act
- Funding & grants management

**SOBA** members span multiple sectors, including all levels of government, industry, and academia.

By becoming a **SOBA** member, you will gain access to:

Discounted pricing for the annual SOBA Education & Training Symposium

A nation-wide community to share ideas with and learn from

Comprehensive training and workshop opportunities

Relevant literature and resources for all things related to boating access

New this year, **SOBA** is releasing a members-only online library of resources. This library consists of literature, regulations, recordings of presentations, and a list of manufacturers. It also includes project descriptions – no more reinventing the wheel! All materials are reviewed by subject matter experts prior to posting, ensuring the highest quality materials for you to refer to.

*Interested in participating in **SOBA** or becoming a member?
