Definition

Lease (Oil and Gas):

A contract [right of ingress and egress] by which the owner [typically Government] of the mineral rights to a property (lessor), conveys to another party (lessee), the exclusive right to explore for and develop minerals on the property during a specified primary term, based on some [fiscal] terms and conditions including but not limited to:

- *bonus;*
- *Tenure; 1^o and 2^o ;*
- *Minimum Work Obligation;*
- *Royalty, Tax and other exactions;*

For this presentation, Lease covers OPL and OML but not OEL

Reference: Para 2, First Schedule to the Petroleum Act.

Statutory Provisions, Asset Acquisition and Renewal *[Petroleum Act 101]*

- **Grant:**
 - *Block or concession by the Honourable Minister as per Paragraph 2 of the Act;*
 - *Marginal Field by the President and Commander in Chief or Holder of Oil Mining Lease (OML) subject to the approval of the President (Paragraph 17 of First Schedule)*
- **Assignment:** *by Holder of Oil Mining Lease upon meeting stipulated conditions and the consent of the Honourable Minister (Paragraph 14 of First Schedule);*
- **Renewal:** *upon meeting all obligations related to the Oil Mining Lease (Paragraph 13 of First Schedule)*
- **Revocation:** *owing to several infringements including poor activity performance (Paragraphs 23 & 24 of the Act)*

SALIENT FOCUS OF PRESENTATION

1

Goals

- Factors that crystallised in the initiative; licensing and renewal

2

Processes

- Granting, renewal and revocation of licences and applicable terms

3

Frequency

- Regularity of the licensing rounds and impact on potential investors

4

Benefits

Benefits accruing to the country and the industry from the process

5

Indigenous Participation

- Level of participation of indigenous entities and their score-card

COMMENCEMENT OF LICENSING ROUNDS – THE 1990 DEEPWATER INITIATIVE

PECULIARITIES

- Blocks allocated by negotiation as opposed to bidding;
- Blocks allocated in 1990 but PSC agreement was not reached until 1993
- PSC Act put in place in 1999 with effective date of 1993

Comment

Licensing Round: Yes

Bidding Round: Not quite

Award Summary

Indigenous Companies: 7

Multinationals: 12

3.2

Looking Back

Score Card

- ## HIGHLIGHTS
- Indigenous Operatorship Program (IOP) inaugurated in 1990
 - Program sequel to Government Note of 1989 that vests all open blocks on NNPC
 - Blocks were assigned on the basis of perceived capabilities
 - Blocks awarded on Sole Risk basis

Score Card

Conclusions

YEAR 2000 LICENSING ROUND DEEPWATER AWARDEES

MARGINAL FIELD LICENSING ROUND 2001 - 2003

HIGHLIGHTS

- Very elaborate bidding process spanning three year (2001 – 2003 incl);
- Bidding was not based on highest bidder, rather, it was a four-stage process including company pre-qualification, technical and commercial tendering as well as presentation;
- All awardees are indigenous coys and paid the same amount for each marginal field awarded

CHANGES IN INDIGENOUS ASSET HOLDINGS: 1998 - 2004

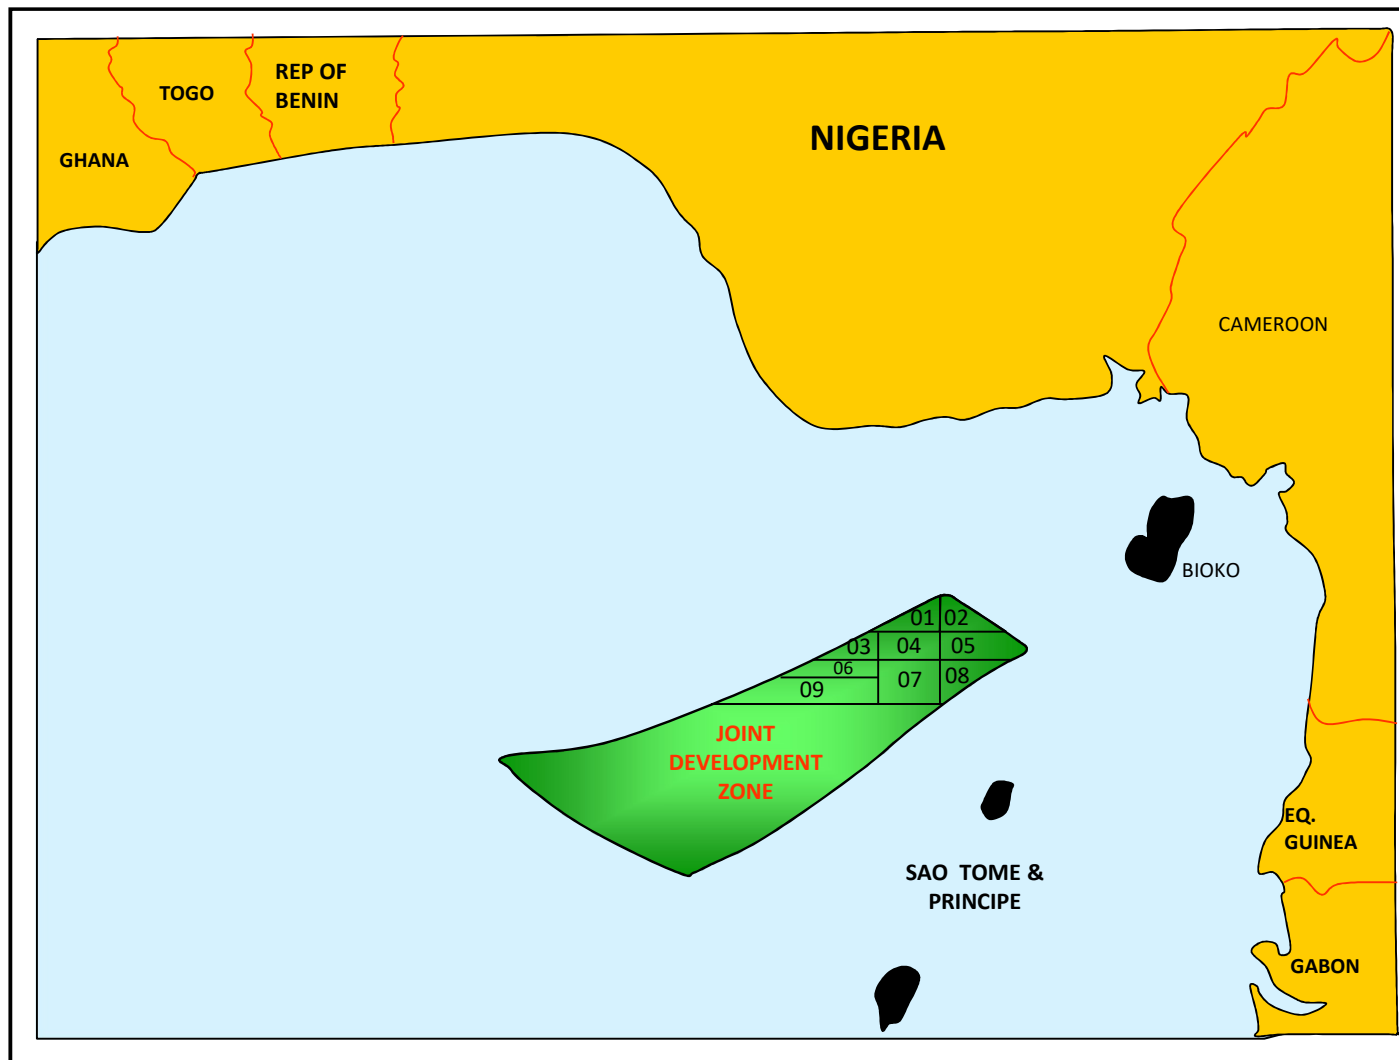

1998 INDIGENOUS ACREAGE HOLDING IN THE NIGER DELTA

2004 INDIGENOUS INTEREST HOLDING (BLOCKS AND MARGINAL FIELDS) IN THE NIGER DELTA

JOINT DEVELOPMENT ZONE (JDZ) LICENSING ROUND: 2003, 2004

HIGHLIGHTS

- Very well orchestrated bidding process involving Nigeria and Sao Tome and Principe
- Nine blocks put on offer but only one was awarded
- A repeat bidding process was carried out in 2004 in which the other eight blocks were awarded but only five paid Signature Bonus

Licensing Rounds

Score Card

Conclusions

2005 LICENSING ROUND INVOLVING FOUR BASINS (NIGER DELTA, ANAMBRA, BENUE AND CHAD)

HIGHLIGHTS

- Process similar to Year 2000 exercise
- Award tied to funding downstream projects including refineries, pipeline construction, etc.
- Fiscal term differs from the provisions in the 1999 PSC and Inland Basin Act;
- No awardee carried out any of the linkage downstream projects

Lease Acquisition And Renewals: The Nigerian Case Study

3.10

Introduction

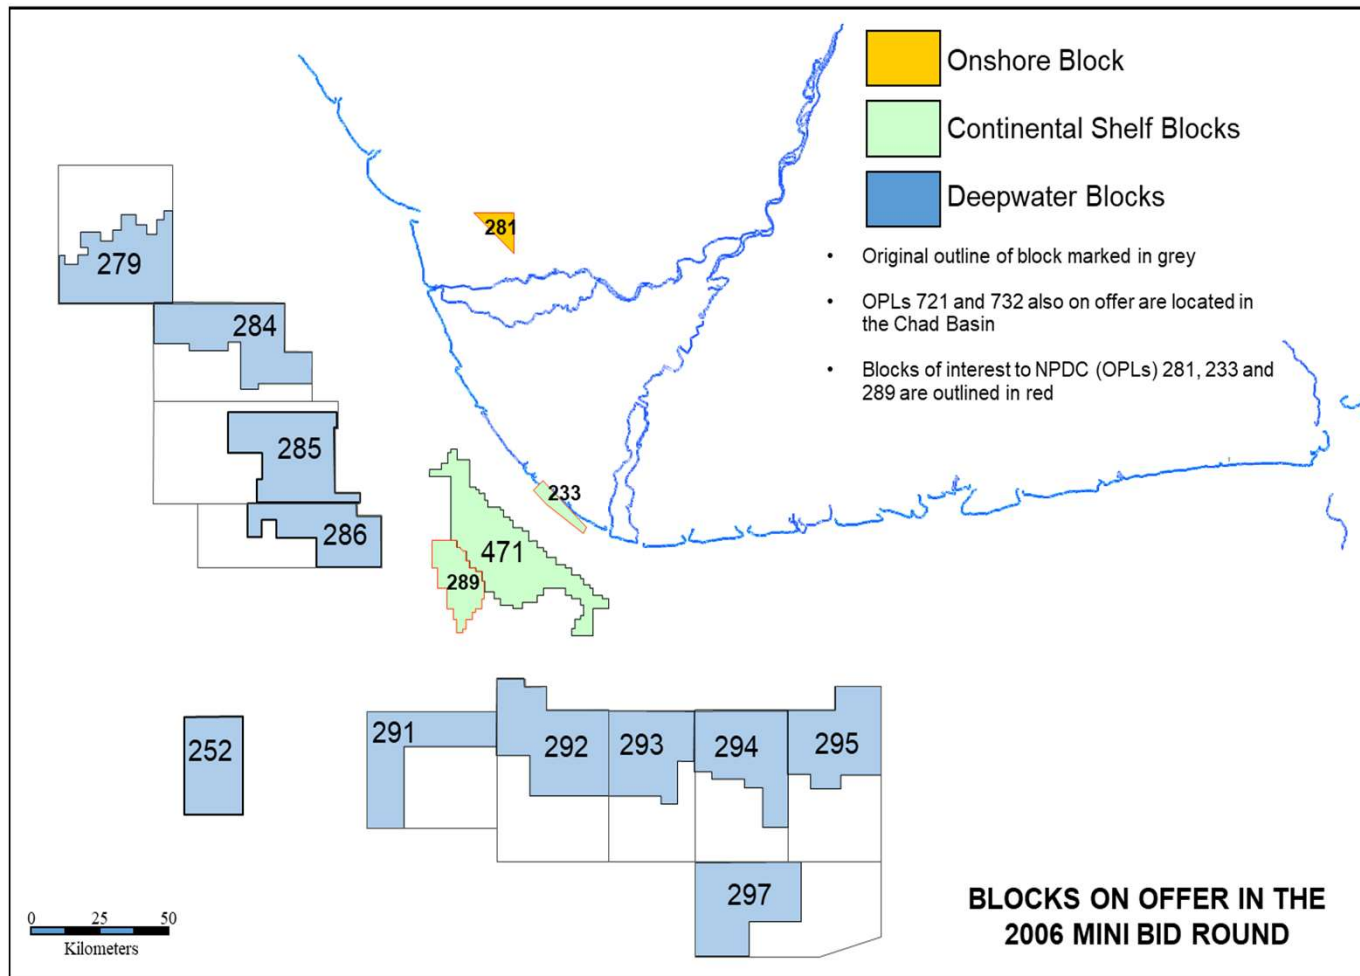

Looking Back

Licensing Rounds

Score Card

Conclusions

2006 LICENSING ROUND FOCUSED MAINLY ON THE DEEP OFFSHORE

HIGHLIGHTS

- Process similar to Year 2005 exercise
- Award based on matching [hidden] offers made by pre-selected bidders who had the right of first refusal (ROFIR)
- ROFIR introduced controversy and contention
- None of the blocks has witnessed any significant level of activities

Lease Acquisition And Renewals: The Nigerian Case Study

3.11

Introduction

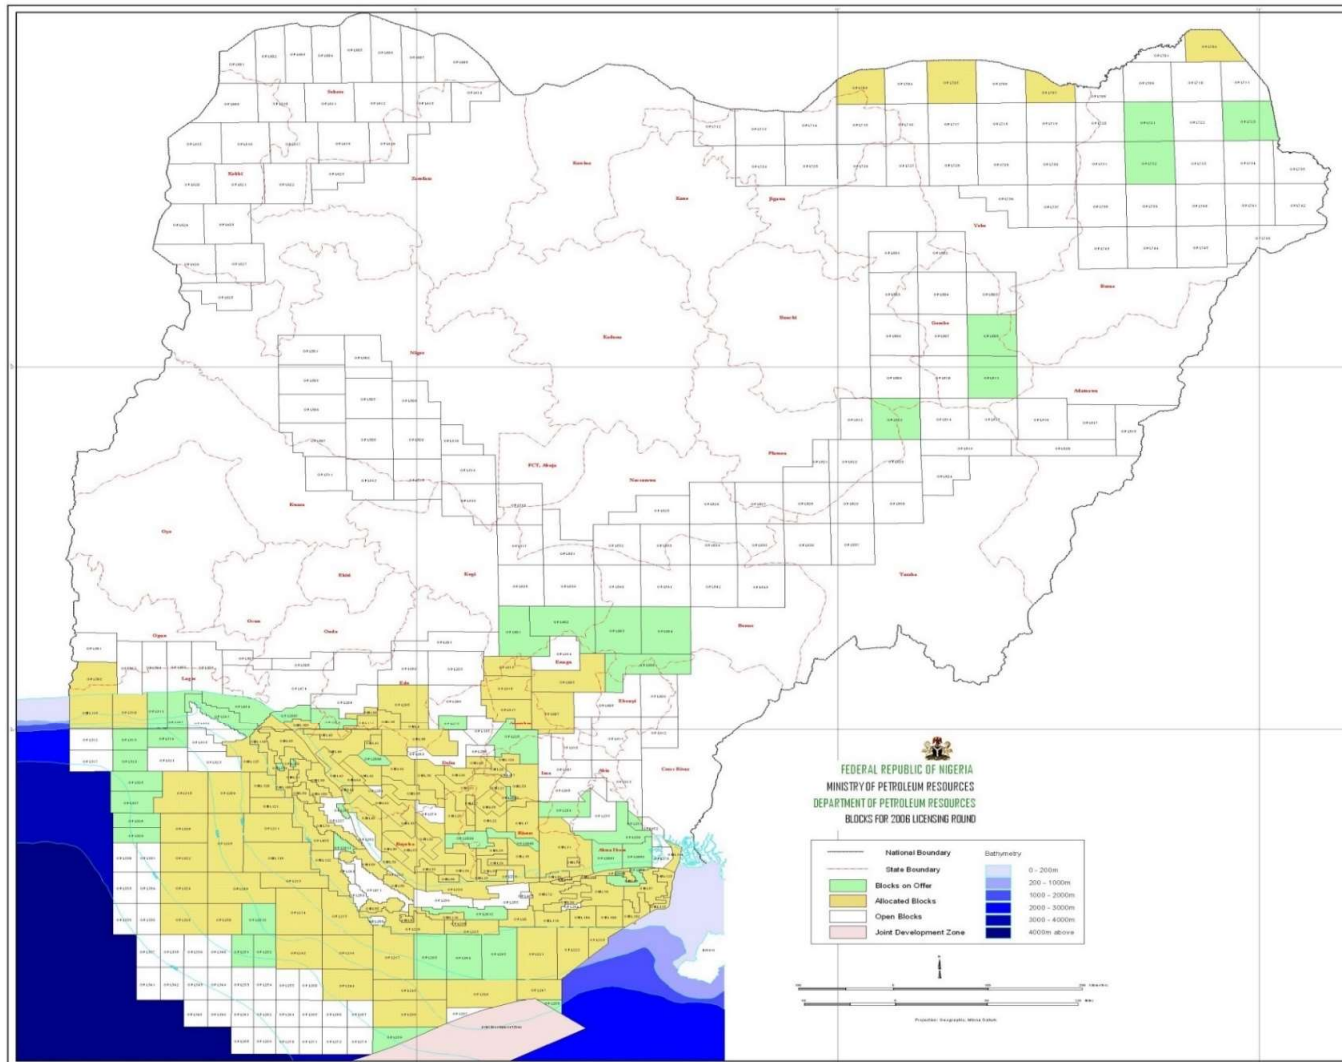

Looking Back

Licensing Rounds

Score Card

Conclusions

2007 LICENSING ROUND WITH A WIDE SPREAD ACROSS SEVERAL BASINS

HIGHLIGHTS

- Process similar to those of 2005 and 2007;
- Award introduced Local Content Vehicle (LCV) in which local entities has 10% (carried?) interest in deepwater blocks;
- Most LCVs were industry neophytes and a number of them entered the process without company registration;
- The LCV concept has continued to be controversial and contentious

Lease Acquisition And Renewals: The Nigerian Case Study

4.6

Introduction

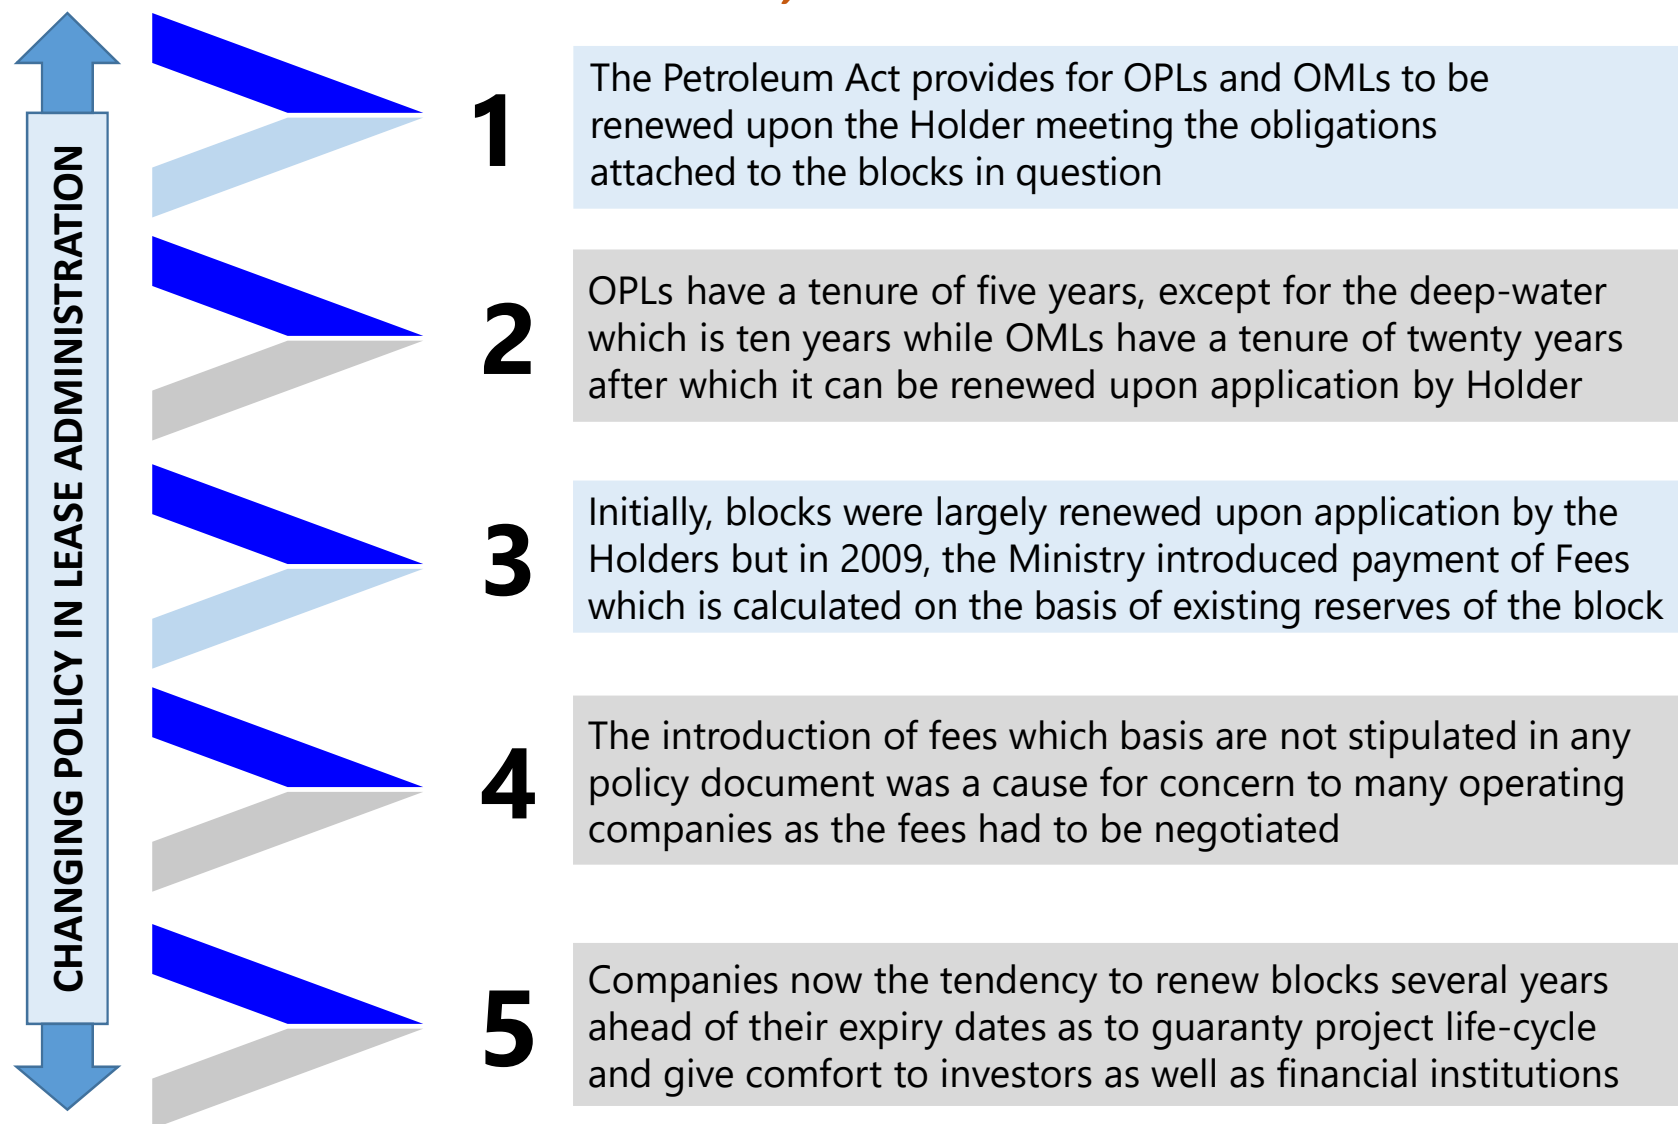

Looking Back

Licensing Rounds

Lease Renewals

Conclusions

RENEWAL OF LEASES, ISSUES AND COMPLICATIONS

GAINS & BENEFITS

- A) Monetary Benefits** – The six licensing rounds carried out over a period of twenty-nine years yielded over \$3billion not minding the refund of signature bonus made to some companies while several millions is being earned from renewal of blocks, especially in the conventional terrain
- B) Investor Focus/Attraction** – The licensing rounds brought the Nigerian basins into focus and attracted a number of investors, except that a number of them also quit over several irreconcilable issues
- C) New Block Renewal Policy** – Ensured that operators focus on meeting their obligations than risk losing the blocks on account of poor performance
- D) Empowerment of Local Companies** – The Indigenous Operatorship Program has increased the number of Nigerian exploration and production companies, most of which invariably gained experience and expertise from operating marginal fields

ISSUES & CHALLENGES

- A) Inconsistent Policies** – Protracted period without licensing rounds, tying awards to linkage projects and introduction of LCVs and similar policies may have adversely impacted the reaction of foreign investors
- B) Lease Administration** – Lease administration has fallen short of enforcing award guidelines as awardees, especially indigenous companies, continue to hold on to acreages even without payment of signature bonus;
- C) No After Action Review** – There is no review of the processes and activities relating to the awards considering the dismal performance of awardees in which only one block has advanced to production since the 2000 – 2007 licensing rounds
- D) Fiscal Regime** – Clear guidelines on renewal fees is necessary while fiscal regimes should reflect the nature of the asset as the blanket application of PSC arrangement may be counterproductive

The End
