Come celebrate the end of winter with the NOVA team! We have a diverse program with talks from physicians and technologists from around the region. We also have a special guest in JP Moreland from Samsung who will discuss 'Advanced Technologies'. Lastly, there will be a competition for interesting cases presented by LCCC Students which should be lots of fun. Breakfast and lunch will be provided. There will also be Door Prizes and Raffles!!

The board of NOVA hopes you can join us on April 22, 2017 for great lectures, networking and good food! We want to thank you for your continued support of NOVA over the years!
