STRATEGIC LEADERSHIP IN E & P BUSINESS

OBJECTIVE

This course is designed and delivered to give participants the capability to address and benefit from the strategic challenges and opportunities in the E & P business in Nigeria and world-wide. Participants are taught how to develop the requisite frames, character and skills that will enable them lead with positive impact and drive strategic changes to improve personal and organizational performance.

WHO SHOULD ATTEND?

This course is designed for executives, managers, regulators, planners, bankers, financiers, investors, business owners, technical and commercial professionals in the E & P business, who are desirous of enhancing their strategic leadership capabilities in order to improve personal and organizational performance.

BRIEF OUTLINE

This course provides deep insight into strategic leadership, strategy development and implementation in the E & P business. Systems theory and its applications in strategic thinking and the E & P business are elaborated. The forces driving changes and competition in the global and Nigeria's oil/gas industry, and strategies for sustained success are discussed. Issues and challenges of strategic alliances and portfolio management are reviewed. The development of leaders as stewards in contrast to being agents is emphasized. Socio-cultural and strategic leadership concepts for managing conflicts and change are discussed. Practical examples and cases are used to elucidate issues and solutions.
