

Thursday September 24 at 12:00pm (noon) Pacific Time

Johana Dunlop & Flora Moon of the Society of Petroleum Engineers “GAIA”

Johana Dunlop and Flora Moon will introduce GAIA, SPE’s new sustainability platform.

GAIA is a community of people concerned with the future of the oil & gas industry and its role in the global energy transition. GAIA is developing a series of activities, events and resources that will enable industry professionals to support sustainable socio-economic development and to engage directly in a positive Energy Transition. Our SPE California Sustainability Study Group is one initiative that grew out of GAIA, and there are many other initiatives around the world.

Ms. Dunlop and Ms. Moon will explain the intent, purpose and objectives of GAIA; they will share some of the activities that have already taken place and give a preview of what’s ahead. You will learn about SPE GAIA framework made up of four pathways, four principles and four themes focused on decarbonization, biodiversity, social responsibility and the Sustainable Development Goals. And you will learn how you can get involved.

Speaker: Johana Dunlop, SPE International Board of Directors, Technical Director HSE & Sustainability

Johana Dunlop worked with Schlumberger for twenty-five years until 2017, most recently as Director, Sustainability Integration. She has actively served the Society of Petroleum Engineers [SPE] for 15 years. She led the development of the SPE Sustainability strategy, built committees, work scopes and conference programming, was the founding Chair of the SPE Sustainability Technical Section.

Johana was appointed to the SPE board of Directors to lead the HSE & Sustainability disciplines as Technical Director from 2017 to 2020. She conceived and led the production of the SPE Gaia Summit in June 2019 from which current SPE Gaia Program has grown.

Speaker: Flora Moon, Expressworks

Flora Moon is the sustainability director for Expressworks, a change management consultancy that helps clients navigate systemic change. For SPE she is the Vice Chair of the SPE Sustainable Development Technical Section, serves on the GAIA Initiative steering committee and has authored several papers on sustainability and strategy. She has worked with petrochemical clients (DuPont, Williams, Halliburton and Chevron) for over 15 years. In 2020 she received the

Sustainability and Stewardship Award from the Gulf Coast Region. Flora creates capability and capacity in local, national and international organizations and is the co-designer of a sustainability investment strategy for Merrill Lynch/Bank of America.
