

CPEU FAQ

1. Why did DDPG integrate with the Academy's Learning Management System (LMS)?

All DPG/MIGs are being integrated with the LMS. The LMS supports easy access to webinar recordings, quizzes, CPE newsletter articles and CPEU certificates. The LMS also increases awareness and visibility of DDPG's continued education and opportunity for membership because it connects with the Academy's online eatrightSTORE.

Integrating with the LMS allows DDPG members to have one-stop access to their CPE history. Members will find CPE certificates for any Academy CPE items including DPG/MIG items within the LMS making it easier to track history and find certificates.

2. I am being charged for the CENDC issue or webinar. How do I receive the \$0 member price?

You must be logged into the Diabetes DPG website as a member prior to clicking on the registration link that takes you to the eatrightStore.

When you first add the product into your cart it may show the \$24 non-member price, but it should refresh to \$0 as you continue through the checkout process.

If the Store is still showing the non-member price when you get to the confirmation page (as shown below), please delete the product from your cart, refresh the page in order to ensure that the Store has picked up your membership, and then go through the process again.
