Education

The University of Texas at Austin, Petroleum Engineering, Austin, TX

5/2015

Overall GPA: 3.1/4.0

Related Courses: Artificial Lift, Drilling, Well Completions, & Operations Management, Reservoir Engineering I, II, & III, Petrophysics, Transport Phenomenon in Geosystems, Geostatistics, Resource Economics and Valuation, Sedimentary Rocks, Engineering Communication, Formation & Solution of Geosystems Engineering Problems, Engineering, Energy, the Environment, Geology

Experience

Suemaer Exploration & Production LLC, Corpus Christi, TX

6/2013-8/2014

Engineering & Project Intern

- Attended field operations including drilling and completions, fishing, well logging, workover at various South Texas locations including Brooks, Matagorda, and Hidalgo counties
- Analyzed and proposed cost-reducing plan for compressor replacement based on horsepower and energy requirements on entirety of company-operated producing wells
- Compiled cement data for over 40 wells and based on prior success, proposed optimum cementation plan including amount and type of tail used, pipe reciprocation, number and location of centralizers, and other factors
- Performed evaluation of acquisition of potential PDP Vienna Field prospect using various reserves estimation techniques, most prevalently decline curve analyses

Volunteer Work

SeriousFun Children's Network

12/2012-4/2014

Global network of adventure camps catering specifically to seriously ill children, free of charge

- Organized Six String Spring Charity Concert featuring Texas country artist Whiskey Myers with 300+ people in attendance, raised over \$10,000 for camps in April 2014
- Assisted in organization and set-up of Phi Kappa Tau Comedy Show 2013 and 2014, raised over \$2,000

BP MS150

4/2013, 4/2014

Annual bike race sponsored by BP to raise awareness and support the victims of multiple sclerosis

- Assisted in set-up of company booths and construction of tents
- Participated in the organization and transportation of bikers' baggage, over 10,000 pieces of luggage

PALS Program

8/2010 – 5/2011

Peer Assisted Learning Program

- Mentored and tutored three different at-risk children for 40+ hours each
- Prepared them for academic success in high school and eventually college

Skills

- Proficient in Microsoft Office, Powerpoint, Excel
- Proficient in Matlab
- Familiar with CMG Reservoir Simulator
