Definitions

Remote: Conducts majority of work from home and may come into a physical space for institutional events, large scale meetings or team bonding activities.

Hybrid: Has a set schedule that is both working in-person or at home. Typically 2-3 times a week in the office and 2-3 times at home.

In-Person: Scheduled to work in-person every day of their normal work schedule (ie. often doctors, nurses, clinical staff).

**Do you work remotely,
hybrid or in-person?**

Employee benefits of remote/hybrid work

- Gain greater work-life balance
 - Reduce Burnout
 - Time savings on a commute
 - Increased productivity
 - Fewer distractions

What is workplace culture and why is it important?

What is workplace culture?

“Work culture is a collection of attitudes, beliefs and behaviors that make up the regular atmosphere in a work environment.”

~Indeed

“The shared values, belief systems, attitudes, and set of assumptions that people in a workplace share”

~ Forbes

**How do you describe a
good workplace culture?**

**What words would you use to describe
a bad workplace culture?**

Research by Deloitte shows:

- 94% of executives and 88% of employees believe a distinct corporate culture is important to business success
- 83% of executives and 84% of employees rank having engaged and motivated employees as the top factor that substantially contributes to a company's success

Why is workplace culture important?

- Attracts & retains employees
- Increases employee engagement
- Boost morale
- Employees have pride in their work and workplace

**The Best
recruitment
strategy I know:
Treating people
so well, they tell
Everyone about
you.**

How can managers create & maintain a positive work culture in a hybrid or remote workforce?

Pre-COVID Workplace Culture

- Informal hang-outs were more common
- Coffee machine chats

 - Build psychological trust
 - Ensure your employees stay connected to the institution and your team

Creating a positive work from home culture - Employees

- Have an effective work-from-home space
- Create and stick to a schedule (allowing for flexibility)
- Attend team bonding and institutional-wide events

Setting up an effective work from home space

- Employees should have a dedicated work from home space
- Ensure employees have supplies to effectively work from home

Physical Space: Desk, Chair, Office Supplies

Technology: Laptop, Monitors, Docking Stations, Headphones, Webcam, Printer, Paper Shredder

Verify comfort of work from home

- Respect working hours
- Calendar blocking

“My work hours may not be your working hours. Please do not feel obligated to reply outside of your normal schedule”

Psychological safety and trust

Psychological Safety	Trust
Not punished or humiliated for speaking up with ideas, questions, concerns, mistakes	Can rely on another person or team
Comfortable expressing self without fear of negative consequences	Sense of predictability and reliability in behavior of others based on history
Empowers risk taking, innovation, contribution to group success	Critical for building positive relationships, effective teams, achieving shared goals
Will OTHERS give you the benefit of the doubt when you take a risk?	Will YOU give others the benefit of the doubt when you take risk?

“The academic research is overwhelming: when people believe they can speak up at work, the learning, innovation, and performance of their organizations is greater. Teams and organizations in which people believe that their voices are welcome outperform their counterparts.”

~ Dr. Amy Edmondson
