

**David Sturgess**  
**Woodside**

David Sturgess is an engineer at Woodside Energy Ltd in Perth, Australia where he acts as Lead Joint Venture Advisor, where he stewards representation on a multi-billion dollar LNG asset. Prior to the commercial role, David held the position as corporate reserves coordinator, advised on regulatory governance and compliance and supported evaluation of new opportunities. He works across subsurface performance, operation optimisation and business driven decision-making disciplines. He serves as an lead editor of the SPE The Way Ahead young professional magazine and is a member of the SPE Sustainability Board. He received a B.Eng in Chemical and Materials from the University of Auckland and holds an SPE Petroleum Engineering Certification.
