

**Martin M. Matzuk, M.D., PhD**  
**Baylor College of Medicine**

Martin M. Matzuk, M.D., Ph.D. is Director of the Center for Drug Discovery and Professor and Chair in the Department of Pathology & Immunology at Baylor College of Medicine (BCM), and Director of Clinical Chemistry at Ben Taub Hospital. He graduated with a B.A. with honors in biology from the University of Chicago, earned his M.D. and Ph.D. from Washington University School of Medicine, performed residency training in clinical pathology at the University of Pennsylvania and BCM, and joined the BCM faculty in 1993. Dr. Matzuk is acknowledged for his elucidation of TGF $\beta$  family, germ cell, and hormonal signaling pathways using functional genomics and chemical biology approaches. He has published more than 370 papers, is an inventor on 13 patents, generated over 100 mouse models, and lectured at more than 170 symposia. He has mentored over 50 students and fellows as a faculty member at BCM, and he was the recipient of the 2015 Trainee Mentoring Award from the Society for the Study of Reproduction. He chaired the NIH CMIR study section and Burroughs Wellcome Fund CABS and CAMS review panels. Dr. Matzuk was elected to the National Academy of Sciences in 2014 and as a Fellow in the National Academy of Inventors in 2016. His research has been supported continuously by NICHD since 1991, and he received a MERIT award from NICHD in 2001.
