Registration**
the credentialing agency for the
eat right. Academy of Nutrition
and Dietetics

Are you interested in expanding your current staff or helping your employees advance themselves professionally? Incorporating DTRs into your clinical nutrition or food service management teams is a benefit to your existing professional staff as well as to your clients/customers. Commission on Dietetic Registration's (CDR) has developed sample position/job descriptions for eight employment categories. Please review them to determine if hiring a DTR is right for your program: [**cdrnet.org/opportunities**](https://cdrnet.org/opportunities).

Individuals who have successfully completed either an associate degree and an Accreditation Council for Education in Nutrition and Dietetics (ACEND) accredited Dietetic Technician (DT) program, or a bachelor's degree and an ACEND accredited Didactic Program in Dietetics (DPD) program, are eligible to take the registration examination for dietetic technicians without meeting additional academic or supervised practice requirements. Once credentialed, these individuals are required to comply with CDR's professional development/recertification requirements, the Code of Ethics for the Profession of Dietetics, and the Standards of Practice. For more information on pathways to DTR exam eligibility, please visit [**the CDR website**](https://eatright.org/cdr).

If you have comments or questions about eligibility to take the registration examination for dietetic technicians, please contact [**cdrexams@eatright.org**](mailto:cdrexams@eatright.org).
