SVU Travels to Increase Awareness

2013 was a year of many travel events for staff and board members alike. To achieve a goal set in January of increasing awareness of SVU and the value we provide as an organization, SVU set out to exhibit at a variety of conferences. As you can see from the list below, it made for a busy half of the year.

During our travels we met some really great members, prospective members and the leaders from fellow organizations. We gained insight into what we can do better as a society and we plan to grow to meet *your* needs. 2013 has been a great year so far and we look forward to 2014.

American College of Cardiology	San Francisco, CA
