Event: Justin Boltz – Gyrodata – Wellbore Optimization, Well Planning, Drilling, Completion, and Production in a New Oil Field

Biography:

Justin grew up in Wyoming and has lived all over the state and still calls it home. Justin graduated with a business degree and has owned and operated numerous businesses in Casper and around the state of Wyoming. He has worked in the oil and gas industry for 15+ years in the directional drilling/ surveying side of the business. He's currently working as Senior Business Development for Gyrodata. Justin is married and has two beautiful children Addy (2) and Carter (16).

Abstract:

In this presentation we will take a look at the history of drilling, surveying practices/technology and transition to current practices used today.

New technologies on the horizon? Will they change how we model, plan, drill, complete, and produce wells?

Presentation content

- Survey/Drilling Practices/Technologies of the past
- Survey/Drilling Practices/Technologies currently
- How does these practices effect well planning, drilling, completions, and overall production
- Future technology
