SRA INTERNATIONAL | SOCIETY OF RESEARCH ADMINISTRATORS INTERNATIONAL

Annual Conference – October 26-30, 2024

FIND FUNDING OPPORTUNITIES

Karen Mitchell, MBA
Director of Special Projects
Temple University

FIND

- Objectives
  - 1. Identify funding opportunities utilizing electronic, social media and interpersonal mechanisms.
  - 2. Examine best practices in communicating funding opportunities and programs of significance to investigators and interested parties.

WHY FIND FUNDING?

MATCHING CAREER INTEREST WITH FUNDER

- NIH's mission is to seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability.
- AHA's mission is to be a relentless force for a world of longer, healthier lives.
- PCORI helps people make informed healthcare decisions, and improves healthcare delivery and outcomes, by producing and promoting high-integrity, evidence-based information that comes from research guided by patients, caregivers, and the broader healthcare community.

WHAT IS A FUNDING MECHANISM?

A type of instrument used to fund or award financial support of a proposed project.

TYPES OF FUNDING MECHANISMS

- Contracts
- Cooperative Agreements
- Research Grants
- Training Awards

GRANTS VS COOPERATIVE AGREEMENTS VS CONTRACTS

Designed to provide money to support a public purpose. Few restrictions

Designed to provide money to support a public purpose. Effort/Involvement from both parties

A binding agreement between a buyer and a seller to provide goods or services in return for consideration

FUNDING ANNOUNCEMENTS

- Funding announcements come in many formats.
- What are some of the formats?

FUNDING ANNOUNCEMENTS CONTINUED

Typical

RFA's (specific research or project area, organizations must submit comprehensive application)

RFP's (broader in scope and require organizations to propose a solution to a problem or need)

FOA (public notice of grant monies available by federal agency)

Agency Specific

BAAs (obtain proposals for basic applied research and development to advance or evaluate cutting edge technologies)

Parent Announcements (investigator-initiated applications)

PA's (formal statement about a new or ongoing extramural activity or program)

NOSIs (direct one or more active funding goal increase efficiency and decrease administrative burden)

Other

RFQSs (related to procurement of products or services)

LOI (preliminary letters expressing interest in opportunity or partnership)

IFBs (sealed bidding process-used when there is not a clear description of the project scope, requirements, qualifications)

GRANTS.GOV

- Is a system designed to enable
  - A) Federal grant-making agencies to create funding opportunities
  - B) Applicants to find and apply for these federal grants.

LOGIN

Applicants: Use the Login.gov option below.

If you do not have a Grants.gov username and password, please register for an applicant account. You will be prompted to link your Grants.gov account to a Login.gov account.

Grantors: Login with the method required by your agency.

For more information about login options, refer to Grants.gov Online Help: Login and My Account.

About Us

Congressionally Directed Medical Research Programs (CDMRP)

- Leadership
- Organization Chart

The CDMRP originated in 1992 via a Congressional appropriation to foster novel approaches to biomedical research in response to the expressed needs of its stakeholders-the American public, the military, and Congress.

Hallmarks of the CDMRP include:

- investing in groundbreaking research
- targeting critical gaps
- reviewing application using a two-tier formal review with no standing peer review

FEDCONNECT

- FedConnect assist vendors and grant applicants to find opportunities for contracts, grants and other types of assistance funding.
- https://www.fedconnect.net/FedConnect/Default.htm
- This is a full lifecycle system and includes the ability to post opportunities, receive responses, deliver awards, and communicate throughout the pre-award, award and post-award phases using a secure 2-way messaging.

FEDCONNECT CONTINUED

- Register for a Free Account: you will need your DUNS and UEI number
- If your UEI# is already registered, the system will send a notification to your administrator, who will have to sign in to FedConnect and give you access.
- FedConnect Help Desk: **support@fedconnect.net** or 1-800-899-6665 Option #2
- Link to FedConnect 3.0 Instructions: **https://www.fedconnect.net/FedConnect/Marketing/Documents/FedConnect_Ready_Set_Go.pdf**

Do you want the US federal government to buy your products or services? Or, are you seeking grants or assistance funding?

FedConnect can help. Every day, FedConnect helps over 100,000 vendors and grant applicants, find, respond to and win opportunities for contracts, grants, and other types of assistance funding. To learn more about how FedConnect works, click here to review the tutorial.

Do you work for a federal agency?

FedConnect is the perfect complement to SAM Contract Opportunities (beta.SAM.gov) and Grants.gov. FedConnect goes beyond the basic features of those systems to provide full lifecycle support including the ability to post opportunities, receive responses, deliver awards, and communicate throughout the pre-award, award, and post-award phases using FedConnect's secure 2-way messaging.

Fellowships to USA Individuals to Pursue Doctoral Degrees in Mathematics, Science, or Engineering at Eligible IHEs

Hertz Fellowship

Agency
Foundation

GrantWatch ID#
192579

Funding Source
FANNIE AND JOHN HERTZ FOUNDATION

Geographic Focus
All USA

Important Dates
Deadline: 10/27/23 11:59 PM PST

Grant Description
Fellowships to USA individuals planning to pursue a doctoral degree in mathematics, science, or engineering at eligible IHEs throughout the country. This program is open to college seniors, individuals in a gap year applying to graduate school, and first-year graduate students. Eligible applicants must intend to direct their studies toward understanding and solving major, near-term problems facing society.

The Hertz Fellowship provides financial and lifelong professional support for the nation's most promising graduate students in science and technology. The Hertz Foundation awards fellowships to graduate students pursuing a PhD in the applied physical and biological

sciences, mathematics, or engineering.

The fellowship includes up to five years of funding and the freedom to pursue innovative projects wherever they may lead. In addition, fellows take part in ongoing mentoring, symposia, and workshops with a vibrant community of more than 1200 fellows, a set of peers who span disciplines, generations, and geography. Access to career development curricula, individualized mentorship, and networking opportunities accelerate the growth of Hertz fellows during their doctoral training and throughout their careers.

To receive fellowship funding, students must be enrolled full-time in one of the Hertz Foundation's approved participating schools. For a list of participating schools, see https://www.hertzfoundation.org/the-fellowship/eligibility-benefits/#participating-schools.

The Foundation does not award fellowships based on an applicant's particular field of study; however, the Foundation does require that applicants direct their work toward understanding and solving major, near-term problems facing society. For each applicant, that could mean something different—inventing a new technology, developing a business, or applying their interests in innovative ways.

It's up to the applicant to advocate for their specific field of study and demonstrate how it will be applied to address real-world challenges with the greatest impact.

Recipient

Additional Eligibility Criteria
All eligible applicants must:
- Be college seniors, first-year graduate students, or in a gap year preparing to apply to graduate school;
- Intend to pursue a PhD in the applied physical and biological sciences, mathematics, or engineering;
- Intend to direct their studies toward understanding and solving major, near-term problems facing society; and
- Be citizens or permanent residents of the United States.

Applicants who are not a US citizen must show proof of Application for Citizenship or their Permanent Resident card if they advance through selection to the interview phase. All applicants are asked to make a moral commitment to make their skills available to the United States in times of national emergency.

Anti-Discrimination Notice: The Foundation does not discriminate against any individual on

the basis of sex, race, creed, religion, color, gender, gender identity, gender expression, national origin, ancestry, physical or mental disability, medical condition, genetic information, marital status, registered domestic partner status, age, sexual orientation, military and veteran status, or any other basis protected by law.

Ineligible
The Foundation does not award fellowships to applicants pursuing professional degrees other than a PhD, such as an MD, JD, MBA, DPH, or DVM. However, the Foundation will support the PhD portion of an MD/PhD program.

The Foundation generally does not award fellowships to students after their first year of graduate school, except in rare cases where the fellowship will make an exceptional difference in the kind, quality, or creativity of the applicant's graduate research. There have been only two such cases in the last 10 years.

Pre-Proposal Conference
2024 Hertz Fellowship Information Session:

On Thursday, August 17, at 6:00 pm Eastern, join Hertz Fellowship Director Derek Haseltine and Hertz Fellows Nikhil Goyal, Bailey Flanigan, and Jane Wang for an online information session to learn more about this unique doctoral funding opportunity and receive advice from foundation leadership and fellowship recipients to help prepare your application. You can sign up using the registration form below, and you will be sent a Zoom link with more details.

If you have any questions you'd like answered at the event, please submit them at https://docs.google.com/forms/d/e/1FAIpQLSdC2Sx-ZawK9cgUcVcqPMSKB64SHsq52p4shnXBdj1gKz9-A/viewform. For other questions about the fellowship or event, please email fellowshipinfo@hertzfoundation.org.

To register: https://www.hertzfoundation.org/event/2024-hertz-fellowship-information-session/

Pre-Application Information
The Hertz Fellowship application is open from Monday, August 14, 2023, until the deadline on Friday, October 27, 2023, at 11:59 pm PST.

The first round of interviewees are selected by early November. You should hear from the Foundation regarding your application status by mid-November.

After the application closes on Friday, October 28, 2022, applicants who advance beyond pre-selection will be invited to first round interviews (virtual) in December 2022 and January 2023. Second round interviews (in-person) for select finalists will be conducted in February 2023. Fellows will be selected in late March 2023 and announced publicly in May 2023. Funding for the selected Hertz Fellows will begin in fall 2023.

The deadline for submitting recommender evaluations is Monday, October 31, 2022, at 6:00 pm PST.

One of the requirements of the Hertz fellowship is that fellowship schools must be in the United States. If you're awarded a fellowship and your school is not on the list of participating schools, you may ask to have it added to the list, and the Foundation will do their best to work with your school to negotiate an agreement. Fellows may also change to another participating school at any time during their fellowship.

When to apply: The Hertz Fellowship will fund only the PhD portion of an MD/PhD program. The Foundation encourages students to apply during the year before starting the PhD portion of an MD/PhD program. You are eligible to apply either the year before you plan to begin your dissertation research, the PhD portion of your program, or during your first year of the PhD portion.

Estimated Size of Grant
The Hertz Fellowship compensation package includes a cost-of-education allowance and a personal stipend valued at up to $250,000.

Fellows have two options for receiving their fellowship compensation.

Option 1: Funding from the Hertz Foundation Only
- $38,000/nine-month personal stipend
- Full tuition equivalent
- Renewable annually for up to five years
- $5,000/year stipend for fellows with dependent children

Option 2: Coordination with Another Awarding Institution
If you receive a fellowship, scholarship, or grant offer from another funding entity, the Foundation will coordinate with that organization or institution to make sure you can take advantage of each offer and receive the maximum possible compensation.
*Example: Three-year fellowship with the National Science Foundation (NSF):
- Hertz Foundation period: Full tuition equivalent and $44,000/nine-month personal stipend
- NSF period: $9,000/year supplemental stipend from Hertz Foundation
- Renewable annually for up to five years
- $5,000/year stipend for fellows with dependent children

Term of Contract
The fellowship includes up to five years of funding.

How to Write a Standard Grant Proposal

September 27, 2023 · Danika Harris · 1147 Views · 0 Comments

Grants are a great way to help secure funds for important projects. You probably know that nonprofits or organizations seek grants for their projects. However, did you know that individuals, such as teachers or social workers may also seek funding to develop programs or purchase supplies? Furthermore, grants do not have to be repaid. Because of this, learning to write a grant proposal is crucial for any nonprofit or business. In this article, the GrantWatch team explores grant proposals and how to write them effectively.

What is a Grant Proposal?

A grant proposal is a document submitted to funding organizations to receive funding for a specific purpose. Individuals in many industries, such as education, science, and art, write grant proposals to obtain funding for their projects. This document provides details about the organization or individual in search of funding. For example, the outline predicts positive outcomes and benefits. A good proposal should include the amount of funding the project requires. It's a breakdown of how the project's organization or individual may use the funding.
