Vision: A world where all people thrive through the transformative power of food and nutrition  
Mission: Through philanthropy, empower current and future food and nutrition practitioners to optimize global health.

Principles:  
The Foundation supports:  
- Proactive application of inclusive grant making and fundraising practices to enhance access in the dietetic profession.  
- Integration of research, professional development, and practice to stimulate innovation and discovery.  
- Collaborations to solve the greatest food and nutrition challenges now and in the future.  
- A system-wide impact across the food, well-being, and health care sectors.  
- Elimination of all forms of malnutrition globally.  
- Expansion of workforce capacity, capability and the contribution of food and nutrition practitioners.  
- Accountability through transparency and fiduciary responsibility.
