

THE CERTIFIED ADVANTAGE:

- Master concepts and technologies used by today's hackers.
- Gain real-world cybersecurity defense knowledge and skills you can put to use immediately.
- Take security into you own hands with the ability to run basic scanning processes on demand as threats arise.
- Better understand your risks so you can better communicate them to your team.

WHAT YOU WILL LEARN:

- The four step process: information gathering scanning, exploitation, and post exploitation
- How attackers leverage the web
- Post scanning, fingerprinting, and versioning techniques
- Vulnerability scanning with Nessus
- Exploitation and privilege escalation utilizing John the Ripper
- Exploitation with Metasploit
- Exploiting the human by "hacking" users
- Post exploitation and meterpreter

CERTIFIED BANKING

Ethical Hacker

CBEH™

TESTIMONIAL:

"I was fortunate enough to be involved in the first offering of the certification program and due to the program's benefits, I continue to renew each year. Each year I learn something new and more innovative ways to grow the bank's program. SBS has been a resource not only for their certification programs, but also as a security partner."

- Rachel Losey, PA

INSTRUCTOR:

Ashton Hanisch, CEH, CPT, Security+
Penetration Test Engineer
Secure Banking Solutions
