

Pre-events Wednesday, 7th November 2018		STC Day 1 @ Alte Mensa Thursday, 8th November 2018		STC Day 2 @ Alte Mensa Friday, 9th November 2018				
8:00		Registration & Coffee	Chapters Roundtable: Plan forward*			8:00		
				Coffee				
				Prof. Mohammed Amro: Research @ TU Freiberg				
				Sofija Soskic: Estimation of applicability ranges of material balance approach for production forecasting for depleting reservoirs using numerical simulation		9:00		
				Valentin Goldberg: Calculation of CO2 solubility in thermal waters in the context of geothermal utilization				
				Ann-Isabelle Symank: Combining well log data and seismic attributes to predict zones of preferable permeability for hydro geothermal purposes in Kirchweidach		10:00		
				Ismail Boularas: Drilling Efficiency and Integrity: Impact of Automation in Drilling Operations		Coffee Break	Job Fair	
				11:00	Coffee Break	Job Fair	Eva-Maria Hoyer: How does maturity affect the petrophysical properties of Jurassic shales? - Implications for radioactive waste storage in Germany	
		Johannes Fiedler: Nanotechnology Application in Drilling Fluids	Jean-Marc Dumas (SPE Regional Director): SPE Regional update and outlook					
12:00	Registration	changed Dennis Schwarz: Development, construction and field testing of BHA with drill string for a novel, laser induced and mechanically assisted thermal drilling process		Lunch		12:00		
Group Picture		Job Fair						
13:00		Lunch		Daniel Koehn: Permeability estimates from resistivity log separation - case studies for Tertiary sands and Permian carbonates		13:00		
14:00		Keynote Speech: John D. Macpherson The Energy Industry: A Career		Catharina Rebecca Lesche: 1D and 2D petroleum system modeling of the Cooper-Eromanga Basin, Australia				
		Honoring of Contributors, Wrap Up & Door Prize				14:00		
		Anton Babenko: Prevention of iceberg collisions with offshore platforms		Coffee				
15:00		Tour of Terra Mineralia	Excursion "Reiche Zeche" Research Mine	Technical Poster Session	Job Fair		15:00	
16:00	Registration		Martin Lipus: Monitoring of gravel packing and cement pumping with a permanently installed fiber optic strain sensing cable					
17:00			Eldar Dzhumaev: Automatic complex of rheological measurement of drilling fluids					
18:00	Chapters Roundtable: Local Updates *	GSSPE Board meeting **	Young Professionals Panel Discussion					
19:00	Informal Dinner @ Schankhaus 1863		Group Dinner @ Alte Mensa					
20:00								
21:00	Icebreaker Party at "Abgang" (basement of Zur Alten Mensa) with Live Music							
22:00								
23:00								

Color Coding:

Pre-Program

Student Lecture: Drilling Topic

Student Lecture: Reservoir Topic

Student Lecture: Production Topic

Student Lecture: Geoscience Topic

Keynote, Admin, Poster Session, YP Panel

Meals & Breaks

Mini-Job-Fair

* for Student Chapter Officers only

** for GSSPE Board members only
