

CPEU User Guide

The process for accessing webinars and CENDC CPEU publications has changed for better integration with EatRightPro!

DPG/MIGs are being integrated with the Academy’s Learning Management System (LMS) that supports easy access to webinar recordings, quizzes, CPE newsletter articles and CPEU certificates. The LMS connects with the Academy’s online eatrightSTORE to increase awareness and visibility of DDPG’s continued education and opportunity for membership.

Integrating with the LMS allows DDPG members to have one-stop access to their CPE history. Members will find CPE certificates for any Academy CPE items including DPG/MIG items within the LMS making it easier to track history and find certificates.
