

Oncology Nutrition

a dietetic practice group of the

Academy of Nutrition
and Dietetics

Oncology Nutrition Research Grant

Frequently Asked Questions

- Question:** Can I become a member of the Oncology Dietetic Practice Group (ON DPG) to apply for the Oncology Nutrition Research Grant?

Answer: Yes, but clinicians and students must be members prior to the application deadline of 03/12/2021. More information regarding membership can be found at: <http://www.eatright.org/membershipinfo/#academyassociate>.
- Question:** Will late submissions be considered?

Answer: No, the grant application and all materials must be submitted electronically to Qualtrics by 11:59 PM EST on 03/12/2021. The submission link can be accessed at: https://osu.az1.qualtrics.com/jfe/form/SV_6YABLagj65mKjGJ
- Question:** Will the applicant be awarded the funds directly?

Answer: No, payment will be made directly to your university, institution, or organization.
- Question:** My study has not yet been approved by the Institutional Review Board (IRB). Can I still apply for the ON DPG Research Grant?

Answer: Yes, indicate that your research protocol is pending or will be submitted to the IRB with the anticipated IRB submission date.
- Question:** How will I know that my application has been received?

Answer: All applications, upon receipt, will receive an auto-generated response that the application has been received.
- Question:** How long will the review process take?

Answer: All grant applications will be reviewed within one month of the deadline date.
- Question:** How will I be notified if I am a recipient of the ON DPG Research Grant?

Answer: Grant awardees will receive an email notification with further instructions. Please include your primary email address on the submission link.
- Question:** What is the process of the application review?

Answer: A blinded review process is used for this grant. Three to four oncology RDNs with research experience will review each application. An objective scoring rubric is used to ensure consistency in the scoring process.
