

2019 Midwest/Northeast Section Meeting

Contributing to the NIH and the National effort to cure Alzheimer's Disease

Our Objective

- A little about me
- Why the investment of Alzheimer's Disease (AD)
- Help me identify other steps/actions we should have considered at the NIA. History is repeating itself!
- Alzheimer's Disease and other Research at NIA; there is a difference!
- Where to find out about funding opportunities about AD; want to broaden the tent!
- HAVE FUN 😊

Alzheimer's Disease Pathology

Plaques

Neurofibrillary Tangles

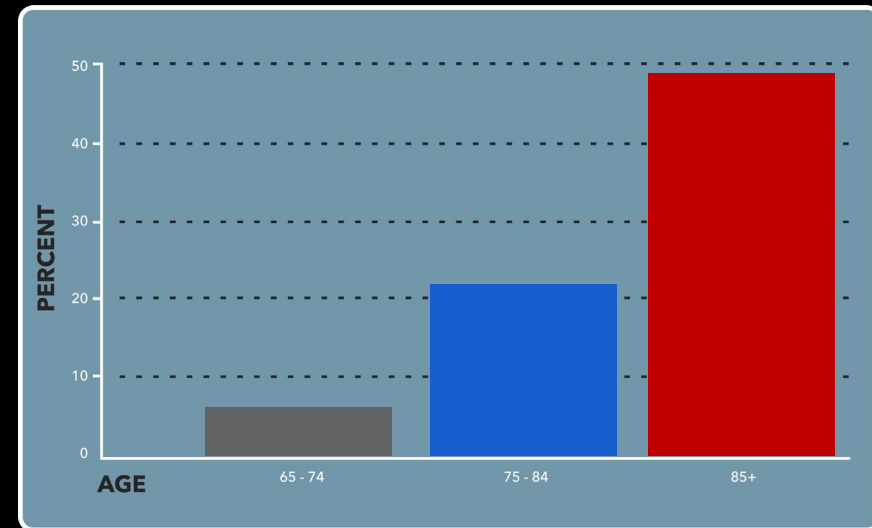

1906 - Plaques and Tangles Identified in Alzheimer's disease

Young children and older people as a percentage of the global population: 1950 - 2050

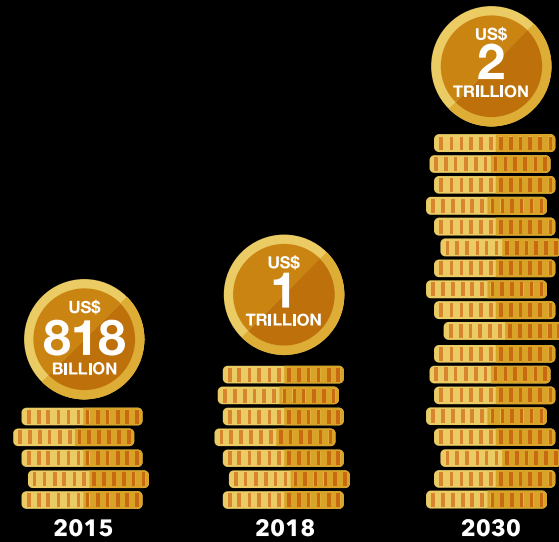

Percent of persons with Alzheimer's disease by age

The 46.8 million worldwide cases of dementia will almost **double** every 20 years

**Total estimated
worldwide cost
of dementia in US dollars**

The global impact of dementia

Around the world, there will be 9.9 million new cases of dementia in 2015,

one every 3 seconds

46.8 million people worldwide are living with dementia in 2015.

This number will almost double every 20 years.

Much of the increase will take place in low and middle income countries (LMICs): in 2015, 58% of all people with dementia live in LMICs, rising to 63% in 2030 and 68% in 2050.

The total estimated worldwide cost of dementia in 2015 is US\$ 818 billion. By 2018, dementia will become a trillion dollar disease, rising to

US\$ 2 trillion by 2030

If global dementia care were a country, it would be the

18th largest economy

in the world exceeding the market values of companies such as Apple and Google

Google
\$368 billion

(source: Forbes 2015 ranking)

This map shows the estimated number of people living with dementia in each world region in 2015.

We must now involve more countries and regions in the global action on dementia.

Alzheimer's Disease International

The global voice on dementia

The World Alzheimer Report 2015 was independently researched by King's College London and supported by Bupa.

The National Alzheimer's Project Act

- Signed into law in January 2011
- The law calls for
 - An annually updated national plan
 - Annual recommendations for priority actions to
 - improve health outcomes for individuals with AD
 - lower costs to families and government programs
 - The annual evaluation of all federally funded efforts in Alzheimer's research/care/services – and outcomes
 - The creation of an Advisory Council on Alzheimer's Research, Care, and Services

<https://aspe.hhs.gov/national-alzheimers-project-act>

National Plan to Address Alzheimer's Disease and Related Dementias

- Goal 1: Prevent and Effectively Treat Alzheimer's Disease and Related Dementias by 2025
- Goal 2: Enhance Care Quality and Efficiency
- Goal 3: Expand Supports for People with Alzheimer's Disease and Related Dementias and Their Families
- Goal 4: Enhance Public Awareness and Engagement
- Goal 5: Improve Data to Track Progress

Summer of 2015, 2016, 2017, 2018

- The FY 2016 Budget Process is moving along!
- House and Senate both have large increases in Report Language for Alzheimer's Disease (AD).
- Will the increase materialize or not?
- And if it does, is it a one shot increase, or an increase to the base?

TSUNAMI

NIA Planning Summer 2015

- The Research Community will they be ready?
- How much risk is acceptable?
- Engagement of other NIH Institutes
- NIA internal processes
 - Staffing (Grants, Review, Budget/Finance, Program, Support, others?)
 - Scenario planning – who knows!
 - Intramural?
 - Space (We were in the middle of substantial space reductions)
 - Demands on Leadership

Implementation of Additional AD Funding

- Twenty-two AD/ADRD FOAs were released by the NIA between 2014-2016 for potential funding
 - They cover a range of research areas spanning

AD/ADRD Targeted Increases

2011	2012	2013	2014	2015	2016	2017	2018	2019

FY 2013-2019

FY 2019 Budget Status

H.R. 6157

- On September 28, 2018, the President signed the Department of Defense and Labor, Health and Human Services, and Education Appropriations Act, 2019, giving the NIH a full Fiscal Year budget.
- **The Act provides**
 - **\$39B for NIH (~\$2B increase)**
 - \$500M for research related to Opioids
 - \$100 for Cancer Moonshot
 - \$40M for universal flu vaccine
 - **\$425M additional funds for AD research**
 - **\$3.1B for NIA (including the \$425M for AD)**
 - \$86M for All of Us
 - \$29M for the BRAIN initiative

FY 2019 Budget Status – Funding Increases Across the Board

**\$39 Billion
for the NIH**

→ **\$40M for universal flu vaccine**

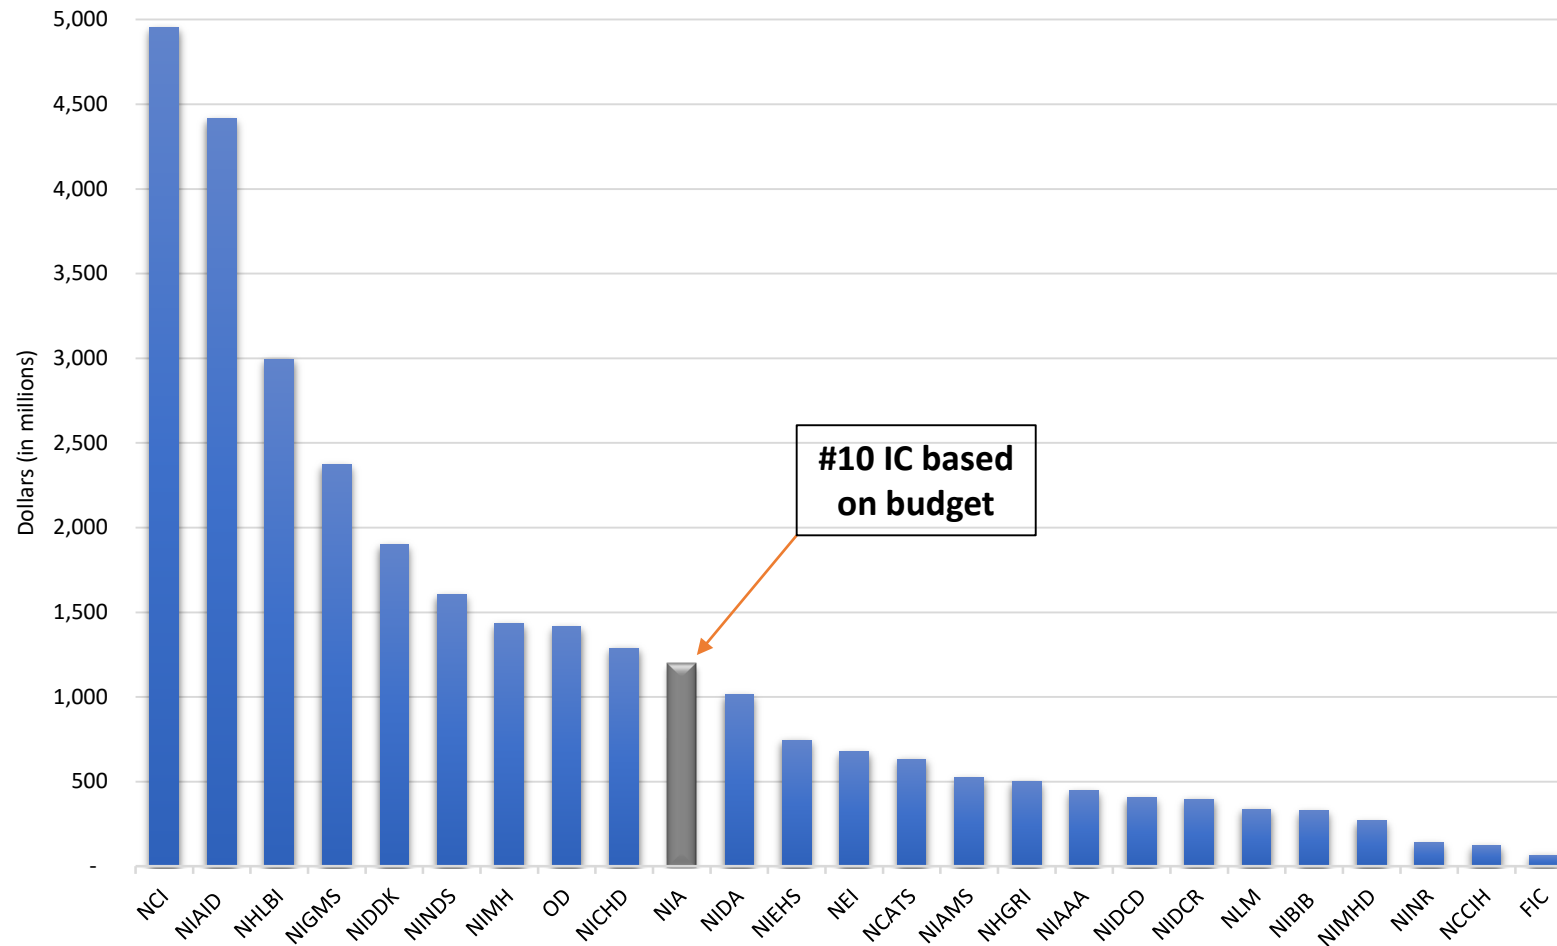

→ **\$29M increase for BRAIN**

→ **\$86M increase for All of US**

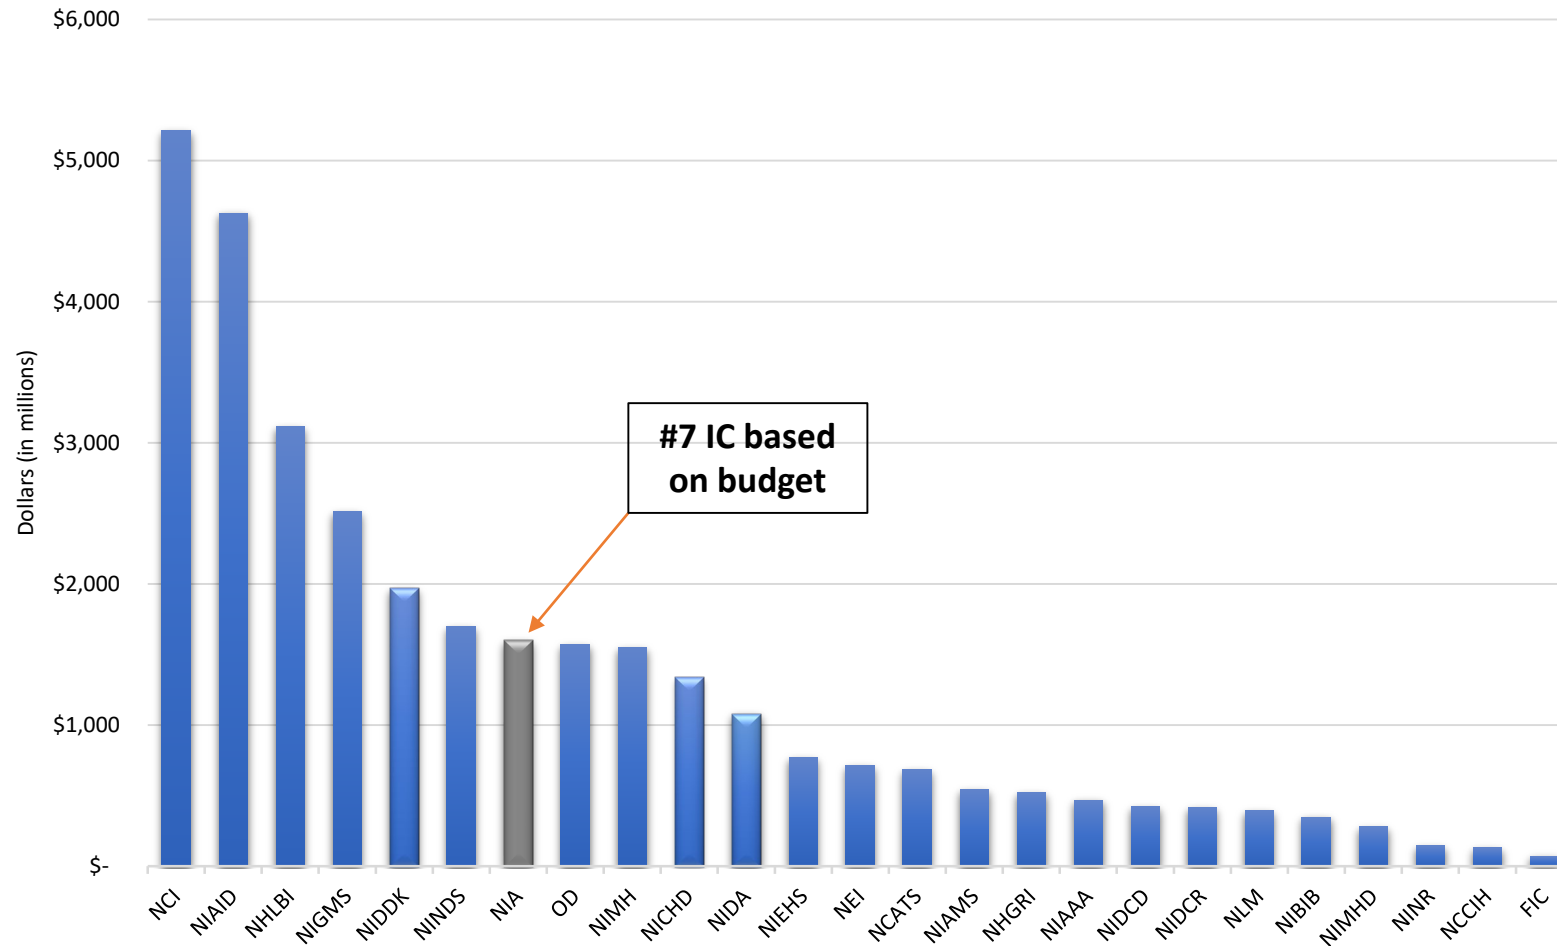

→ **\$425M increase
for AD/ADRD**

- **\$3.1B for the NIA**
- \$84M increase for NIA research; percent increase comparable to other ICs
- **All divisions will benefit**

FY 2018 NIH Operating Plan Budgets

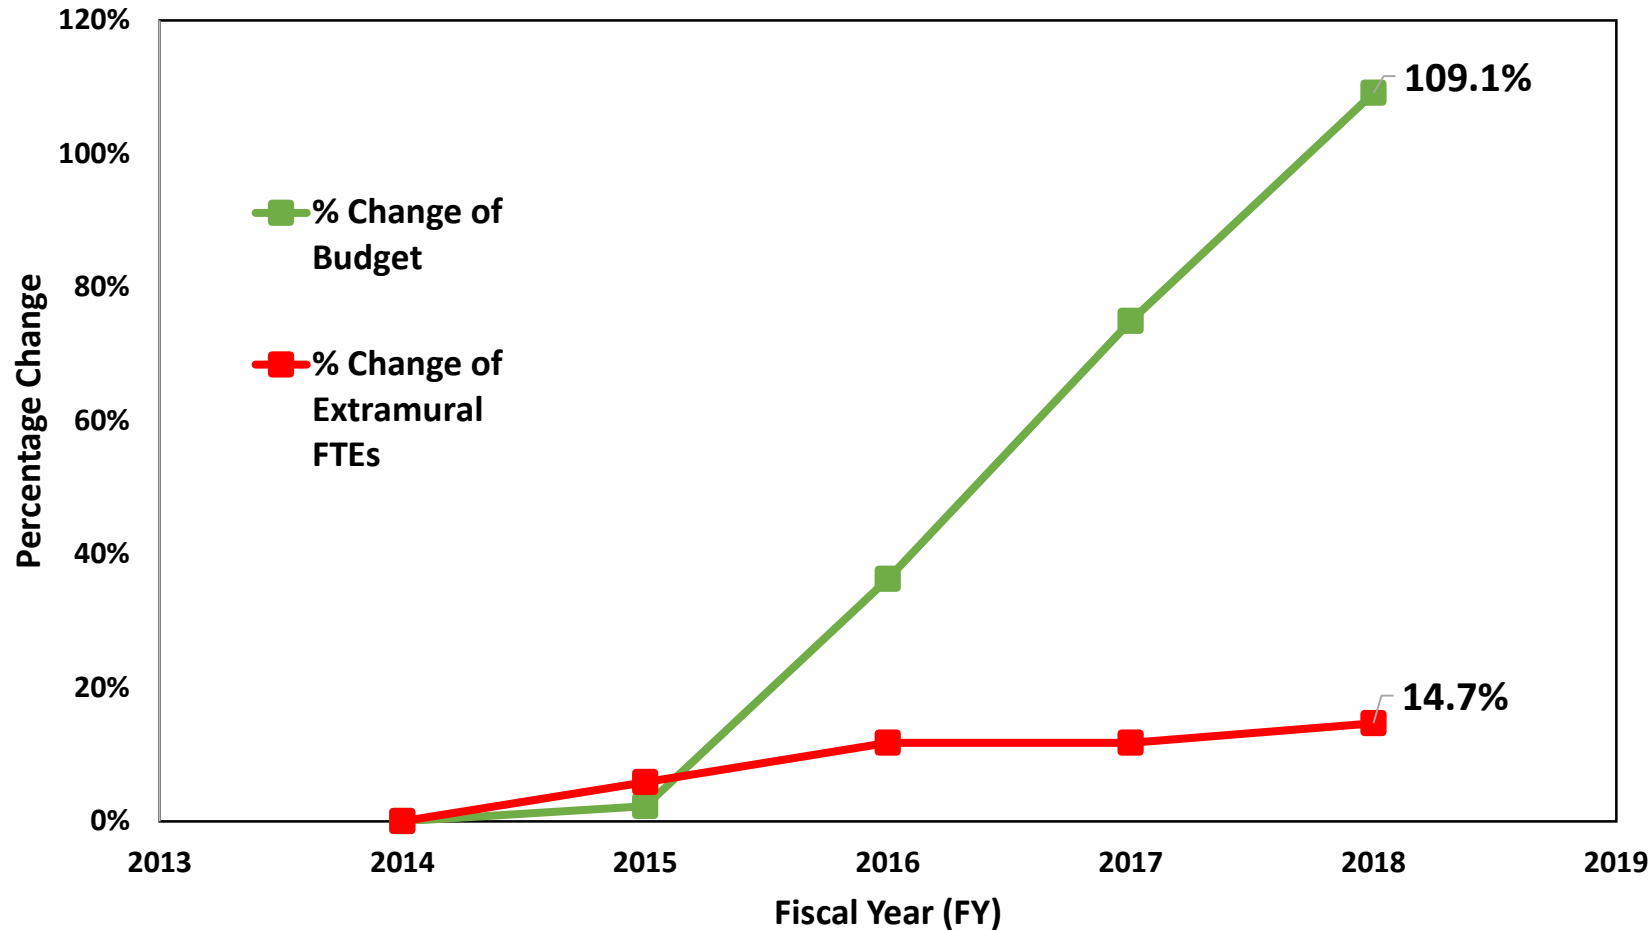

FY 2019 NIH Operating Plan Budgets

How are we preparing for the unknown?

- Regularly re-assessing our funding lines:
<https://www.nia.nih.gov/research/blog/2018/02/art-reading-tea-leaves>
- Modeling the impact of using single-year funding vs multi-year funding under multiple appropriations scenarios:
 - How will commitments made now impact our future ability to support new competing awards?
 - Under what conditions might a “steady state” be reached?
- Improving efficiency with the release of a “Parent” FOA, including nine topics of research interest in AD/ADRD:
<https://www.nia.nih.gov/research/blog/2018/02/long-story-about-strange-way-publish-funding-opportunities-or-just-another>

Total Budget vs. Extramural FTEs Percentage Change (NIA)

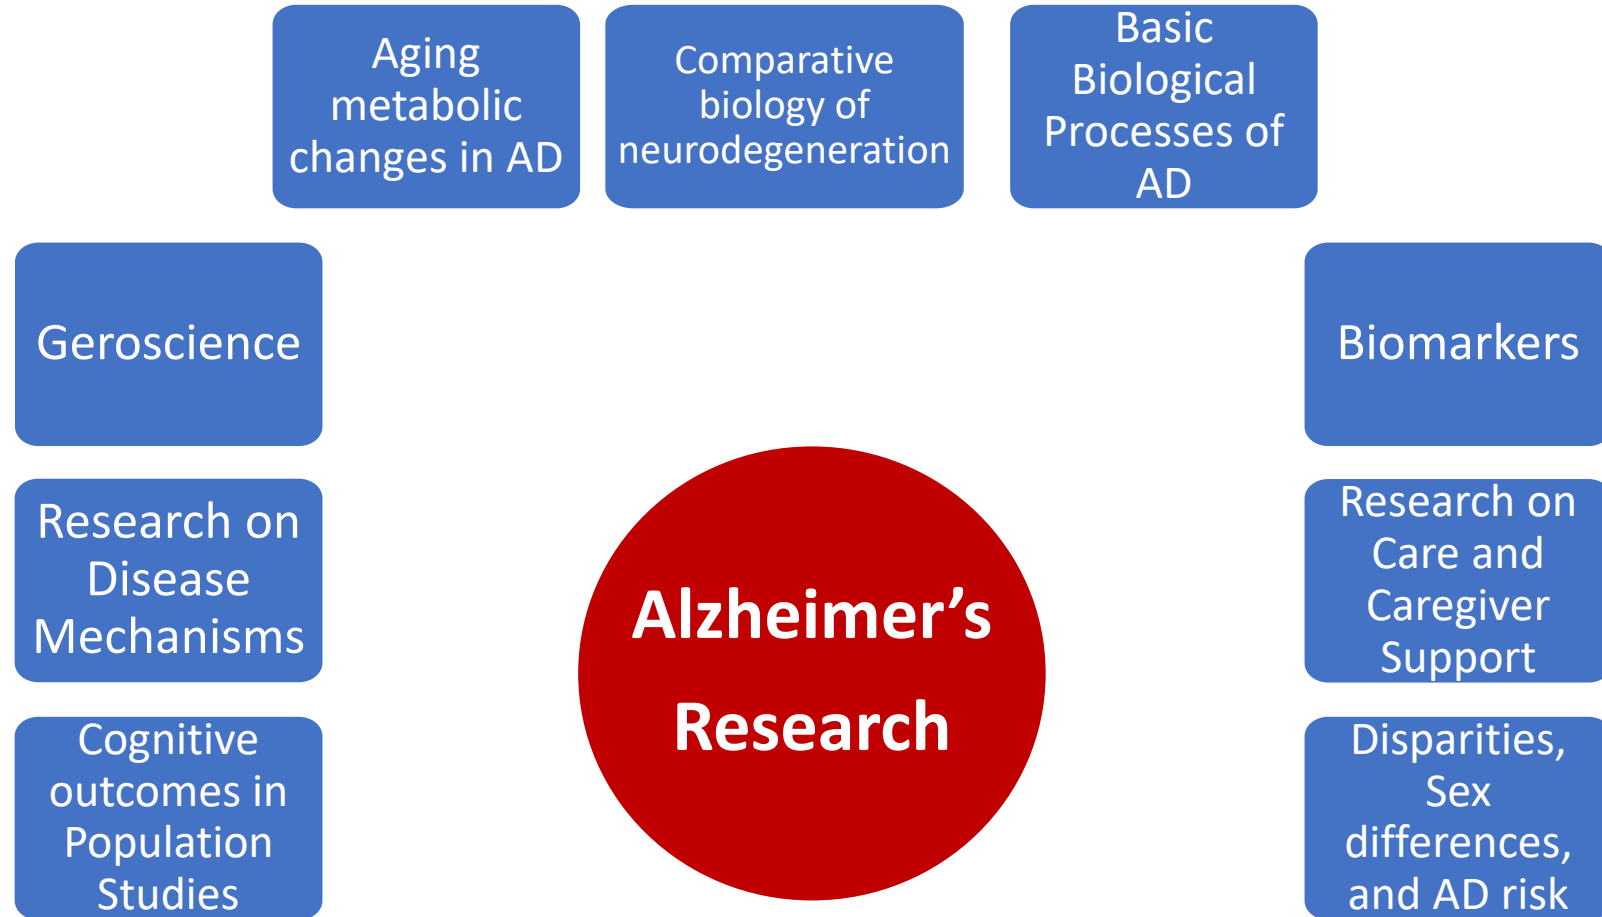

Over 8300 unique projects - 4200 funded by NIH

**From more than 35 funding organizations across
11 countries**

Diversity of AD/ADRD Research

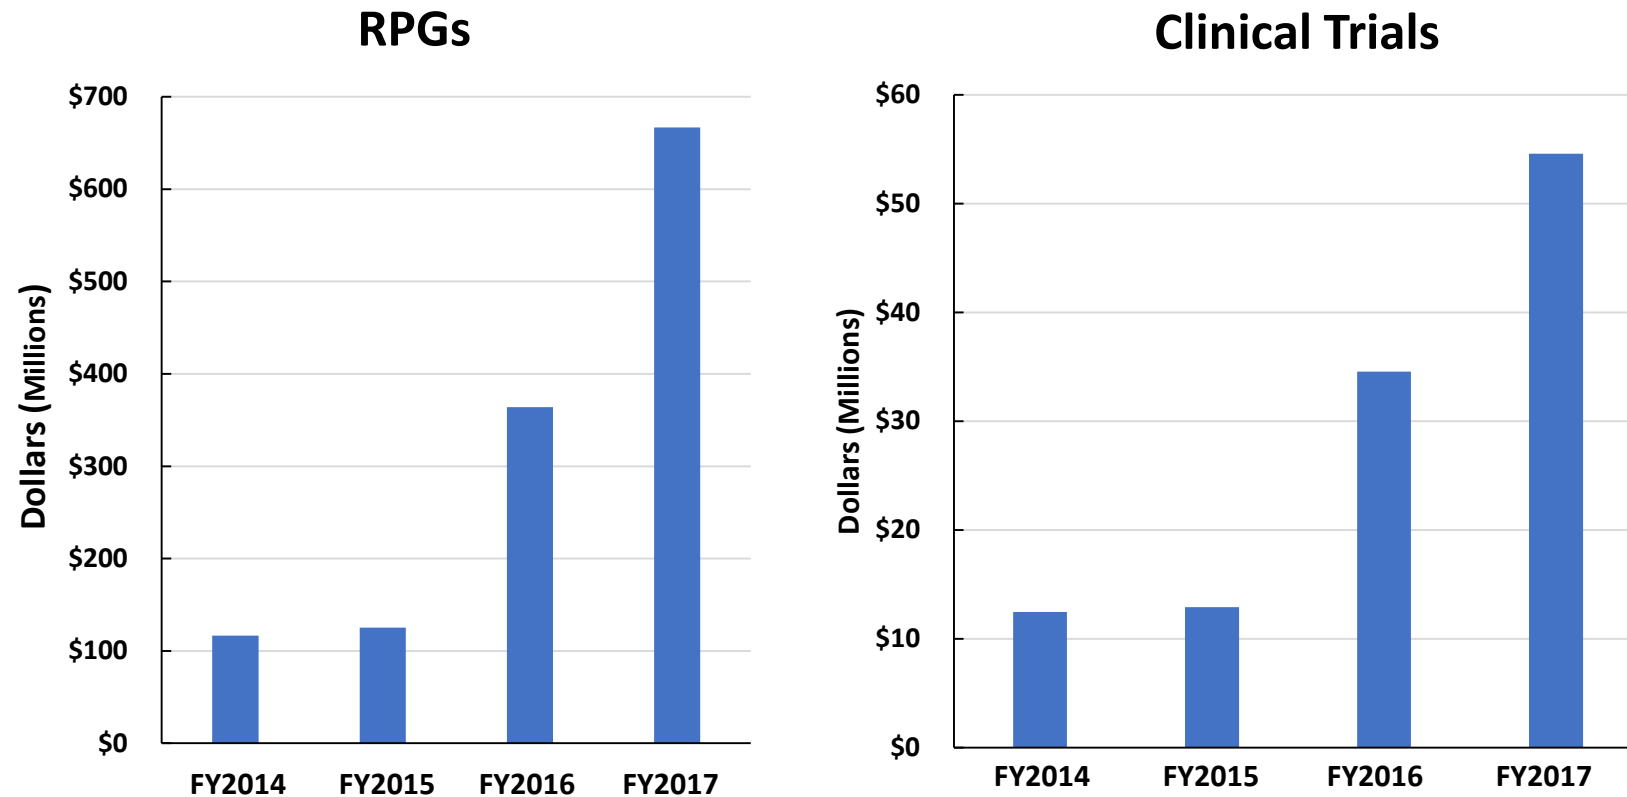

IADRP: FY 2017 Distribution of NIH's AD Research Projects across CADRO Categories

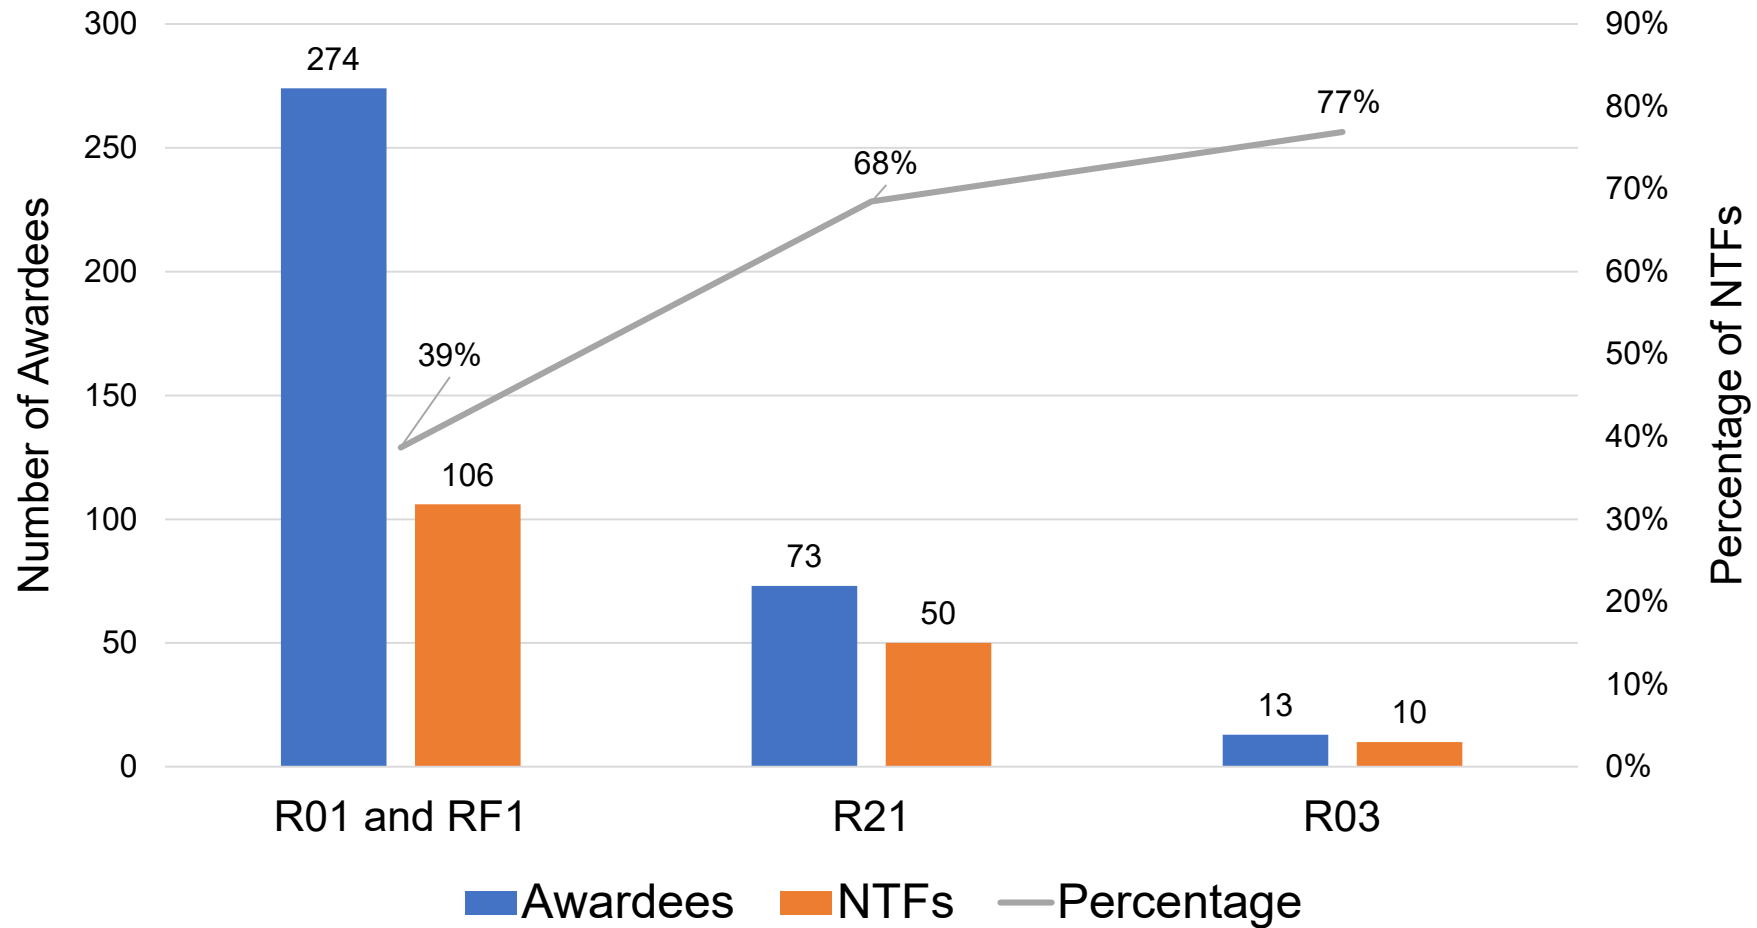

<https://iadrp.nia.nih.gov/cadro-web/>

Competing AD and ADRD Research Investments FY 2014-2017

These figures show grants awarded with NIA funding. Some of the grants are in response to initiatives sponsored by NIH ICs other than NIA (e.g., NINDS, NIBIB, NIEHS, NIDCD).

AD/ADRD Awardees/NTF in FY 2017

New to AD/ADRD Field (NTF): Investigator who never had any prior NIH AD/ADRD award/ application

Recruitment to a Growing AD/ADRD Workforce

~**1/4** of NIA's Alzheimer's and related dementias awardees from Fiscal Year 2015-2018 were either new or early stage investigators

~**1/3** of NIA's Alzheimer's and related dementias awardees were new to the field

Supplements by Institute/Center

NIA Planning Post Appropriation for FY 2019

- Must be different tomorrow than we are today
- Revisit decisions made prior to Appropriation
- All hands on deck – break through organizational silos
- Must be used on additional AD relevant research – our call. And want a solid/justifiable definition of AD
- BI-Weekly AD meeting 5-7 in the evening.
- New committees to review:
 - Grants not initially coded as AD, but program thinks should be
 - Grants from other Institutes
- NIA internal processes
 - Information flow
 - New IT system to track and manage funding decisions
 - Documentation of decisions

How did we do in FY 2018?

MECHANISM	FY2018 Operating Plan Amount (\$k)	FY 2018 Actual Amount (\$k)	Balance (\$k)
Research Grants:			
Research Projects:			
Noncompeting	\$837,330	\$846,439	-\$9,109

Payline Update FY 2019

CSR-reviewed Research Applications				
	General Payline, <\$500k	General Payline, =>\$500k	AD/ADRD Payline, <\$500k	AD/ADRD Payline, =>\$500k
All applications except as noted below	15	12	28	25
N.I. R01s	18	15	31	28
E.S.I. R01s	20	17	33	30

New investigator: An applicant who has not received a prior R01 award or its equivalent.

Early-Stage Investigator: A new investigator who is within 10 years of finishing research training.

First-time renewing; A former new or early-stage investigator's first renewal application when the investigator has no other NIH grant support.

ADRD: Research on Alzheimer's Disease and on Alzheimer's Disease-related dementias

Payline Update FY 2019 *cont'd*

NIA-reviewed Applications		
	General Payline	AD/ADRD Payline
Program projects (PO1)	20	38
Other NIA-reviewed research	20	38

Training-related Applications		
	General Payline	AD/ADRD Payline
Training grants (T32, T35)	<i>TBD</i>	<i>TBD</i>
Career awards	21	28
Fellowships	<i>TBD</i>	<i>TBD</i>

AD/ADRD & Non-AD Payline

All Applications Except N.I. or E.S.I. R01s

FY 2014-2019

Bypass Budget Language

SEC. 230. Hereafter, for each fiscal year through fiscal year 2025, the Director of the National Institutes of Health shall **prepare and submit directly to the President for review and transmittal to Congress, after reasonable opportunity for comment, but without change, by the Secretary of Health and Human Services and the Advisory Council on Alzheimer's Research, Care, and Services, an annual budget estimate (including an estimate of the number and type of personnel needs for the Institutes) for the initiatives of the National Institutes of Health pursuant to the National Alzheimer's Plan**, as required under section 2(d)(2) of Public Law 111–375.

AD Bypass Budget

- Language in SEC. 230 of the FY 2015 Appropriations Act requires a bypass budget for NIH Alzheimer's disease research to be submitted to the President.
- The HHS Secretary may review and comment, but not alter, the NIH budget submission.
- The budget will be estimated based on the NIH components of the National Alzheimer's Plan.

Trans-NIH Input for FY 2020 ADBB

Thirteen Institutes and Centers provided feedback that contributed to the development of this year's professional judgment budget:

NIA (*National Institute on Aging*)

NINDS (*National Institute on Neurological Disorders and Stroke*)

NIMH (*National Institute of Mental Health*)

NINR (*National Institute of Nursing Research*)

NIGMS (*National Institute of General Medical Sciences*)

NICHD (*National Institute of Child Health and Human Development*)

NIEHS (*National Institute of Environmental Health Sciences*)

NIDDK (*National Institute of Diabetes and Digestive and Kidney Diseases*)

NIDCR (*National Institute of Dental and Craniofacial Research*)

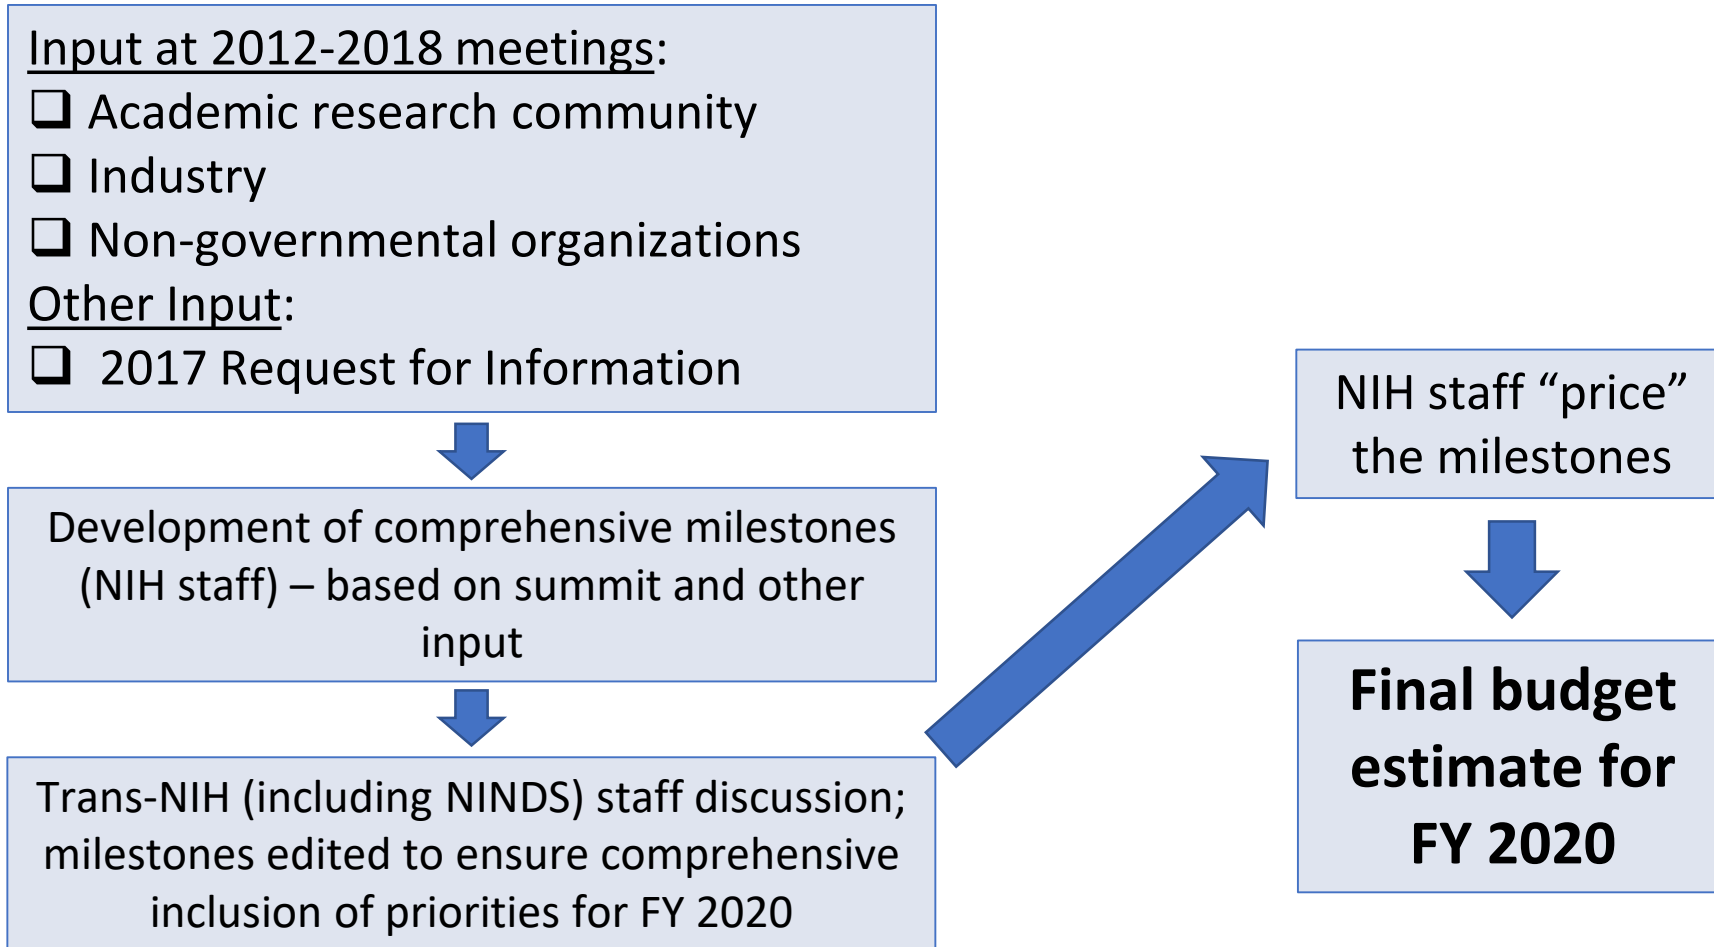

NHLBI (*National Heart, Lung, and Blood Institute*)

NIAAA (*National Institute on Alcohol Abuse and Alcoholism*)

NCATS (*National Center for Advancing Translational Sciences*)

FIC (*Fogarty International Center*)

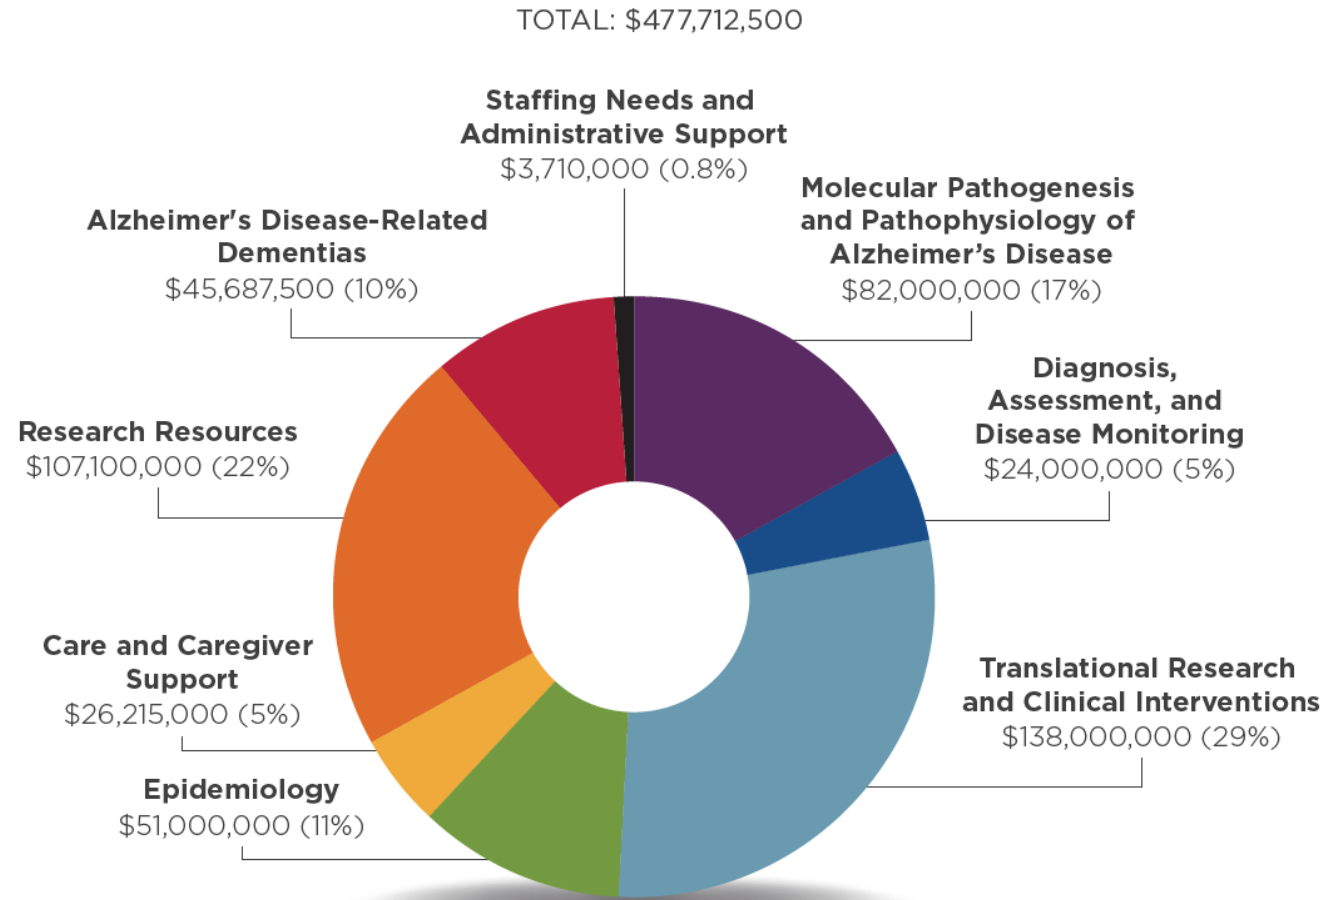

Combined External and Internal Input – FY 2020 AD/ADRD Bypass Budget

FY 2020 Professional Judgment Budget

Area of Research	Amount (dollars in thousands)
A. Molecular Pathogenesis and Physiology of Alzheimer's Disease	\$82,000
B. Diagnosis, Assessment and Disease Monitoring	\$24,000
C. Translational Research and Clinical Interventions	\$138,000
D. Epidemiology	\$51,000
E. Care and Caregiver Support	\$26,215
F. Research Resources	\$107,100
H. Alzheimer's Disease-Related Dementias	\$45,687
Staffing Needs, Support, and Misc.	\$3,710
Total Additional Resources Needed	\$477,712

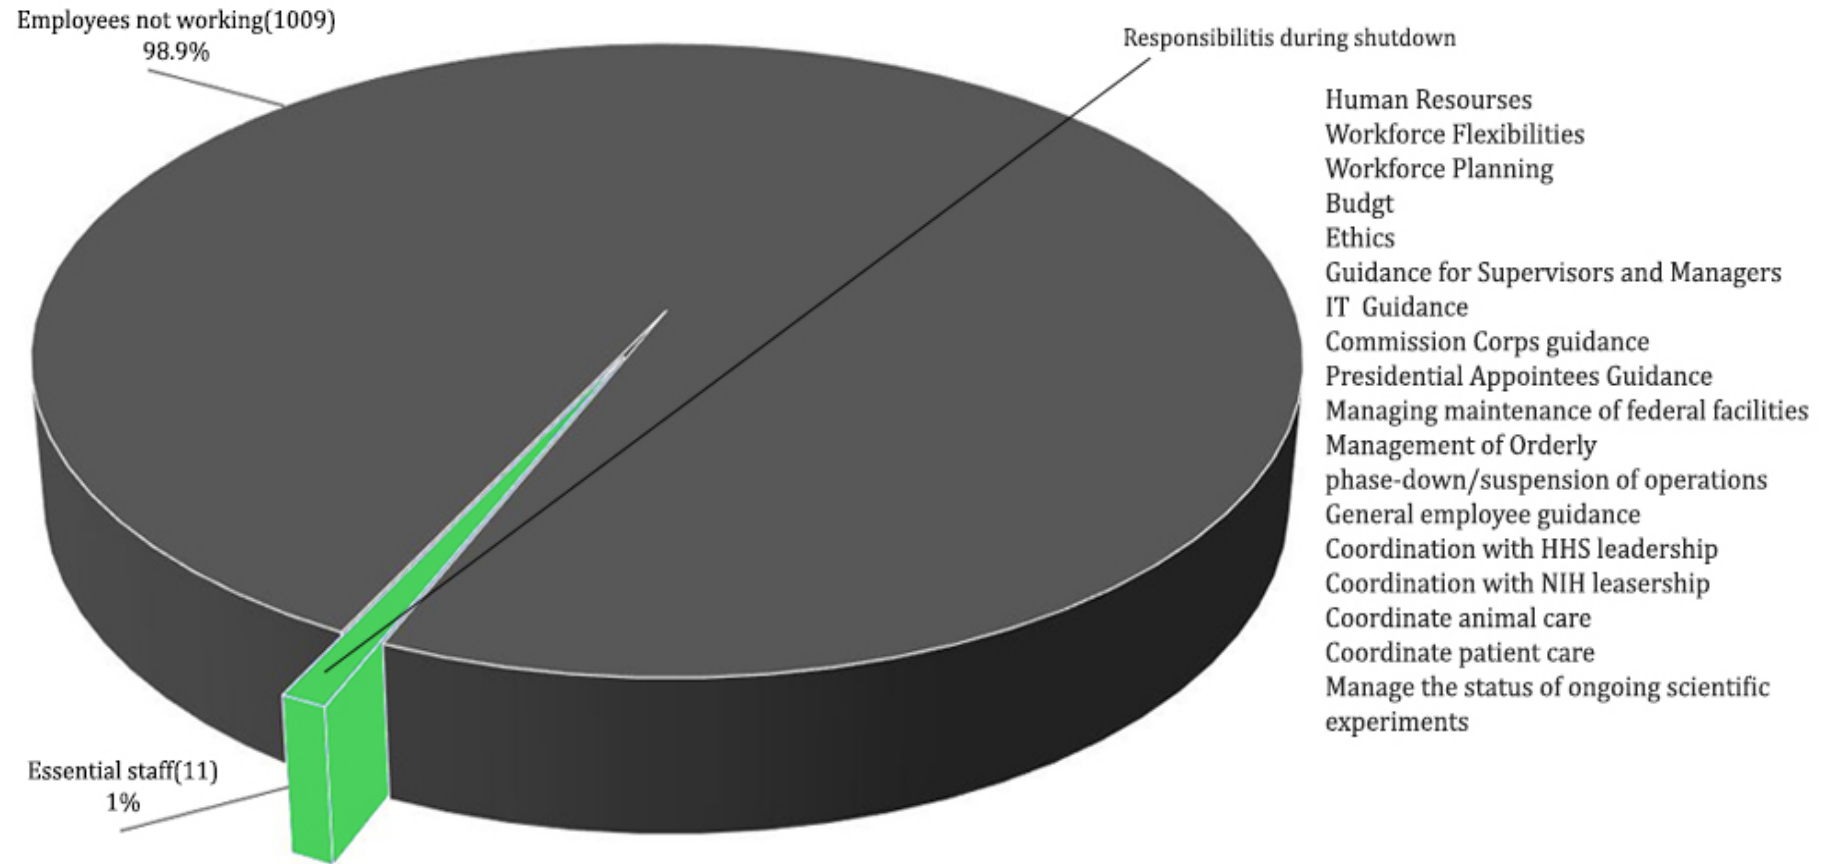

Distribution of *Additional* Budget Funding Request Across Research Areas, FY 2020

1020 active NIA staff, before the 2018 shutdown

11 active NIA staff, during the 2018 shutdown

We have a budget for FY 2019!

October 24, 2018

Amid all the news coming out of Washington these days, you may have heard that, for the first time in decades, a portion of the Federal budget was passed by Congress and signed into law by the President at the beginning of the 2019 fiscal year.

Richard HODES,
*Director,
Office of the Director (OD).*

Ways to stay informed and connected

- Visit

<https://www.nia.nih.gov/research/funding>

to search all active NIA funding opportunities

- Subscribe to our blog to stay up to date with the latest from NIA

<https://www.nia.nih.gov/research/blog>

Implementation Tracking

- **IADRP:** <http://iadrp.nia.nih.gov/>
 - Will continue to offer detailed tracking of initiatives and awards with respect to our research milestones, under the CADRO categories
- **Web-based tool for tracking funding initiatives and activities:** <https://www.nia.nih.gov/alzheimers/milestones>
 - Developed by the NIH and other AD funding organizations
 - Aimed at addressing the research milestones associated with NAPATracks funding initiatives and activities aimed at addressing the research milestones associated with goal one of the National Plan
 - Facilitates strategic coordination and collaborations
 - Spans the entire AD research landscape including basic, translational, clinical and health services research
