CALL FOR PAPERS

THEME

Bridges To Our Energy Future

The world is experiencing a global shift... more>>>

STRUCTURE

The International Congress Programme Committee has created 20 technical Forums for paper and poster presentations in the four thematic blocks of the Congress.

- **Block 1: Exploration and Production of Oil and Gas**
- **Block 2: Refining, Petrochemicals, Transportation and Marketing**
- **Block 3: Natural Gas Processing, Transportation and Markets**
- **Block 4: Sustainable Management of the Industry**

GENERAL INSTRUCTIONS

- Abstracts can only be submitted online via the official 22nd WPC Submission System.
- First you need to set up your personal page on the 22nd WPC Submission System.
- Sign up with your contact details and select a password. You will need to consent to the Copyright Agreement in order to proceed. All authors must ensure that they have all the appropriate approvals before completing their submission.
- You will find detailed instructions and a full list of available topics on your personal submission page. There you can also monitor all your activities and add a new abstract, edit a draft or view your submissions.
- Abstracts can be submitted for one of the four oral Paper slots in each Forum and / or as a Poster. Chairs can select up to 10 Posters per Forum which will be introduced in the Forum and presented at the allocated time in the Interactive Posters session.
- The Call for Papers is due to close on the **1st October 2016**. Following the review of the submitted abstracts by the Chairs and approval from the WPC committee, successful authors will be informed in January 2017. Selected presenters are entitled to register at the special Speakers Rate for the Congress. Please note that all presenters have to be registered in order to attend the Congress.

For any queries, please contact the 22nd WPC Speaker Management Team at speakers@22wpc.com
