

THE CERTIFIED ADVANTAGE:

- Gain a clear understanding of scanning tools available in the market.
- Explore best practices for continuous vulnerability monitoring.
- Take security into your own hands with the ability to identify and remediate vulnerabilities at your institution.
- Find bugs to patch, security settings to fix, and software to remove on your systems.

WHAT YOU WILL LEARN:

- Regulatory Overview and Vulnerability Assessments
- Vulnerability Assessment Tools
- Perimeter Network Testing
- Web Application Vulnerability Testing
- Introduction to Packet Capture and Analysis
- Remediation, Reporting, and Action Tracking
- Cloud, Remote Access, and VPN Considerations

TESTIMONIAL:

"I was fortunate enough to be involved in the first offering of the certification program and due to the program's benefits, I continue to renew each year. Each year I learn something new and more innovative ways to grow the bank's program. SBS has been a resource not only for their certification programs, but also as a security partner."

- Rachel Losey, PA
