Dear Members,

Turkey day is behind us giving our waist lines a brief break before the rest of the holidays arrive. We will also be taking a break of sorts as well. There will not be any luncheons this month, but we will be having our normal networking bash (which is also a Toys for Tots toy drive coordinated by our YPs and sponsored by WZI). The YPs have also partnered up with ASCE and SHPE for a while elephant gift exchange at 1933, always a good time!

I don’t have to tell you all, but this time of year is a busy one. To make it a little easier on yourself take a bit of guidance from the jolly man in red. Prior to traveling or shopping for loved ones make a list and check it twice. Frantic last minute trips to the store are never fun and can increase the chances of an accident.

My update this month for WRM is a biggie! Our website is up, running, and full of fun things we have planned (www.spewrm.org). You can register, sponsor, sign up for booth space, check out the activities planned, and much more! The committees have been hard at work making this conference one to remember. The only thing left is our dear members to make the proceedings truly engaging. I hope to see you there!

Until next month.

Sincerely
Your SJV SPE 2016-2017 Chair,
Keith Kostelnik
#AreYouInterested?

Kern County Science Foundation needs SPE’s expertise!

We are looking for mentors for elementary science fair who have about 1-2 hours per month to meet with elementary students and engage with them on their science fair projects. We are looking for people who want to encourage students to continue on with their interest in STEM.

LOOKOUT

If you are interested please contact SPE’s community outreach coordinator, Allison Escovedo. aescovedo@ebresources.com
Technical Advances in Tracer Technologies

Speaker: Jon Spencer, Tracerco

Date: Wednesday, December 14th, 2016 @ 11:30 AM

Location: CRC Office, 10000 Stockdale Highway, Room 390

Cost: With online payment or RSVP: $25 members, $30 non-member
      Walk-ins: $30 members, $35 non-members

Reservations: RSVP by Monday morning December 12th, using one of the
              following options:

MEMBERS

NON-MEMBERS

Note: This is a joint presentation of the SPE and SPWLA (Society of
      Petrophysicists and Well Log Analysts). SPE Members pay members
      price and location is CRC Offices.

Abstract:

Historical well-to-field production efficiency measurements and
evaluations have been based on individual logging runs and some
radioactive / chemical based materials used to measure inflow and
interwell connectivity. With the advances in R&D efforts to migrate
chemicals onto polymers and into gas & fluids, these new advances can
be used in different wellbore applications, from simple monitoring to
complex multi-lateral flow measurements.
Tracer technology is no longer restricted to a small suite of radioactive isotopes and limited applications, but with the use of non-radioactive chemicals in different phases and formulations the use of tracer technology is now open to the use of tracer placements for monitoring and measuring well production from field-wide operations on down to the smaller scale of individual sections of a wellbore.

This presentation will be a quick run through tracer technology currently available, as well as R&D efforts for future tracer releases. The presentation will show both past usage and results, in Waterflood, Gas Storage, CO2 Flood, Screens and stage Frac measurements.

**Biography:**
Jon Spencer is currently working as the Technical Advisor for Reservoir & Completion Tracer Technologies for Tracerco, a division of Johnson Matthey. Tracerco is a world leading industrial technology company, providing unique and specialized detection, diagnostic and measurement solutions to the oil & gas industry.

Mr Spencer has been with Tracerco since 1993, collaborated on three SPE papers and is co-sponsor of the patent on oil tracer technology for hydraulic stimulation production measurements, a member of the Society of Petroleum Engineers, and an officer of the SPE-GCS Northside Study Group.

He has been in the oil patch since 1976. After obtaining an engineering degree he spent 15 years with Halliburton Logging Services performing open hole, cased hole and production logging services in Texas, South America, Mid East and Far East before joining Tracerco where he worked in various technical and managerial roles in Texas, Alberta and Brazil leading the reservoir tracer technology group.
Electrical Submersible Pumping Services For California

Summit ESP offers a complete line of electrical submersible pumping services in California.

**ESP Equipment**
- Abrasive resistant and gas and handling pumps
- Specialized coatings
- Variable speed drives

**Services**
- VSD repair and service (all manufacturers)
- Pump assembly and testing
- Well/ESP surveillance
- Equipment delivery service

**ESP Experience**
- Well surveillance, troubleshooting and remote monitoring
- Advanced engineering and field service
- Full-service technicians in Bakersfield, LA Basin & Ventura
- Knowledgeable on-shore and off-shore capabilities

TRUSTWORTHY • RESPONSIVE • RELIABLE • EXPERIENCED • INNOVATIVE

SENTINEL PEAK RESOURCES LLC

Exciting and challenging opportunities await you at Sentinel Peak Resources (SPR) in the Los Angeles Basin and Bakersfield, CA. We are an independent oil and gas company engaged in the activities of acquiring, developing, exploring and producing oil and gas properties primarily focusing on heavy oil development in California. SPR offers a competitive compensation program and comprehensive medical, dental and vision coverage as well as disability and life insurance benefits.

CURRENT OPPORTUNITIES:

Reservoir Engineer:
- Candidate should have 10 years of experience with heavy oil thermal recovery.
- BS in Petroleum Engineering and be familiar with Oil & Gas economic software.

Geologist:
- Candidate should have 5 years of CA Oil & Gas experience
- BS and MS in Geology and be familiar with geological mapping software.

Production Engineer:
- Candidate should have 7 years of CA Oil & Gas experience
- BS in Petroleum or Mechanical Engineering and be familiar with production or reservoir engineering software applications in the Oil & Gas industry.

Engineer Technician:
- Candidate should have 5 years’ experience as an engineering technician in the Oil & Gas industry.
- BS in Economics, Math, Computer Science or other related degree with experience with oil field management software and familiar with Oil & Gas economic software.

Operation Superintendent:
- Candidate should have 15 years California thermal experience
- At least 10 years leading teams with emphasis on safety and environmental compliance.

Procurement Manager:
- Candidate should have 15 years supply chain experience in Oil & Gas industry
- BS in Business or Engineer Technology.

HOW TO APPLY:
Submit Resume to: SPR Attn: Human Resources, 1200 Discovery Dr., Suite 100, Bakersfield, CA 93309 or email contact@sentinelpeakresources.com EOE, M/F/D/V SPR does not provide sponsorship. No walk-ins.
Electric Submersible Pump Systems

A single source for your artificial lift needs
geoilandgas.com

GE Oil & Gas is dedicated to lowering your lifting costs, increasing production, extending runtimes, and optimizing operations through the application of our industry leading Electric Submersible Pump products.

We draw on innovative solutions across GE’s high-tech portfolio to bring more capabilities and performance to the field; we are helping shape the oil and gas industry by injecting technology and lessons learned from our other businesses directly into our artificial lift products. All of this is complemented by superior regional and local support services that allow us to meet our customers’ needs through collaboration and innovation.

One source. One team. Capable, responsive, reliable, innovative and ready to maximize your well so it performs at its optimal level — whatever its location or stage.

Announcing the TOY DRIVE and SPE SJV Section Monthly Networking Bash – an SPE YP Event

Bring a toy to donate and receive a raffle ticket

Sponsored by:

Thursday, December 15, 2016
5:30 to 7:30 pm
at
Lengthwise Brewery “The Pub” Northwest
2900 Calloway

SPE Networking bashes are held monthly as a service to our members. This is a great opportunity to come out and meet people from all areas of our industry in a social setting.

Our sponsor generously provides appetizers for your enjoyment while you are meeting new people or visiting with a longtime colleague.

Non-members guests are always welcome to attend.

RSVP to Dave Susko @ david.susko@bakerhughes.com or 661-342-0691
YOU'RE INVITED TO A
SPE WHITE ELEPHANT
WITH ASCE / SHPE

(Please bring a tacky or thoughtful $10 wrapped gift)

December 5, 2016 • 5:45 PM - 7:30 PM
1933 - 7900 Downing Ave, Bakersfield, CA

A Note from Reza Ardali, SJV-SPE Membership Chair

To state the obvious, this is a tough time in the oil business. Please note, SPE has some good benefits to help us weather through this downturn. For those of you that know of others that have been laid off, please forward this information below to them. I think this will be helpful to them.

May I suggest you take a look at the following links:

Members in Transition Toolkit: http://www.spe.org/members/transition/

2016 President Nathan Meehan, “Should I Stay or Should I Go?”

Please note, in spite of unemployment, you can renew your SPE membership. You can apply for a Dues Waiver. To qualify for a dues waiver, you must (http://www.spe.org/join/options.php):

- Provide a written request for unemployment or disability.
- Submit a dues waiver request annually.
- Email service@spe.org, or write to:
  SPE
  Attn: Membership Processing
  P.O. Box 833836
  Richardson, TX 75083-3836 USA.

By keeping your membership, you will still be on our distribution list for networking, newsletters, and have access to helpful information to help you thrive in a downturn. Keeping your membership will help you get information from the SJV SPE section on future networking opportunities.

Member Benefits

- Conference and Workshop Discounts – for technical knowledge and interaction
- Technical Papers and Libraries – access to OnePetro, largest online technical library
- Career Advancement – Leadership and volunteer opportunities, Career Center for tools
- Purchases – discounts on insurance, car rental, Lands’ End Business Outfitters
- Use Membership Icon in emails

Membership includes one SPE Local Section: San Joaquin Valley (SJV) Section of SPE, sjv.spe.org

Other Resources to Join SPE

Join online: www.spe.org/join

YouTube Video: https://www.youtube.com/How to Join SPE (Professional Membership)

Professional Membership Qualifications:
Employed in work related to petroleum industry AND have one of the following:

1. University degree equivalent to 4-year Bachelor’s degree in engineering or basic or applied sciences
2. 2-year science or engineering degree or a 4-year degree in a field other than science or engineering
3. 6 years of active practice in support of petroleum engineering or in the application of science to the petroleum industry

Dues for United States are $90/year membership + $20 Entrance Fee
Former Member? Look at: http://www.spe.org/join/reinstate.php

Student? Look at: https://www.youtube.com/Student Membership
